## Report to Cabinet

23 April 2024

---

**Subject:** Procurement Strategy for the Renewal of Contract for Mortality Services (P0322 – 2023)

### Commissioner Review

Commissioners recognise that this report records that officers failed to comply with the Council's procurement and finance regulations previously. The new management have identified the previous failures and are bringing the service back into compliance. Issues such as these point out the governance failures present at many levels in the whole organisation, which will need to be addressed as part of the Improvement and Recovery Plan.
