**Subject:** Licensing condition amendment

Dear Both

I am happy to confirm from a Southside Bid POV we support the license condition amendment. Whilst we routinely ask for licensees not to sell single cans, these are of high strength beer and ciders of which Simply Local does not stock, we therefore do not anticipate any ASB as a result of the premises selling single cans and appreciate it will help their business operate efficient and serve their customer base. We therefore recommend the licensing committee approve this amendment.
