## Lozells and East Handsworth Crime Breakdown

From May 2021-May 2022 there were 874 crimes in Lozells and East Handsworth that were fuelled by alcohol, drugs and other solvents, many of these taking place in the above hotspot areas. Each of the hexagons can be analysed more deeply by teams and shows the exact location occurrence of the crimes. This occurs as part of the current strategies to use evidence based policing to create long term solutions in the way we tackle crime.

There were 144 drug specific crimes in the same period, this includes possession of a control substance, possession with intent to supply and concerned in the production of a controlled drug. Local intelligence has also suggested many of these drug offences take place in key hotspot areas such as SOHO ROAD, VILLA ROAD, LOZELLS ROAD, WILLS STREET and WELLINGTON ROAD. These offences are often carried out by nominals from gangs who can often exploit others in order to sell drugs.

There were 518 public order offences that took place during this period, many of these taking place in busy streets and areas of high footfall. These include offences such as; affray, causing intentional harm, alarm or distress (HAD), public indecency, fear or provocation of violence, racially or religiously aggravated fear of violence and HAD, and violent disorder.

From May 2021-May 2022 there were 885 intelligence logs specifically submitted for Lozells and East Handsworth. Many of these logs related to anti-social behaviours such as; groups gathering, drug use, drug dealing, prostitution, begging and street drinking.

The PSPO can help in dealing with this with the conditions around groups as this will help the police proactively deal with the problems and set expected standards around the hotspot areas.

## Lozells Impact Survey

The Impact Areas Survey was conducted by West Midlands Police from February-March 2022. This was conducted as part of our This Works Matters Strategy and covered a range of different questions to understand the thoughts of our communities. For Lozells, 92 participants completed the survey and provided their feedback.

The following question was asked as part of the survey:

### **What is the greatest community concern that you have?**

There were clear themes throughout responses with an emergence over the concerns around anti-social behaviour.

The conditions of the PSPO will help deal with some of these issues and provide powers to Authorised Persons to take the necessary action to help prevent this type of behaviour taking place.

This will help support the local police strategies in place and help build a robust response to the issues in the area.
