Good morning Bhapinder and David

I hope you're both well.

Our client wishes to put forward the following additional conditions as part of the variation in response to the remaining objection –

1. Staff shall monitor the customers in the external area of the premises on a regular basis and ensure customers do not cause a public nuisance.
2. When regulated entertainment, including live and recorded music, is taking place, regular boundary noise checks shall be conducted, and any required action shall be taken. Records detailing the sound checks and any required action shall be recorded. All records must be written and shall be retained on the premises for a minimum of 12 months.
3. A direct telephone number for the manager of the premises shall be made available to residents in the vicinity upon request; to call all times the premises are open.
4. A complaints log shall be maintained.
5. Customers will not be permitted to drink and/or smoke outside to the front. They will be directed to use the rear beer garden.

I shall circulate these additional conditions to Mr Glover, and I would be grateful if these too could be shared with the committee in advance of Wednesday's hearing.

Thanks

George
