3) Cost of Living Crisis

What is your organisation doing to help with the cost of living crisis? 

- We are also developing a list of asks of retailers to make it easier for people to afford healthier food
- Lobbying government
- Trussell Trust centrally are working on campaigns work to help influence policy. Some food banks are engaging with policy campaign asks
- Making sure we embed short term and long term actions to prevent poverty and enable resilience AND mitigate the impacts of poverty
- Supporting people with hot meals - numbers climbing in recent times. Looking into the sobering concept of 'warm banks' and warm packs for individuals - funding is needed for this
- Working with retailers to promote Healthy Start vouchers and to add extra value to them (Food Foundation)
- Continuing to support people through our cafes. Having conversations
