

Birmingham Health and Wellbeing Board Development Day - Feedback

*The Exchange, 3 Centenary Square
Wednesday 17th May 2023*

Background

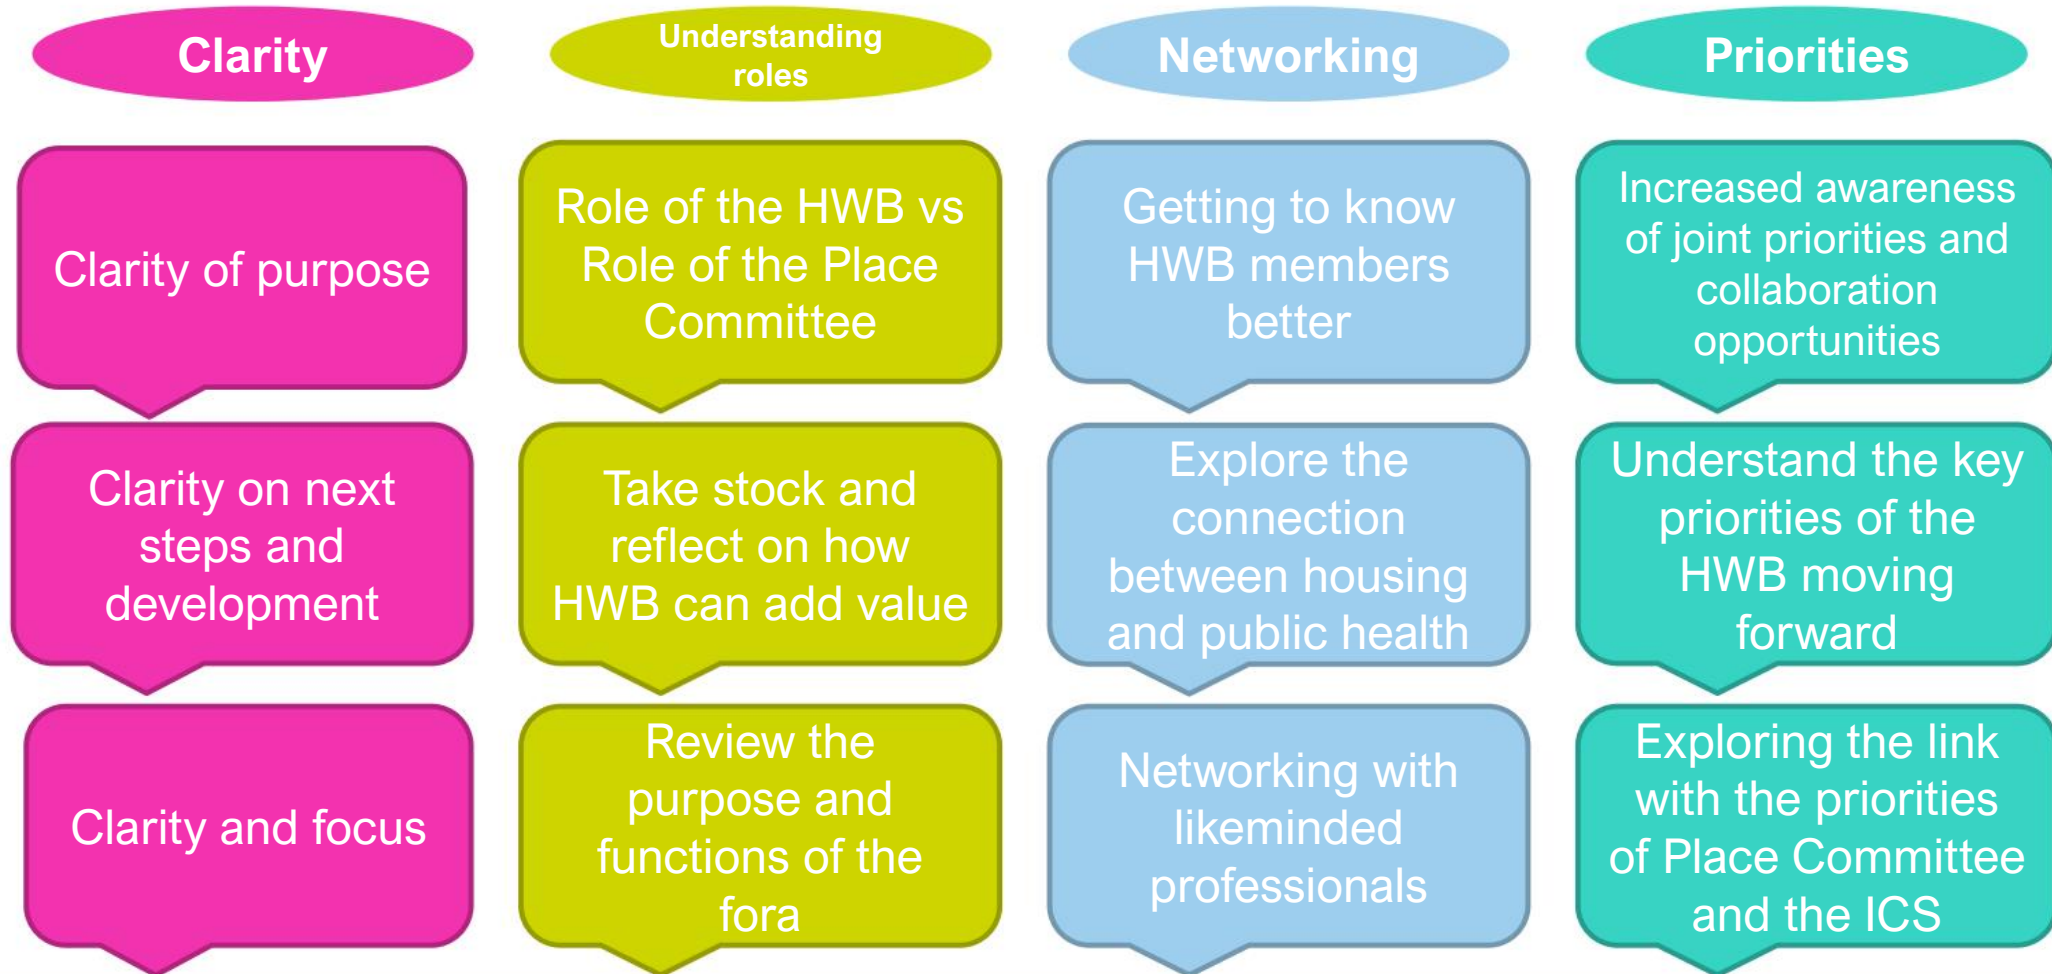

The Health and Wellbeing Board Development Day took place on Wednesday 17th May 2023 at The Exchange (University of Birmingham) building. The Development Day was attended by twelve board members and key partners, including the leads of the Health and Wellbeing Board's Forums.

Board members discussed their role and purpose, relationships with partners and their Creating a Bolder Healthier City Strategy. The ideas generated and feedback provided is summarised on the following sections:

- [Role and purpose](#)
- [Forums and partners](#)
- [Pre-Mortem Exercise \(Creating a Bolder, Healthier City Strategy\)](#)
- [Facing the challenge and actions](#)

The feedback has been used to develop a series of recommendations and proposed actions for the Board to consider.

What did members hope to gain from the day?

BIRMINGHAM HEALTH AND WELLBEING BOARD – OUR ROLE, PURPOSE & PARTNERS

BE BOLD BE BIRMINGHAM

Health and Wellbeing Boards - Drivers and Barriers

Committed leaders, both political and managerial

Collaborative plumbing, often reflecting a history of partnership working

Clarity of purpose, being clear about the primary task of the HWB

A geography that works, or has been made to work

The response to budget changes, which can drive either collaboration or a retreat to silos

A focus on place, with local priorities that drive collaboration

A director of public health, who 'gets it'

High quality support, and a flexible approach to the council committee format

Churn in the system, within local government and health

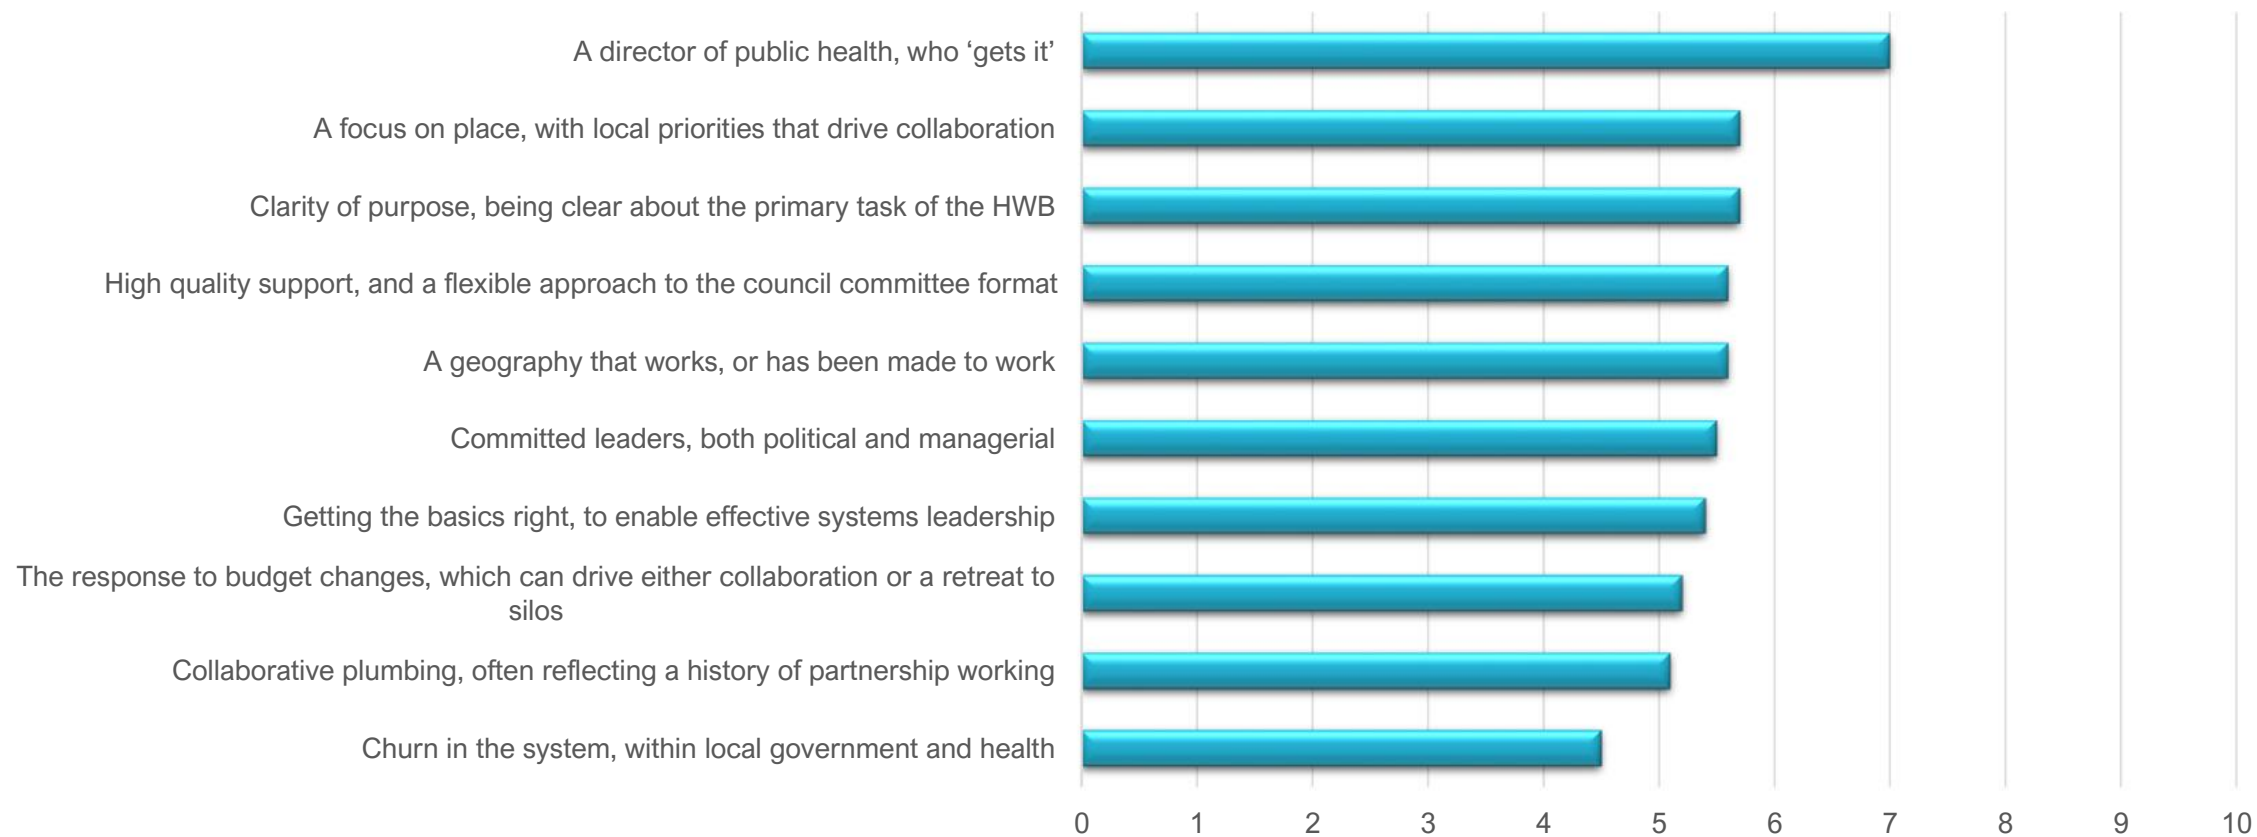

Getting the basics right, to enable effective systems leadership

[Effective health and wellbeing boards findings from 10 case studies \(local.gov.uk\)](https://www.local.gov.uk/effective-health-and-wellbeing-boards-findings)

Health and Wellbeing Boards - Drivers and Barriers

How well do we perform against these drivers? (0-10; 0 'performs very poorly', 10 'performs very well')

A BOLDER HEALTHIER BIRMINGHAM

Breakout groups: Our role and purpose

- What is the role of the Health and Wellbeing Board?
- What aspects of the Health and Wellbeing Board are working well?
- Which aspects could be improved upon?
- What can I contribute to the Health and Wellbeing Board?
- How can I make my contribution effective?

Feedback: Our role and purpose

What is the role of the Health and Wellbeing Board?

Leadership and
direction-setting

Collectively
deliver the
priorities in the
HWB Strategy

Create
joined-up
working
across the
health and
care system

Improve
health and
wellbeing and
reduce health
inequalities

To provide
accountability
and
governance

Place to
disseminate
and reflect
knowledge
and
experience

Taking a
systems
approach
with
partnership
working

Cross-
organisational
collaboration

Feedback: Our role and purpose

What aspects of the HWB are working well?

Functioning
and adding
value during
the Covid-19
pandemic

Strong public
health
leadership

Clarity of
purpose from
the HWB
Strategy

Helping to
achieve
greater
integration

Alignment of
strategic aims
between
organisations

Strong
partnership
working
apparatus

Helping to
identify
people who
may not be
known to
other
organisations
(e.g. DWP)

Feedback: Our role and purpose

What aspects of the HWB could be improved?

Shorter reports/
briefing details

Infrequent attendance

More alignment required with the ICS Place Committee

Limited opportunity to challenge items before sign-off

Forums could have greater steer from the HWB

Improve external communication, especially to communities

Reduce risk of duplicated work

Better defined link with Adult Social Care

Greater focus on localities/wards (e.g. West Birmingham)

Feedback: Our role and purpose

What contribution can I make and how can I make it effective?

Balance capacity of smaller organisations (e.g. Healthwatch)

Contribute data, evidence and insight

Provide scrutiny and keep the HWB accountable

Establish formal link with other partnerships (e.g. Community Safety Partnership)

Consistent presence of ASC on the HWB

Accountability

Problem-solving

Providing the crucial link into the activity of the forums

Breakout groups: Our forums and partners

- What is working well across the forums and with our wider partners?
- How do we build partnerships whilst holding ourselves and partners to account?
- How can the HWB enable the forums to be more effective?
- Are the forums fit for purpose? If not, what needs to change?
- Where are the gaps?

Feedback: Our forums and partners

What is working well?

Improving
cross-
organisational
knowledge

Ensuring
better
collaboration

Individual
relationships
at forums are
getting
stronger

Involvement
of the
community
sector at each
forum

Increased
partnership
working and
contact

Brings
together a
range of
relevant
partners

Knowledge
sharing

Bringing
awareness
of possible
solutions

Feedback: Our forums and partners

How can build partnerships and ensure effective working?

Forums need to build better links into the HWB and its decision-making

Lived experience could be considered by individual forums, then fed up to the HWB

Forums can help the HWB work beyond the confines of statutory requirements

Forums could have an outcomes framework measured against the HWB Strategy

Forums need wider organisational commitments so that it doesn't rely on individuals

Forums could branch out beyond meetings to events/initiatives (e.g. Creative Dinners)

Build on learning by hosting inter-forum sessions

Use Community Safety Partnership model of an Executive Group to streamline items at HWB

Feedback: Our forums and partners

Are the forums fit for purpose? Where are the gaps?

Forums should have more themed discussions/presentations to avoid unstructured discussion

Forums need to move from a passive role to an active one

Governance set-ups could better involve Healthwatch and academic sector

Better communication methods for forums members (i.e. not LinkedIn)

There needs to be better defined accountability between the forums and the HWB

The membership of the forums may need to be reviewed more frequently

Better representation for the forums at HWB meetings

PRE-MORTEM EXERCISE CREATING A BOLDER HEALTHIER CITY STRATEGY (2022-2030)

BE BOLD BE BIRMINGHAM

Pre-Mortem Exercise

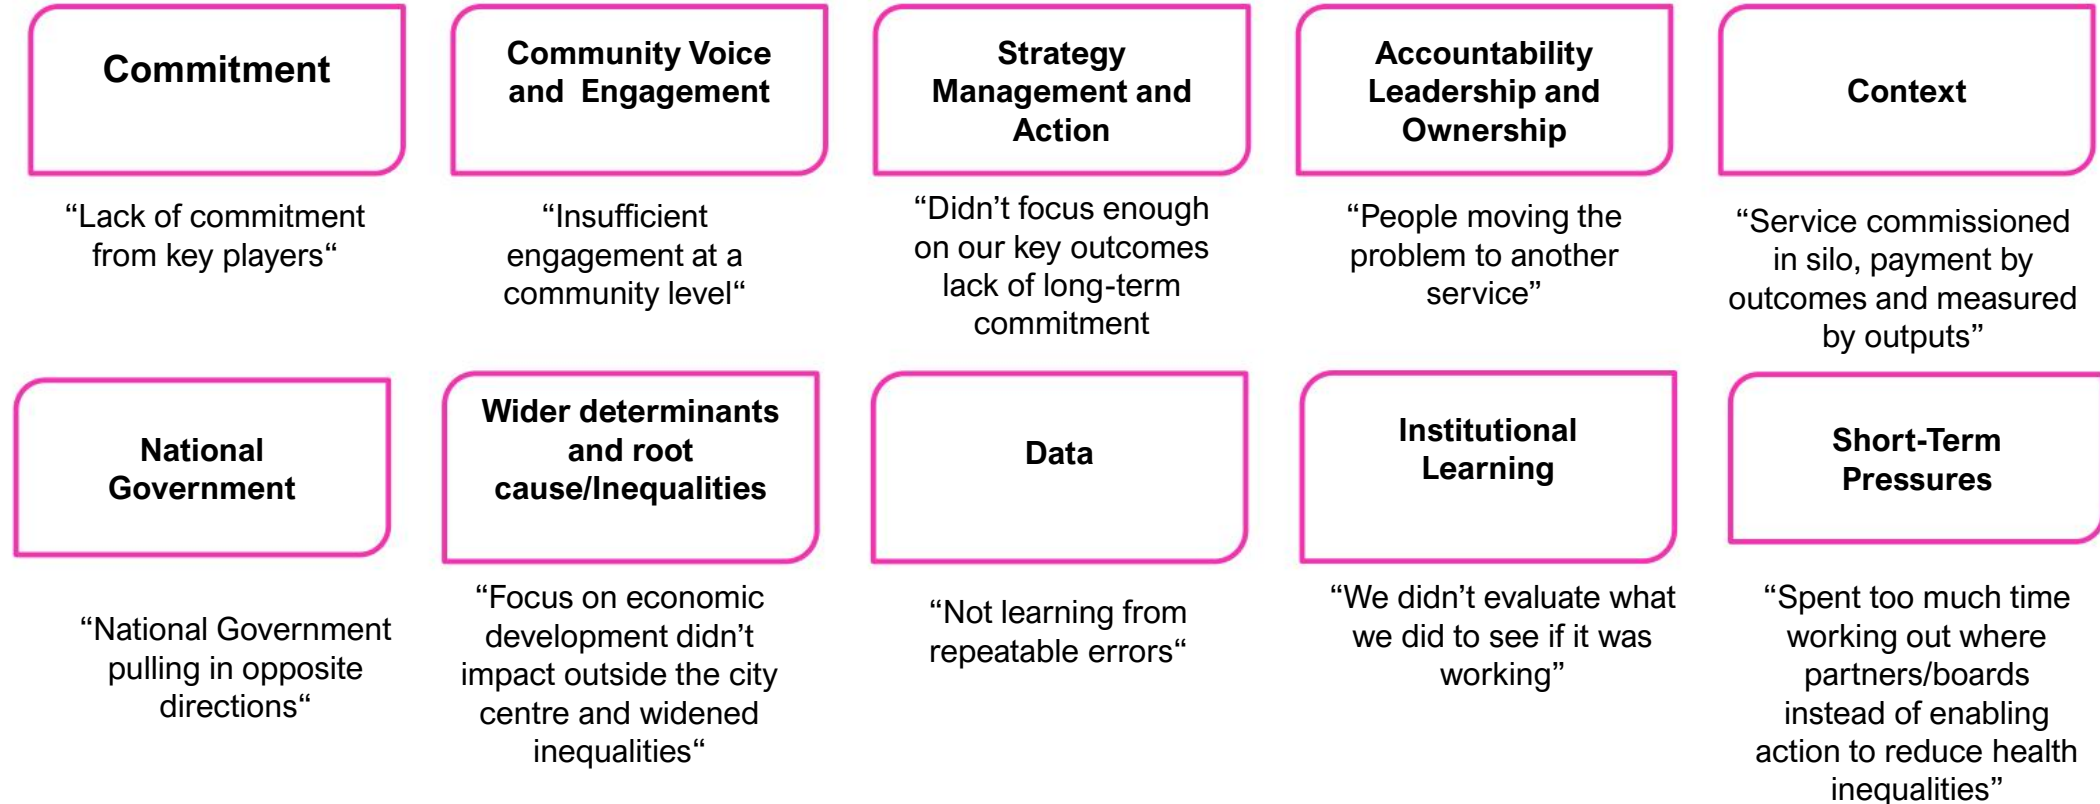

Step One: What went wrong?

- a) **Individually** list on post-it notes all of the things that could go wrong. Only list the problems (not the solutions):
 - What went wrong?
 - Why did the indicators not improve/get worse?
- b) Bring together the post-it notes and place into themes.
- c) Move around the room with your stickers, vote for the top five potential problems/failures (themes or specific failure).

Step two: Facing the challenge

- Focus on the top problems/failures identified. Write down the top five (most votes) on a new sheet of paper. Start by going further into the problems/failures, asking:
 - What happened to cause that?
 - Keep asking “why has this happened?” to identify logical causes
- Move into solution mode and brainstorm actions needed to avoid/prevent the key problem/failure.

Feedback: (Pre-mortem) - What went wrong?

Why did the strategy fail? (1)

Lack of Accountability/responsibility

5th Why

No one has named an owner (of action)

Solution: Link between HWB and day job

Solution: Robust action plans e.g., names, deadlines

Solution: Clear Governance structure and accountability

Lack of system leadership

5th Why

Loyalty to organisation, not community

Solution: Change performance culture

Solution: Partnership working with check-points

Solution: Lead from bottom up

Not converting strategy into action

5th Why

Lack of tangible/action because haven't made the time to do the work

Solution: Actions that are owned

Solution: Trust to use resources correctly

Solution: Articulate benefits for individual and organisation

External Influences though National Government/Short-term pressures

5th Why

Easier decision than facing bigger problems

Solution: Be explicit about external influences so can see own performances

Solution: Highlight success and failures short and long-term

Solution: Outside expertise on relationships

Why did the strategy fail? (2)

Neglecting/not focusing on the wider determinants

5th Why

Focus on wider determinants that can be controlled

Solution: Focus of wider determinants that can be controlled

Solution: Focus on areas can influence and be creative

Failure to listen and engage with stakeholders

5th Why

Easier not to do

Solution: ToRs to show commitment

Solution: Being understanding and supportive of each other

Failure to involve/empower communities

5th Why

Skill draw from a certain pool/ culturally does this attracted those with lived experiences

Solution: Work with experts by experience

Solution: Build relationships with communities

Lack of/Insufficient use of Capacity/Resources

5th Why

Lack of culture and leadership

Solution: Examine other models e.g., Better Care Fund

Solution: Accepting realistic time constraints

FACING THE CHALLENGE AND MAKING AN IMPACT

BE BOLD BE BIRMINGHAM

Breakout groups: What changes do we need to make?

Areas to consider:

1. **Role** - Do we need to change or clarify the role of the Health and Wellbeing Board? Do we all agree?
2. **Membership** – Do we need to change the membership to ensure we have the right people in the room? Who else do we need to bring in? And how will we ensure that each member can contribute?
3. **Structures** – What changes do we need to support our sub-structures and how we work with other partnerships? E.g. HWB Forums, ICS Place Committee, HOSC
4. **Prioritisation** – What changes do we need to make to ensure we consider only the most important issues?
5. **Support** – What changes do we need to make to ensure the Board is supported effectively?

Are these changes:

- a) Immediate (0-6 months)
- b) Medium term (6 months-2 years)
- c) Long term (2-8 years)

Feedback: What changes do we need to make?
