Data sources	relevant research
Please include any other sources of data	
ASSESS THE POTENTIAL IMPACT AGAINST THE PROTECTED CHARACTERISTICS	
Protected characteristic: Age	Service Users / Stakeholders; Wider Community
Age details:	The consultation will be hosted on Be Heard and this is freely accessible to all, although those without IT access may be older people. Additional consultation will be carried out through Ward Forums, focus groups, and community events. These will all provide older service users and community members an opportunity to contribute.
Protected characteristic: Disability	Service Users / Stakeholders; Wider Community
Disability details:	A range of consultation methods will be used to target and include representative groups of service users and the wider community to give everyone an opportunity to contribute. Additional consultation will be carried out through Ward Forums, focus groups, and community events. These will all provide disabled service users

and community members who may not have internet access with an opportunity to contribute.

Not Applicable

Sexual orientation details:

Please indicate any actions arising from completing this screening exercise.

A range of different consultation methods including ward forum presentations and commissioning additional focus groups will be used to

	ensure that minority communities who engage less with digital consultation surveys will have the opportunity to provide their views.
Please indicate whether a full impact assessment is recommended	NO
What data has been collected to facilitate the assessment of this policy/proposal?	The assessment of risk is based on the previous consultation conducted by Public Health on the PH Priorities which employed similar mitigations to improve engagement from citizens who may not use digital surveys.
Consultation analysis	This EA is for a proposal to consult on the draft drug and alcohol strategy.
Adverse impact on any people with protected characteristics.	This EA is for a proposal to consult so there is an expectation that all community members and stakeholders will be given the opportunity to contribute, therefore mitigating any adverse impact.
Could the policy/proposal be modified to reduce or eliminate any adverse impact?	No adverse impact - the proposal is to consult.
How will the effect(s) of this policy/proposal on equality be monitored?	Protected characteristics data will be collected as part of the consultation and analysed to ensure that contributions are from the whole community.
What data is required in the future?	Basic demographic data routinely collected during any consultation on Be Heard.
Are there any adverse impacts on any particular group(s)	No
If yes, please explain your reasons for going ahead.	
Initial equality impact assessment of your proposal	
Consulted People or Groups	
Informed People or Groups	
Summary and evidence of findings from your EIA	This EA is for a proposal to consult on the draft drug and alcohol misuse strategy. A range of consultation methods will be used to target and include representative groups of service users and the wider community

to give everyone an opportunity to contribute.
