

COVID-19 Vaccination Overview

Data extracted on 14/12/2021

Vaccine Roll Out

Covid-19 vaccine booster will be offered to all adults (aged 18+) by the end of 2021 to tackle the growing wave of Omicron cases.

The 16-17 years old can also receive their vaccines through Walk-in sites which are available at locations across Birmingham.

All children aged 12-15 years old are being offered their vaccine either at school or out of school through the national booking service (online booking or via 119).

Figures from the [GOV.UK](https://www.gov.uk) website indicate that 89.0% of England people aged 12 years and over have had their 1st vaccine dose, 81.1% their 2nd dose, and 40.8% their booster dose. This compares to 66.1%, 58.5% and 24.9%* in Birmingham. The vaccination roll-out in the 12-15 age group will impact the overall uptake figures, compared to uptake at age 16+.

* The booster figures reported are significantly different from previous reports because of the change in the eligible population used as the denominator population. The eligible population used for booster uptake is the eligible population used for dose 1 and dose 2 uptake (as reported in the Gov.UK website) Previous reports were based on population who had been fully vaccinated.

Uptake* by Date of Vaccination (updated 14/12/2021)

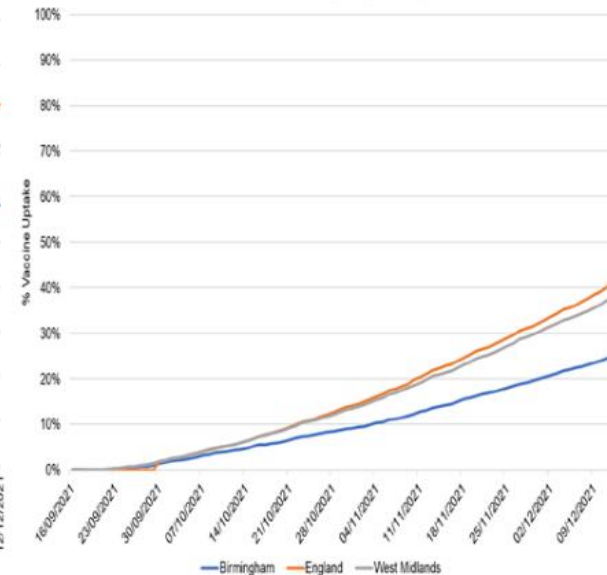

1st Dose Vaccination Uptake Aged 12+ by Date

2nd Dose Vaccination Uptake Aged 12+ by Date

Booster Dose Vaccination Uptake Aged 12+ by Date

Uptake* of 1st dose has slowed since the end of June, whilst uptake of 2nd dose slowed in mid-August. The current rate of uptake for the 1st, 2nd and booster doses in Birmingham residents aged 12 years and over (66.1%, 58.5%, 24.9%) is significantly lower than the rates for West Midlands (78.6%, 71.9%, 37.7%) and England (89.0%, 81.1%, 40.8%).

*The vaccination roll-out in the 12-15 age group would also likely impact the overall uptake figures, compared to uptake at age 16+. The booster figures reported are significantly different from previous reports because of the change in the eligible population used as the denominator population. The eligible population used for booster uptake is the eligible population used for dose 1 and dose 2 uptake (as reported in the Gov.UK website) Previous reports were based on eligible populations of those who had been fully vaccinated
