## Cabinet

19 March 2024

---

**Subject:** Corporate Plan 2022 – 2026: Performance and Delivery  
Monitoring Report

### Commissioner Review

Commissioners have reviewed the recommendations in this report. The report is right to focus attention on Section 6. The Improvement and Recovery Plan (IRP) will be a separate, but related document to the Council Corporate Plan, and will deal with specific programmes required by Commissioners under the Directions that came into force on October 5<sup>th</sup> 2023. The Council will still require a Corporate Plan which will deal with more outward focussed issues as well as the IRP matters.
