

East Birmingham Inclusive Growth

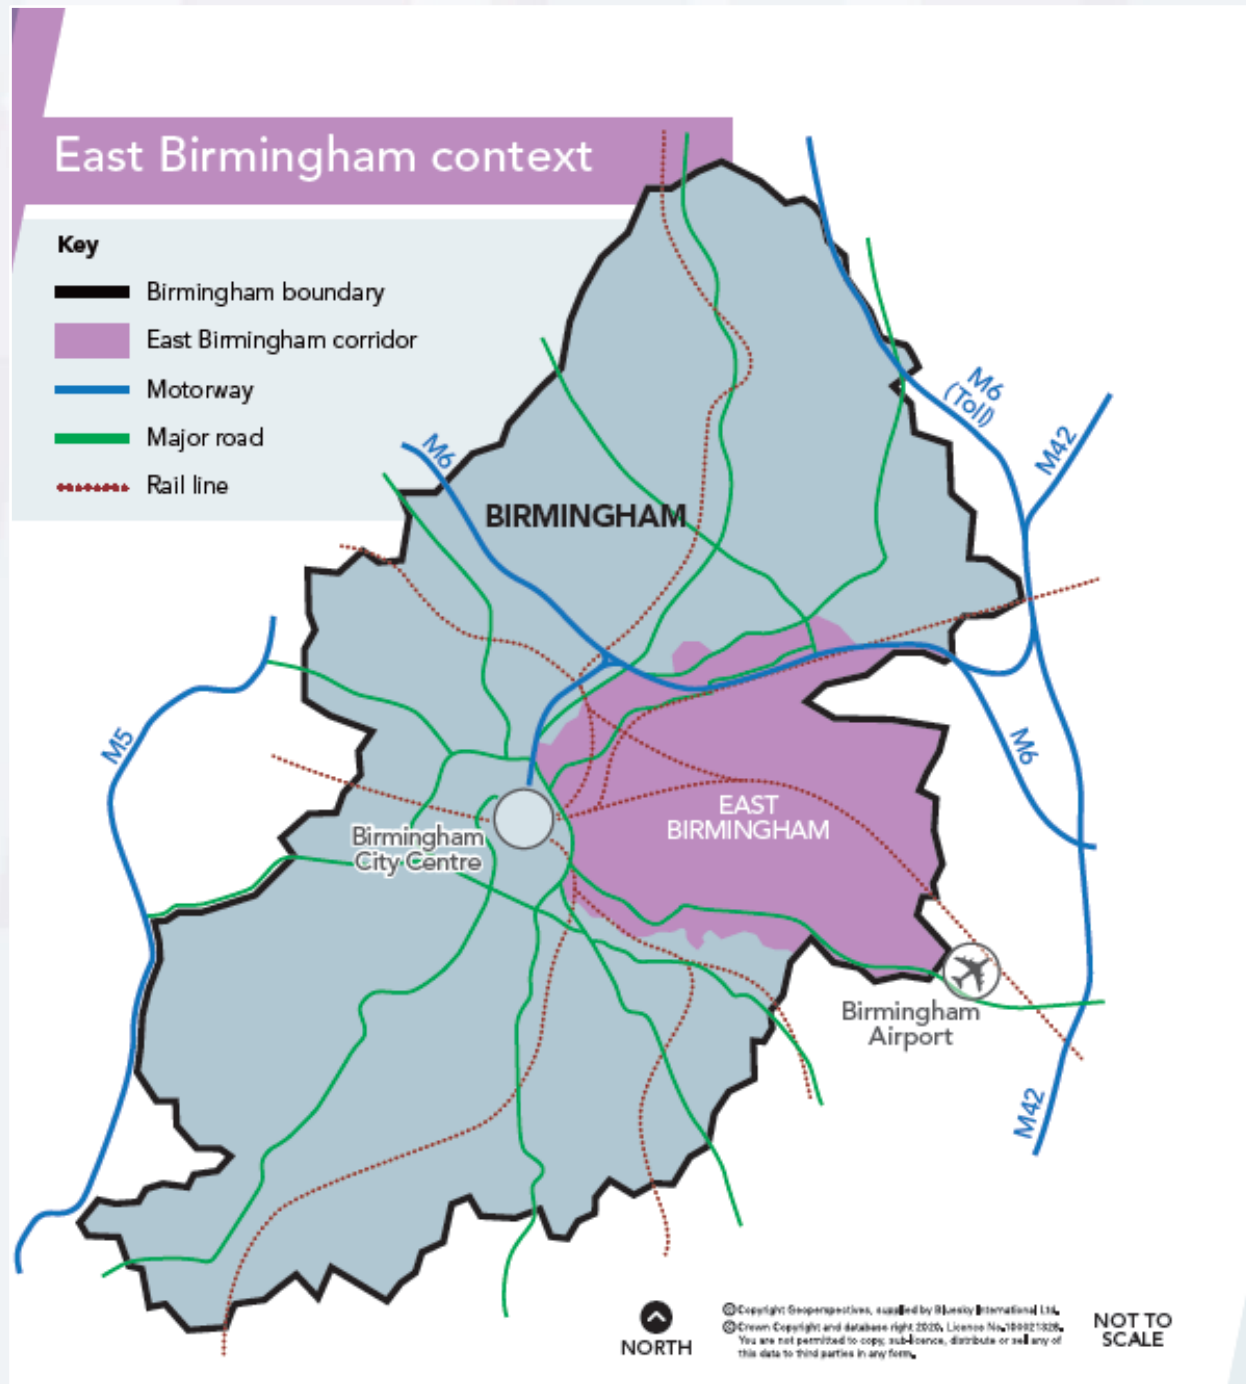

March 2021
Update

Background

The East Birmingham Inclusive Growth Strategy

- The Strategy sets out the Council's approach to the East Birmingham/North Solihull Inclusive Growth Corridor in the context of major planned infrastructural investments including HS2 and the planned Midland Metro extension to Solihull.
- The document was developed in conjunction with key partners including the WMCA, NHS and Solihull MBC.

Progress Updates March 2021

15th October 2020

First meeting of the Ward Members' Forum

The Forum discussed the Strategy and nominated Ward Members to sit on the East Birmingham Board.

18th October 2020

Formal Consultation on EBIGS closed

A full consultation report has been circulated for information and will also be summarised later in this presentation.

More than 830 people took part and shared their views. Nearly all (98 per cent) of the 109 stakeholder organisations which participated in the consultation showed strong support for strategy's plans. The engagement had shortcomings due to COVID, and Officers will be working to address these through the ongoing engagement activities which will now continue as part of the programme.

Progress Updates March 2021

27th Nov 2020

First meeting of East Birmingham Board

The Board agreed Terms of Reference and discussed the Strategy and initial steps towards a delivery plan. The Board supported the proposed approach and asked for further information on implementation to be brought to the next meeting which will be arranged for Spring 2021.

Since the meeting the East Birmingham team have been working within the Council and with key partners to develop a draft implementation plan. This will be brought to the Board and Ward Members' Forum for discussion.

9th Feb 2021

EBIGS adopted by Cabinet

The Strategy was adopted by the City Council on February 9th.

Consultation Summary

Originally planned as primarily face-to-face meetings in the community the consultation had to be shifted online and was extended from the planned three months to a total of eight (Feb-Oct)

Consultation has included:

- Launch event with press coverage
- Direct email consultations and onward circulation by partners
- Stakeholder meetings – online and, where possible, in person
- Printed materials distributed to libraries and community facilities
- Ward Members and MPs briefed
- Information packs to all schools
- Web: Council's webpage, Be Heard, Facebook and Twitter
- Internal within Council – Yammer

Consultation Summary

Duration: 34 Weeks

Launch event: 96 attended

Direct email: 400+ stakeholders

Wider reach: multiple orgs cascaded to their mailing lists

Online Surveys: 353 responses across two platforms

Stakeholder sessions: 109 meetings

Focus Group Sessions: facilitated by local partners

Citizen's Panel Meetings: BCC panel (two meetings)

Ward Members' Forum: including all 26 Members – to become quarterly

Local Ward Forums: briefings and information packs provided

Ongoing work: NNS Steering groups, Local Employment and Skills Board

Setting up the Governance

Structure

East Birmingham Board (EBB): accountable for the delivery of the Strategy, providing the East Birmingham Delivery Board with political direction and support.

East Birmingham Delivery Board (EBDB): direct successor to the Partnership Board, with responsibility for drawing in resources and for the prioritisation and co-ordination of delivery.

East Birmingham Thematic Teams: convened as required where it is necessary to assemble subject matter experts within a particular domain of activity. However, there remains an expectation that all delivery should be built and delivered in partnership and across service and investment silos.

Rapid Policy Unit and Secretariat (RPU) is the team which will support and connect the two Boards and any Thematic Teams and be responsible for day-to-day delivery – ensuring that meetings run as they should, capturing actions and synergies, bringing new partnerships, projects and policies together, and ensuring that the voices of citizens and places are heard throughout.

East Birmingham Board

In total the Board consists of approximately 20 people, chosen to represent the key partners, service areas and local stakeholders. Members include:

Chair: Local MP

Deputy Chair: Leader of the Council

Cabinet Member, Transport and Environment

Cabinet Member for Social Inclusion, Community Safety and Equalities

Ward Members (nominated by WM Forum)

CeX of the Council

Director, Public Health

Director, Inclusive Growth

Director, Adults and Social Care

HS2 Ltd.

National Health Service (Bsol CCG)

Transport for West Midlands

West Midlands Combined Authority

Children's Trust

Solihull MBC

Business representative(s)

Education representative(s)

VCSE representative(s)

Next Steps

East Birmingham Inclusive Growth Programme

Objectives

The Council is committed to reducing inequalities and building a fair, inclusive city. We will do this by making sure that the benefits of growth are shared more fairly, providing new opportunities for local people to change their lives for the better and delivering lasting improvements to living standards, education and skills, access to jobs and opportunities, health, the environment, local places and transport. **This is what is meant by Inclusive Growth.**

EBIGS Objective Themes

Equality

Education and Learning

Health and Wellbeing

Affordable, Safe and Connected

Economy

Power, Influence and Participation

The Environment

Source: WMCA Inclusive Growth Framework

Core Concepts

- **A comprehensive multi-agency approach** that links the macro (major infrastructure and development) and the micro (local projects and grassroots community development).
- Long term, sustainable investment: a **20 year+ programme of activity with continuity and resilience**.
- Taking a flexible iterative and incremental approach to implementation: **scale up over time but deliver initial benefits quickly** while working towards bigger opportunities.
- Development, infrastructure and real estate as catalysts for **social value, community wealth building and the just transition to zero carbon**.
- **Enhancing, accelerating and co-ordinating** projects and activities across a wide range of workstreams and using East Birmingham as the preferred location for pilots of wider initiatives e.g. Digital inclusion, R20, Transport Plan.
- **Lobbying for the delivery of strategic transport infrastructure** which will amplify the benefits of place-based interventions.
- The initial investment into the programme will **leverage much larger external funding** – both public and private.
- Establishing strong and productive relationship with local communities and VCSE partners with BCC leading by example on procurement and recruitment. **Empowering the community to play a key role in the programme**.
- Actively supporting the development of **community assets, community enterprises, community leadership** and economic resilience.
- Investing in the future through **prevention and early intervention**.

Programme Objectives

By 2040:

1. Improve performance across a range of key socio-economic indicators corresponding with the seven objectives set out in the East Birmingham Inclusive Growth Strategy to at least the national average.
2. Deliver 5,000 homes within the area, of which a minimum of 35% will be at least affordable
3. Create at least 6,000 jobs within the area which will pay the Real Living Wage
4. To support the Council’s aspiration to be net carbon neutral by 2030, or as soon after as a just transition permits

| Objective 1 sub-objectives |
|------------------------------------|
| Equality |
| Education and Learning |
| Health and Wellbeing |
| Affordable, Safe and Connected |
| Economy |
| Power, Influence and Participation |
| The Environment |

Implementation Plan

Initial proposals for delivery are set out in the EBIGS.

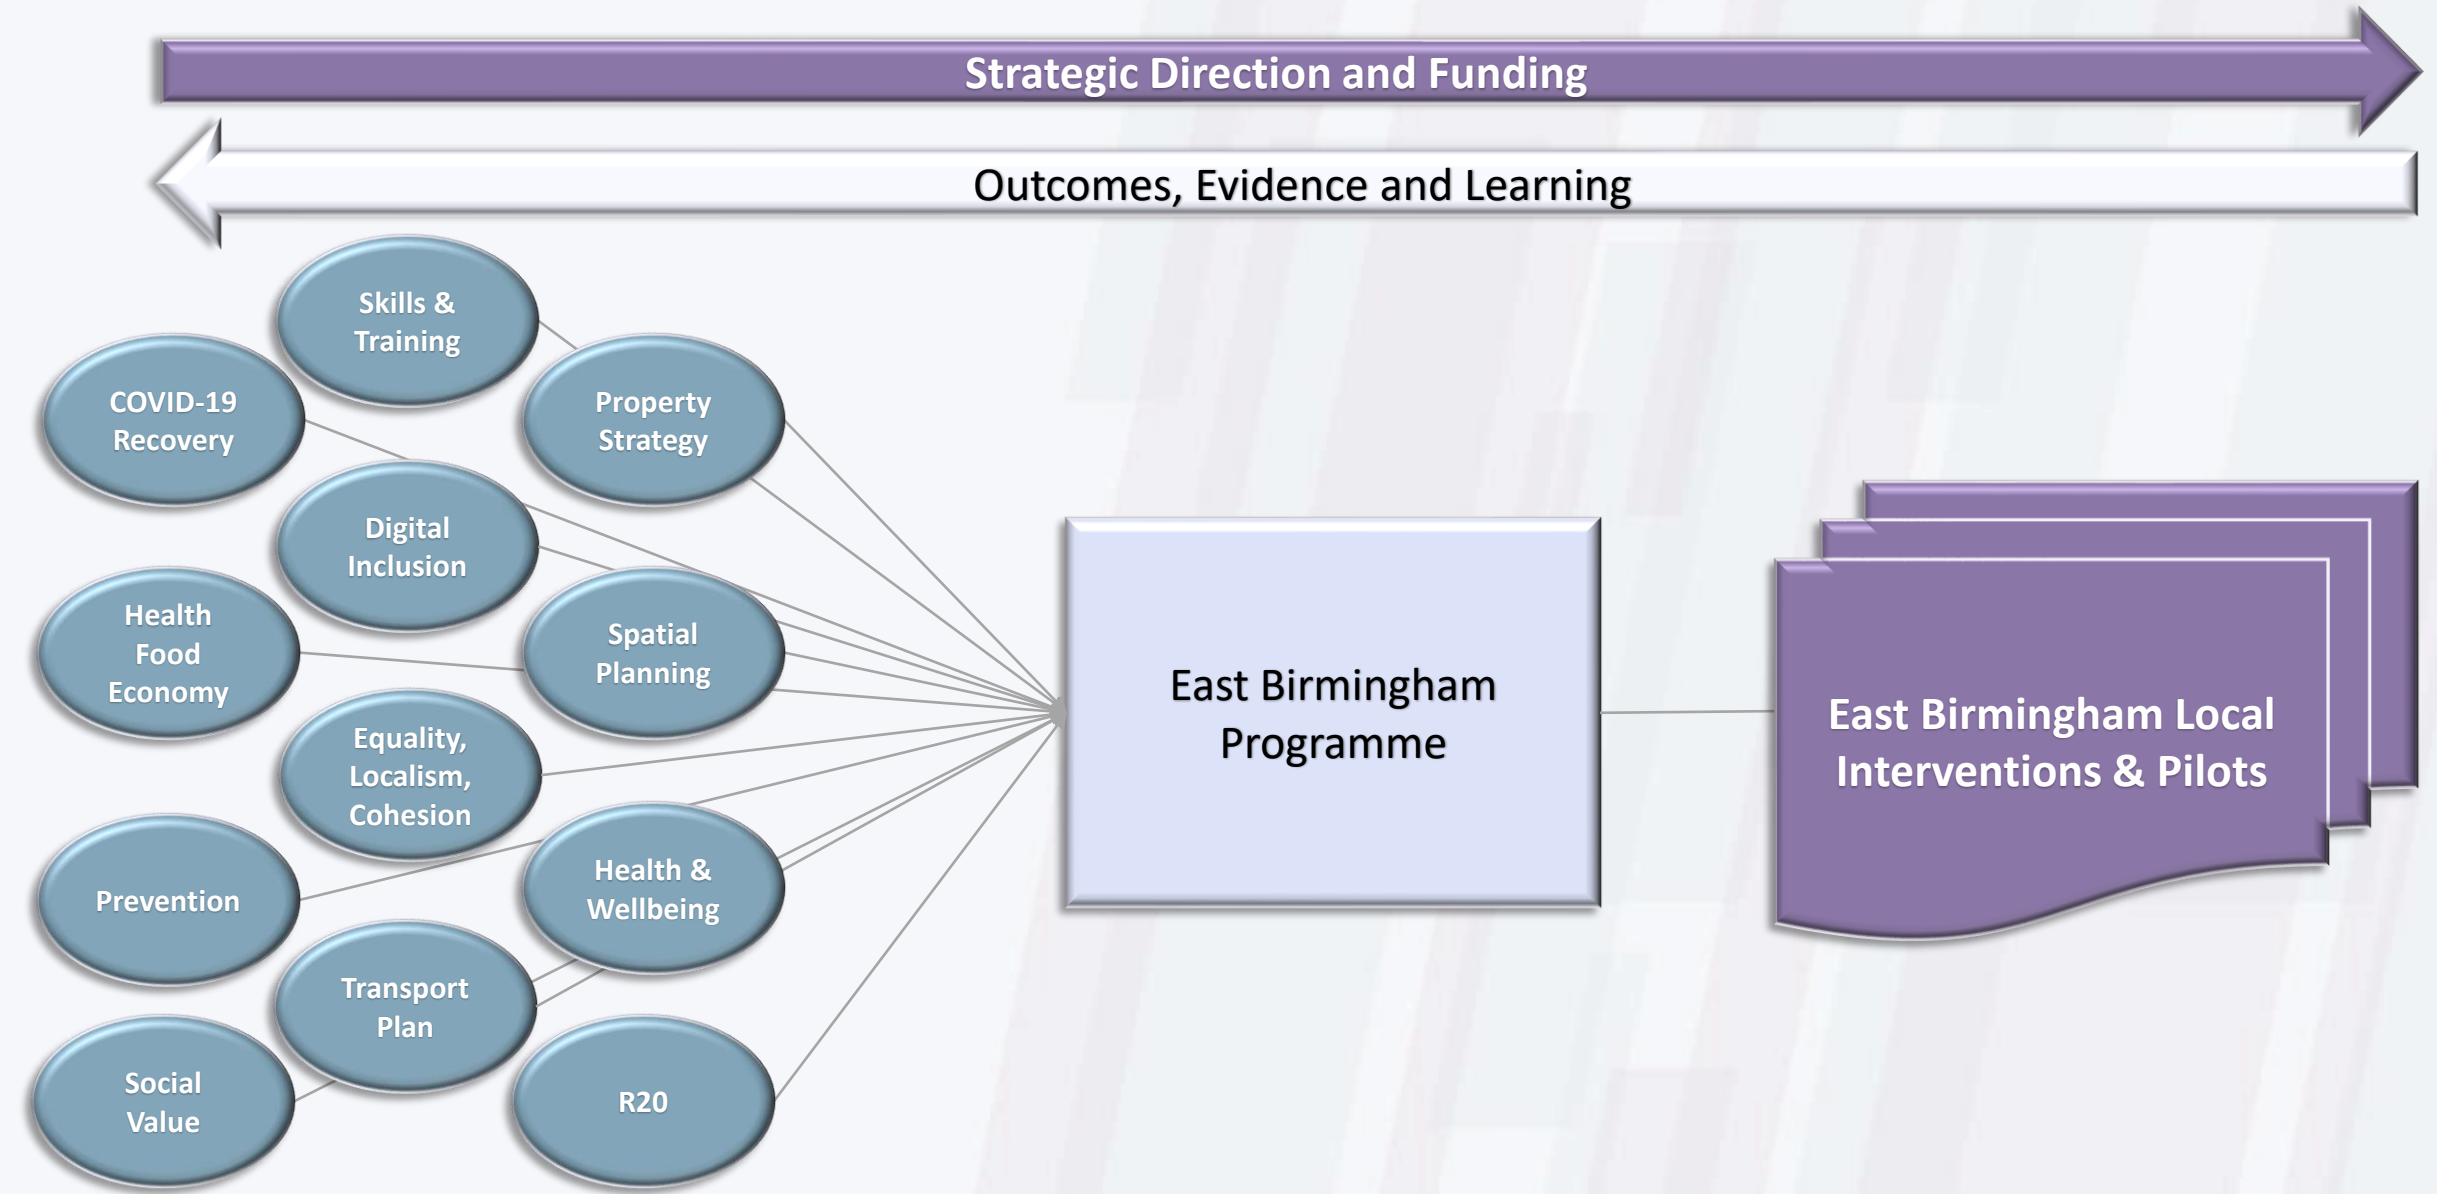

An implementation plan is now required setting out how projects and interventions within each of these thematic areas will be progressed. This will include details of:

- Scope
- Timescale and Phasing
- Funding
- Responsibility/ownership
- Relationships & dependencies
- Outputs

Some initial project concepts have been developed which have the potential to become Phase 1 projects.

| Workstream Title |
|--|
| Health and Wellbeing improvement |
| Skills review and investment plan |
| Schools and Early Years improvement |
| Expand business support |
| Local places and green spaces |
| Transport improvements |
| Housing and development |
| Climate change and green technologies |
| Localism, community development and engagement |
| Social value and community wealth building |

A Focus for Innovation

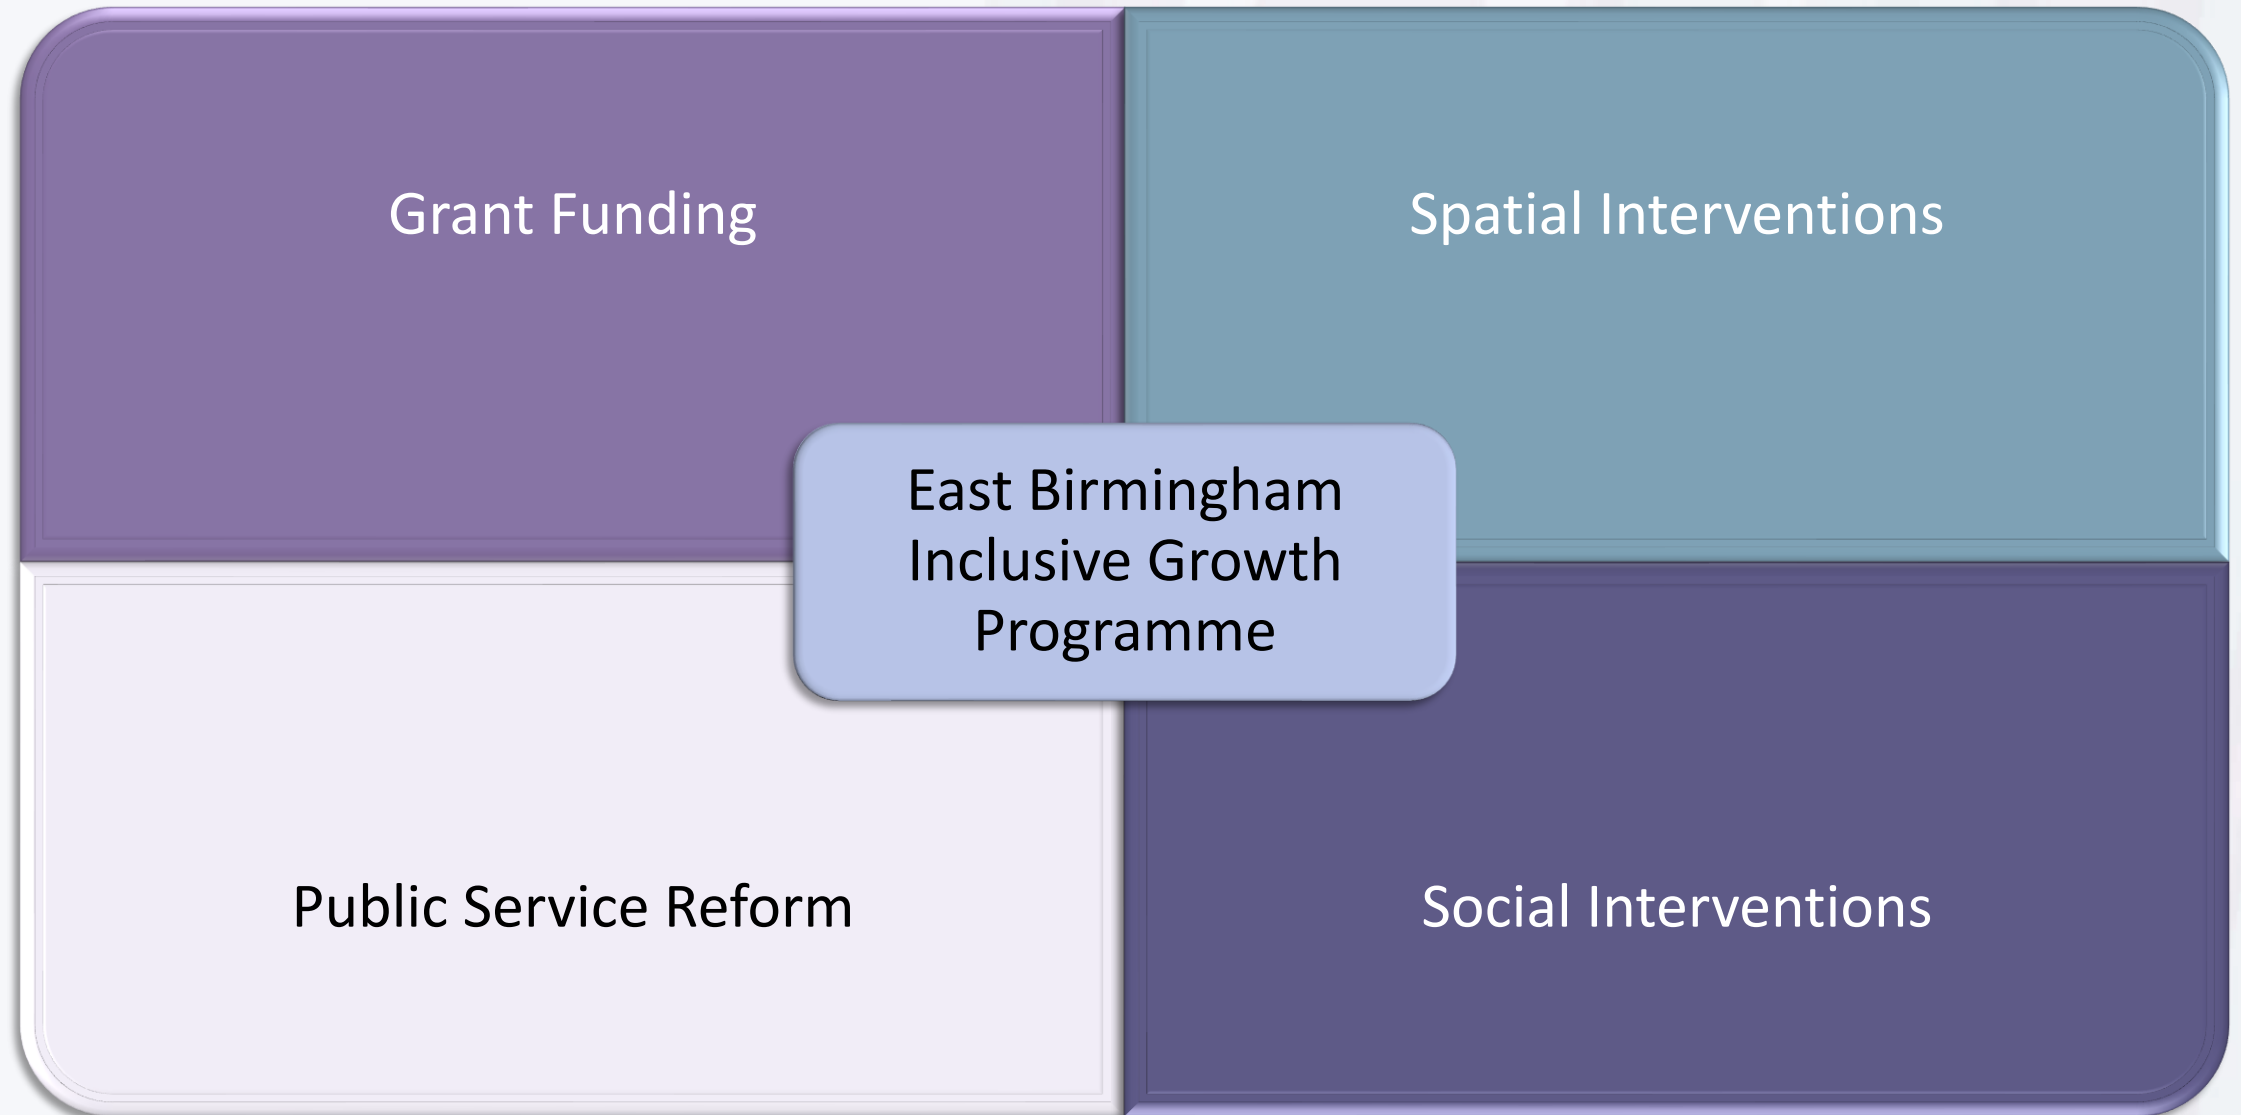

Programme lifecycle

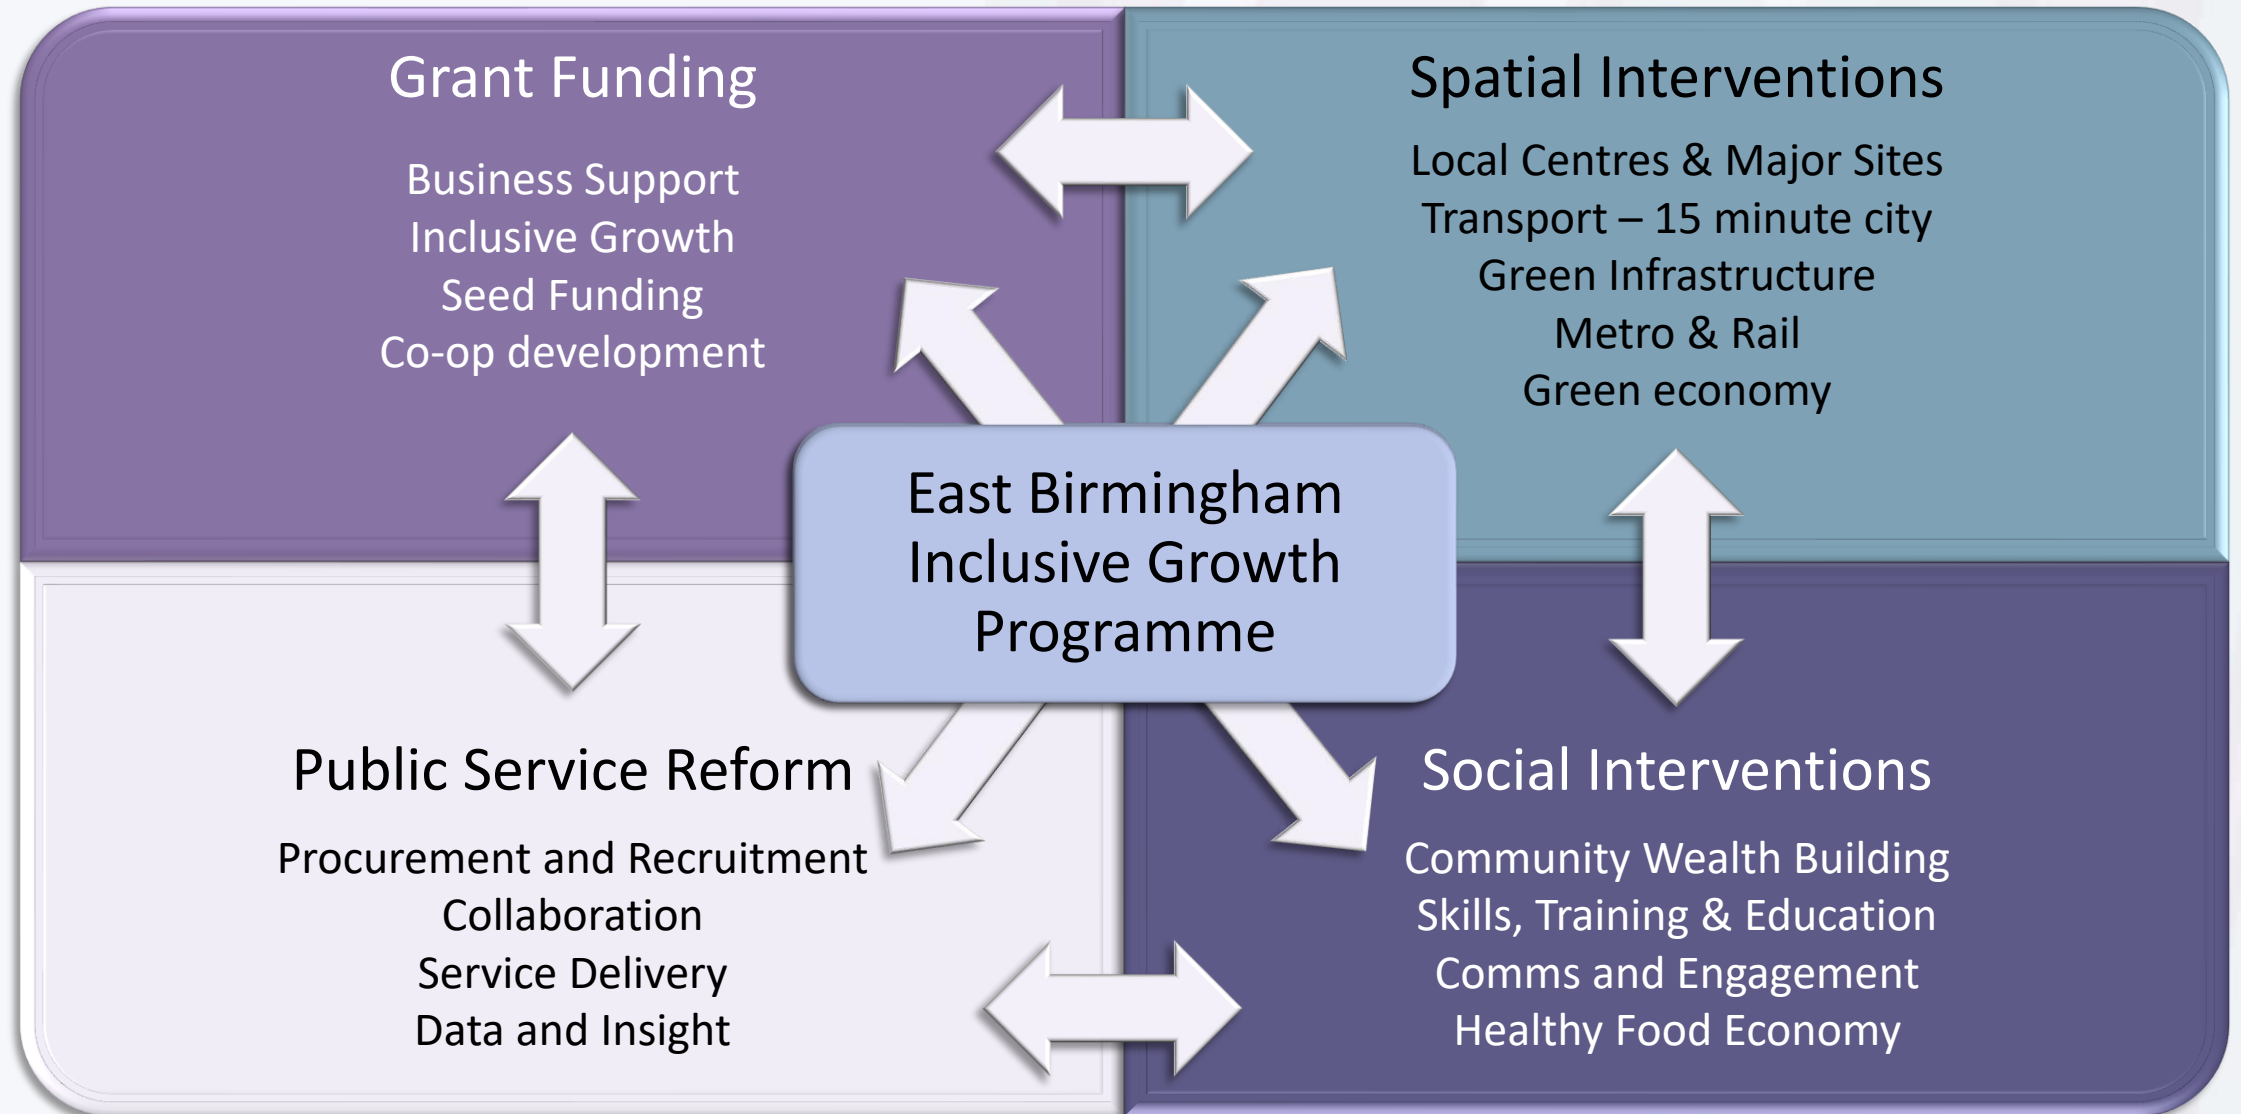

- Early interventions will start immediately
- In parallel development work will unlock opportunities to work at larger scales
- As the programme proceeds the capacity of the partnership to exploit strategic opportunities will constantly grow
