

Birmingham Home Safety Strategy

Those at risk from fire:

- Unemployed for over 12 months or in low paid jobs
- Alcohol and drug dependency
- Mental ill health
- Older person (over 65)
- Young families on benefits particularly single parents
- Limited mobility
- Smokers especially when linked to drug and alcohol use

Increased risk if any of the above PLUS:

- Black Afro Caribbean or mixed ethnicity
- Adult living alone
- Living in rented accommodation

to reduce the number of Accidental Dwelling Fires and increase the number of referrals for vulnerable people
