Neighbourhoods Overview and Scrutiny Committee

4 October 2023

Subject: Cleaner Streets: Monitoring the implementation of scrutiny recommendations

Report of: Councillor Majid Mahmood, Cabinet Member, Environment

Report author: Darren Share, Director, Street Scene

1 Purpose

To update Neighbourhoods Scrutiny Committee on the implementation of recommendations R01 – R012 from the meeting on 7 June 2023.

2 Recommendations

2.1 That this update be noted by the Committee.

3 Any Finance Implications

3.1 All finance implications in light of the S114 announcement on 4 September 2023 should be taken into consideration when reviewing the progress of the recommendations. Where spend was approved before the announcement then activities will continue up to the limit of that agreed expenditure. Where new spend is incurred after this date, requests will have to be made to and decided by the S151 officer. Waste collection is considered a statutory/essential service that the council is obliged to provide.

4 Any Legal Implications

4.1 Not applicable

5 Any Equalities Implications

5.1 Not applicable

6 Appendices

6.1 Appendix A: Cleaner Streets Response Table

R01	Introduce Local First	<p>Our services are built up from the ground from each asset we maintain a work schedule is produced. This is reported on a Ward basis. Teams are deployed to work to these schedules.</p> <p>In 2017 these schedules were shared with the local councillors to test their relevance we are repeating that exercise now with depot visits and information sharing. Some local councillors have not been able to attend these briefings so their information will be shared with them and further opportunities created for depot visits</p> <p><u>06 September 2023</u> Any changes with the work programme will be sent to the relevant local councillor. We are currently investigating providing a digital solution combined with grounds maintenance data.</p>	Local Councillors are aware of their work programmes	<p>Work programmes shared by May 2023</p> <p>ACHIEVED - ONGOING</p>
R02	Deliver a new Litter Prevention Strategy	<p>Due to intelligence and lessons learnt from the Commonwealth Games we recognised the need to review the policy. We will build upon the work started by the Scrutiny committee to develop a new strategy. We will be supported by Keep Britain Tidy.</p> <p><u>06 September 2023</u> Still working on this with KBT, we have examples of Litter Strategies from around the UK which is informing our plan for the City.</p>	A new Litter Prevention Strategy will be produced	<p>September 2023</p> <p>ON TARGET</p>
R03	Implement localities approach to delivery	<p>There are currently 64 vacancies within the Street Cleansing Service. We are just about to recruit to these posts. Once we have these staff in place we will directly employ 100% of the workforce.</p> <p>Teams will be dedicated in areas to develop a better understanding and local knowledge.</p> <p>We will encourage staff to interact with communities.</p>	A fully committed workforce reflected of the local community	Recruitment June 2023

		<p>Our Love Your Environment approach will target additional resources to areas of need through discussions with local councillors and communities.</p> <p>Each Ward will be allocated a manager and it would be good to identify and have regular walkabouts with the local managers, beat sweepers and ward crews.</p> <p><u>6 September 2023</u> Vacancies have been paused, however vacancies are being covered by agency staff. R04	Use key messages to deter litter and fly tipping tailored to the intended audience.	<p>We are working with Keep Britain Tidy to do this. They are bringing a series of options and examples we are exploring. One being chewing gum, using their materials we have seen a drop in chewing gum in the piloted areas. Working with KBT and Veolia we are looking at our communications and our current environmental educational offer. We have used crime scene tape and stencils to highlight fly tipping and more targeted communications are planned. We are currently investigating ECO schools the RHS campaign for School Gardening as ways to improve our environmental education.</p> <p><u>6 September 2023</u> Veolia are hosting videos and infographics on their website that details the journey of waste after it has been tipped https://www.birmingham.veolia.co.uk/journey-waste</p>	<p>A series of targeted messages are produced</p> <p>The information on services is available electronically</p> <p>The services and environmental delivery</p>	<p>June 2023</p> <p>July 2023</p> <p>September 2023</p> <p>ONGOING</p>

A full training programmes has been developed for Street Cleaning and Grounds Maintenance Teams and had been implemented.</p> <p><u>6 September 2023</u> All is in train. A local team is established. People are kept in localities so local knowledge and continuity is kept. Waste Enforcement teams have been allocated across city; Grounds Maintenance are meeting regularly with Street Cleaning to liaise and tackle joint problems to improve the local environment. R06	Culture Change	We do recognise the work the teams are doing, they are doing a massive amount to make the city as clean as it is. It is a challenge to motivate staff when they read the press or reports that just say more work is needed or we are a failing service. We are going to recruit and along with that will come a training package and this year we are looking to train aspiring managers from within the workforce	We have introduced toolbox talks, recruitment is planned for April and a	June 2023

There is provision to support groups with equipment and resources. Since November 22 we have cleared 15,203 bags of rubbish collected by groups and supported 311 groups. A small seed corn grant is provided to Birmingham Open Spaces Forum for them to support local groups to bid for money that is not available to the City Council.
