Subject: Notification of Deployment of CCTV (Flytipping)
Date: 31 July 2023 14:58:24

Dear Councillors,

Please be advised that the WEU is in the process of deploying CCTV in your respective wards at the following locations, as part of a pilot project funded by DEFRA in the use of AI camera systems:

1. Yew Tree Road – Aston
2. Osborne Road / Station Road – Erdington
3. Colenso Road / Majuba Road (capacity also retained to deploy on Glencoe Rd) – North Edgbaston

The installation of CCTV on Yew Tree Road, Aston should be completed by the end of today. The CCTV in locations 2 and 3 are scheduled for completion by tomorrow.

The CCTV will be overt in nature and deployed under the Surveillance Commissioner's CCTV Code of Practice and will be in-situ for a duration of up to 3 months. Additionally, the CCTV cameras are equipped with AI to detect when an item of waste has been deposited, which can be linked with an alarm to disrupt the offender.

Kind regards,

Luke Seymour
Investigator
