

Requisition of a Full Council

We the Undersigned Councillors hereby present a petition to the Lord Mayor for an Extraordinary Council Meeting of Birmingham City Council for the urgent purpose of discussing the Waste Management Governance Review published in December 2018. The need for discussion is supported by the concluding remarks of the Review which should also form the framework for debate:

16.5 An inevitable question that they must ask is what has changed in terms of governance and the underpinning culture of trust between the key players in BCC since the Kerslake report.

16.6 And if not enough has changed, why not (and what will be different this time).

Given the seriousness of the matter, it is requested that the entirety of the meeting is given over for this debate and that it is held within 10 working days.
