Code of Practice for gaming machine provision: Notifications and Licensed Premises Gaming Machine Permits issued under section 282 and 283 Gambling Act 2005

Stonegate Pub Company Limited operates a national estate of over 600 premises across the United Kingdom, which are licensed under the Licensing Act 2003, including pubs and bars offering a wide variety of formats: from high-street pubs and traditional country inns to local community pubs, student pubs and late-night bars and venues. Many venues within the estate benefit from either notifications or Licensed Premises Gaming Machine Permits under relevant gambling legislation.

Stonegate Pub Company Limited will ensure all staff involved in the supervision of gaming machines will receive training on this policy and procedure.

SUPERVISION

Supervision of the games area will be undertaken on site by the management and staff employed by Stonegate Pub Company Limited. This policy is in effect to protect children from harm and the Company understands that harm in this context is not limited to harm from gambling but includes wider child protection considerations. - (d) in accordance with the Birmingham City Council - Statement of Principles .

Background Information

Poppleston Allen, 37 Stoney Street, The Lace Market, Nottingham, NG1 1LS has submitted an application on behalf of the applicant Stonegate Pub Company Limited, Porter Tun House, 500 Capability Green, Luton, LU1 3LS to increase the number of gaming machines currently permitted at their premises trading as:-

Yates, 15 – 19 Birmingham Road, Sutton Coldfield, West Midlands, B72 1QA

The applicant Stonegate Pub Company Limited currently holds a Licensed Premises Gaming Machine Permit number 309/2 allowing up to 4 gaming machines to be made available at the premises.

This permit specifies the number and category of the gaming machines authorised as follows:-

Number of category C gaming machines - 4
Number of category D gaming machines - 0

The agent Poppleston Allen has made an application and is now seeking authorisation to increase the number of gaming machines permitted as follows:-

Number of category C gaming machines - 5
Number of category D gaming machines - 0

Gambling Act 2005

Section 153 of the Gambling Act 2005

Requires licensing authorities to take into account when exercising their functions, any relevant code of practice issued by the Commission.

The Gambling Commission guidance to the Gambling Act 2005 states at :-

Paragraph 26.8

Licensing authorities may issue licensed premises gaming machine permits for any number of category C or D machines in licensed premises. Where a permit authorises the making available of a specified number of gaming machines in particular premises, this will effectively replace, and not be in addition to, any automatic entitlement to two machines under s.282 of the Act.

Paragraph 26.9

Holders of licensed premises gaming machine permits are required to comply with a code of practice issued by the Commission on the location and operation of machines, Code of practice for gaming machines in clubs and premises with an alcohol licence. (Copy of the current code of practice attached to the report at appendix 2)

Paragraph 26.12

In determining an application, the licensing authority must have regard to the licensing objectives and to this Guidance. They may also take account of any other matters that are considered relevant to the application. The application does not require notification to the Commission or police before determination, however, licensing authorities are able to specify this as a requirement should they see fit.

Paragraph 26.13

The licensing authority may grant or refuse an application. In granting the application, it may vary the number and category of gaming machines authorised by the permit. If granted, the licensing authority must issue the permit as soon as possible after that. Where they refuse the application they must notify the applicant as soon as possible, setting out the reasons for refusal. The licensing authority must not refuse an application, or grant it for a different number or category of machines, unless they have notified the applicant of their intention to do so and given the applicant an opportunity to make representations, orally, in writing, or both.

Paragraph 26.14

The permit must specify the person or organisation to which it is issued, the number and category of gaming machines for which the permit has effect, the address of the premises and the date on which it takes effect.

Paragraph 26.17

There are no renewal provisions for this class of permit because they are indefinite and continue in force for so long as the premises continues to have an alcohol licence and the holder of the permit continues to hold that licence. The permit can lapse if the holder surrenders it to the licensing authority.

Paragraph 26.18

The holder may apply to vary the permit by changing the number and/or category of machines authorised by it.

Birmingham City Council Statement of Principles

A person who holds the "on-premises" alcohol licence may apply to the Licensing Authority for a permit specifying any number of category C or D machines but when considering the application the Licensing Authority will have regard to the licensing objectives, and may also take into account any matters that are considered relevant to the application. These may include:

- ☐ the appropriate siting of gaming machines in areas where children are not normally permitted;
- ☐ the size of the premises;
- ☐ the supervision of gaming machines at all times when the premises is open;
- ☐ notices by each gaming machine specifying no person under 18 years old are permitted to use the gaming machine;
- ☐ age verification checks;
- ☐ ensuring members of staff are appropriately trained;
- ☐ display of posters and information leaflets for organisations set up to assist people wishing to seek help and advice regarding gambling related issues.

Visit to Yates - 9th May 2016

During the visit to the premises on 9th May 2016 it could be seen that the pub caters for adults and families, offering food throughout the day. I was advised by the Duty Manager that evenings are geared towards the young adult.

The applicant is currently making a total of 4 category C machines available on their premises. Their current Gaming Machine Permit allows 4 category C machines.

The current gaming machines are sited throughout the premises (see photos appendix 1 – 3) and although they are not all visible from the bar area I was informed that the machines are supervised at all times through their CCTV and they have regular walkabout staff who have been trained in the Licensing objectives.

ID checks are carried out if a member of staff has concerns about the possible age of persons playing any of the category C gaming machines. I was also informed by the Duty Manager that a further machine may be placed against the post in Appendix 4 as there is an electrical socket.

I have subsequently spoken with the Manager who has stated that he wouldn't want the machine in this area as it was too close to tables where people may be sitting. He stated that in his opinion the machines already sited on the premises were not used to their full capacity. He indicated that if the application to increase the number of category C gaming machines was successful then it may be necessary to remove shelving in order to place the additional category C gaming machine.

As a Responsible Authority it is important to bear in mind that gambling must remain ancillary to the main purpose of the premises and the exemptions and permits are reliant on the premises holding a valid alcohol licence.

Recommendations

No matters for concerns were identified during the visit to the premises on the 9th May 2016 in relation to the existing 4 gaming machines being made available for use. The Licensing Enforcement Team would therefore have no concerns if the Licensing Sub Committee is minded to grant the application submitted.

The Licensing Enforcement Team considers the number and category of gaming machines applied for will continue to satisfy the requirement that gambling at the premises remains

ancillary to the main purpose being the sale of alcohol and is not an excessive number given the size of the premises.

The Codes of Practice (Appendix 5) issued by the Gambling Commission further ensures the appropriate siting, supervision and operation of gaming machines at the premises.

The applicant has measures in operation at the premises which promote the licensing objectives and in particular promote the protection of children and other vulnerable persons from being harmed or exploited by gambling.

As a Responsible Authority it is important to bear in mind that gambling must remain ancillary to the main purpose of the premises and the exemptions and permits are reliant on the premises holding a valid alcohol licence.
