

Developing Local Support and Provision – North West

About the Locality Team

The Locality Team are a group of professionals that support schools and families to meet the Special Education Needs of children and young people across a consortia of schools.

The team of professionals include:-

- Educational Psychologists and Assistants
- Specialist Teachers and Teaching Assistants
- Speech & Language & Occupational Therapists
- Parent Link Officers

For most children and young people, it is recognised that their needs can be met in their local school, it is therefore essential that schools and families feel supported and able to provide the right environment to do this. The locality team are there to support this. The TEAMS also there to identify children and young people who may require access to more specialised support as well as those who may require a more intense, longer term specialised provision.

Local Meetings

Consultation & Planning Meetings

The local planning meetings are held termly with senior leaders to provide the opportunity to identify areas where the school are stuck and require additional support and advice to ensure the needs of the children are met in their local school

Termly SENCO Forums

The area wide forum provides the opportunity to develop collaborative working between schools and to build capacity as well as provide solution focused approaches. The network facilitates peer to peer support as well as facilitating consultations.

SEND Termly Family Forum

The family forums provide the opportunity for the specialist team of professionals to meet with families in the locality. The forum provides a network for families as well as facilitating peer to peer support and supporting parents through a range of advice, support and coaching.

About your Locality Team Leads

Each local area is made up of a service co-ordinator, a lead headteacher and a lead SENCO.

Developing Local Provision

This year the High Needs block funding is investing up to £7 million for mainstream schools to develop its local provision. To do this a head teacher reference group has been established with representation from each of the six areas of the city, to facilitate the development of local approaches. These include:-

- new allocation of funding for children and young people in mainstream school
- enhancing the support available to local consortia of schools
- developing local capacity to meet the needs of pupils with social emotional and mental health difficulties at the primary phase
- Improving the curriculum and social access for vulnerable pupils at the secondary phase

Measuring Impact

As part of the 'Developing Local Provision' approach, Headteacher updates will be provided termly for each of the school consortia and includes a report outlining children and young people:

- who have been excluded
- who have become electively home educated
- who have a pastoral support plan (on a part time placement)
- who have transferred school
- who are currently not attending school

Developing Local Support and Provision – Central

About the Locality Team

The Locality Team are a group of professionals that support schools and families to meet the Special Education Needs of children and young people across a consortia of schools.

The team of professionals include:-

- Educational Psychologists and Assistants
- Specialist Teachers and Teaching Assistants
- Speech & Language & Occupational Therapists
- Parent Link Officers

For most children and young people, it is recognised that their needs can be met in their local school, it is therefore essential that schools and families feel supported and able to provide the right environment to do this. The locality team are there to support this. The TEAMS also there to identify children and young people who may require access to more specialised support as well as those who may require a more intense, longer term specialised provision.

Local Meetings

Consultation & Planning Meetings

The local planning meetings are held termly with senior leaders to provide the opportunity to identify areas where the school are stuck and require additional support and advice to ensure the needs of the children are met in their local school

Termly SENCO Forums

The area wide forum provides the opportunity to develop collaborative working between schools and to build capacity as well as provide solution focused approaches. The network facilitates peer to peer support as well as facilitating consultations.

SEND Termly Family Forum

The family forums provide the opportunity for the specialist team of professionals to meet with families in the locality. The forum provides a network for families as well as facilitating peer to peer support and supporting parents through a range of advice, support and coaching.

The area wide forum provides the opportunity to develop collaborative working between schools and to build capacity as well as provide solution focused approaches. The network facilitates peer to peer support as well as facilitating consultations.

SEND Termly Family Forum

The family forums provide the opportunity for the specialist team of professionals to meet with families in the locality. The forum provides a network for families as well as facilitating peer to peer support and supporting parents through a range of advice, support and coaching.

About your Locality Team Leads

Each local area is made up of a service co-ordinator, a lead headteacher and a lead SENCO.

Developing Local Provision

This year the High Needs block funding is investing up to £7 million for mainstream schools to develop its local provision. To do this a head teacher reference group has been established with representation from each of the six areas of the city, to facilitate the development of local approaches. These include:-

- new allocation of funding for children and young people in mainstream school
- enhancing the support available to local consortia of schools
- developing local capacity to meet the needs of pupils with social emotional and mental health difficulties at the primary phase
- Improving the curriculum and social access for vulnerable pupils at the secondary phase

Measuring Impact

As part of the 'Developing Local Provision' approach, Headteacher updates will be provided termly for each of the school consortia and includes a report outlining children and young people:

- who have been excluded
- who have become electively home educated
- who have a pastoral support plan (on a part time placement)
- who have transferred school
- who are currently not attending school
