

# Birmingham City Council

## Report to Cabinet

23 April 2024

---

**Subject:** Creating an Active Birmingham Strategy 2024 – 2034  
Ratification

### Commissioner Review

Commissioners support the recommendations. However, there are a number of areas where the Council's approach could be clearer. The Implementation Plan should set out the timescales and resources required. It is unclear who will be responsible for the recommendations contained within the Physical Needs Assessment. Finally, the Council should set out how these proposals fit in with the overall financial context of the Council. Commissioners would like to see an update with supplementary detail following Cabinet.
