

BIRMINGHAM CITY COUNCIL

PUBLIC REPORT

Report to: Audit Committee

Report of: Assistant Director, Audit & Risk Management

Date of Meeting: 14th March 2017

Subject: Corporate Risk Register Update

Wards Affected: All

1. Purpose of Report

To update the Audit Committee with information on the management of risks and issues within the Corporate Risk Register (CRR) (Appendix A). The information in Appendix A has been compiled using updates received from directorates.

To provide the Audit Committee with the refreshed risk management documents (Appendices B & C).

2. Recommendations

2.1 That the Audit Committee reviews the information provided by directorates and decide if the risk ratings are reasonable, if action being taken is effective, or if further explanation / information is required. The level of risk has reduced for five risks:

- Risk 7 - Lack of capacity and capability to respond to threat of industrial action, employee relations tensions, poor service, performance issues, sickness absence and poor morale due to organisational downsizing and pay freezes.
- Risk 9 - Failure to respond fully and effectively to the issues from recent reviews concerning school governance and related matters.
- Risk 11 - That the loss of significant personal or other sensitive data may put the Council in breach of its statutory responsibilities and incur a fine of up to £500,000 from the Information Commissioner.
- Risk 19 - Failure to deliver the Council's Localisation Agenda and commitments made in the Council's Improvement Plan and Leaders Policy Statement.
- Risk 24 - That the need to address the updated Pensions Deficit will result in an increase in employer contributions.

2.2 That the Audit Committee approves the deletion of four risks:

- Risk 8 - Risk of challenge regarding implementation of the Younger Peoples Re-Provision Programme - The work stream is now closed, and efficiency and savings targets have been transferred to the Maximising Independence of Adults (MIA) Board.
- Risk 9 - Failure to respond fully and effectively to the issues from recent reviews concerning school governance and related matters - A much improved performance culture and set of arrangements are now in place for the Council's education services.
- Risk 13 - Not planning appropriately for the on-going reduction in government grants – This is an annual risk, but there are processes in place to manage it.
- Risk 24 - That the need to address the updated Pensions Deficit will result in an increase in employer contributions - This risk crystallised in the setting of the 2017/18+ budget. The information received has been fully taken into account in the update of the Council's medium term financial plan, and in the development of savings proposals.

2.3 That the Audit Committee approves the new risks:

- Risk 30 - Risk that email / email archiving IT system fails.
- Risk 31 - Increased pressure on the statutory homeless service in regards to volume of customers, which leads to significant financial pressure on the general fund due to increased use of B&B.

2.4 That the Audit Committee approves the refreshed risk management documents.

3. Background Information

3.1 Members have a key role within the risk management process.

3.2 The Audit Committee terms of reference, sets out its responsibilities and in relation to risk management these are:

- providing independent assurance to the Council on the effectiveness of the risk management framework and the associated control environment,
- whether there is an appropriate culture of risk management and related control throughout the Council,
- to review and advise the Executive on the embedding and maintenance of an effective system of corporate governance including internal control and risk management; and

- to give an assurance to the Council that there is a sufficient and systematic review of the corporate governance, internal control and risk management arrangements within the Council.

4. Corporate Risk Register Update

- 4.1 The CRR is aligned to the corporate objectives of the Council and identifies the key risks to be managed at a corporate level.
- 4.2 The CRR focuses on the cross-cutting corporate issues.
- 4.3 A Lead Director has been identified for each risk. Directorates have provided information detailing the management of the risks within their service areas as at January 2017.
- 4.4 The CRR is attached as Appendix A.

5. Embedding Risk Management

- 5.1 The current main route to provide risk management awareness is the e-learning package for managers, accessed via the internet.
- 5.2 Information on the Council's approach to risk management is available via the BCC website. Additional information is attached to the risk management page on InLine, to support staff in using risk management in their day to day role. Advice, support and guidance are provided by Birmingham Audit as requested.
- 5.3 Service managers are also asked about their risk management arrangements as part of routine audit work. In addition the mandatory Public Sector Internal Audit Standards include a requirement with regard to risk management.
- 5.4 Risk management is also covered within the Annual Governance Statement.

6. Legal and Resource Implications

- 6.1 The work carried out is within approved budgets.

7. Risk Management & Equality Impact Assessment Issues

- 7.1 Risk management forms an important part of the internal control framework within the Council.
- 7.2 The Council's risk management strategy has been Equality Impact Assessed and was found to have no adverse impacts.

8. Compliance Issues

8.1 Decisions are consistent with relevant Council Policies, Plans and Strategies.

| 1 | 1c | Failure to successfully defend and / or settle post 2008 equal pay claims. Lead: Strategic Director, Finance & Legal Owner: Kate Charlton | High / High | Lead Director comment A significant number of claims have been issued. A proportion of these has already been settled or is in the process of settlement. A growing proportion are now progressing through the tribunal and civil court process. No win / no fee solicitors are still canvassing for claimants. The validity of claims is constantly challenged by Legal Services. Each claim is subject to robust legal challenge. Settlement of claims is subject to financial provision and establishing validity of claims. | Target risk rating: Medium / Significant Anticipated date of attainment of the target risk rating: March 2018. Source(s) of assurance regarding progress with mitigating the risk: Management assurance - regular separate reporting to Corporate Governance Group and the Audit Committee. External & internal audit review. | O&S - The subject of equal pay claims has been discussed at meetings of the Corporate Resources O&S Committee but only in general terms during items relating to the Council's budget and Annual Audit Letter. IA - Payroll review work undertaken annually. |
| 2 | 23 & 61 | Not responding fully and effectively to the improvement agenda for Children - Failure to improve children's safeguarding and children's social care. Lead: Strategic Director, People Directorate Owner: Alastair Gibbons | High / High | Lead Director comment A new Commissioner for Children's Care was appointed in November 2016 . He is working with the Council to oversee continued implementation of the improvement plan and support for the potential development of a Children's Trust. There is now greater clarity about resources and priorities going forward, including a sustainable 4 year financial plan and a stable operational model was in place in February 2016. We have worked with partners in the Early Help & Safeguarding Partnership to redesign the front door for early help and social work contacts, and referrals to improve referral-taking, advice, screening and decision-making. CASS (Child Advice & Support Service) is the way into family support and social work services including MASH and child protection, and was in place from September 2016. Ofsted conducted a full inspection of Birmingham children's social care in September / October 2016. Ofsted judged that the Council remained inadequate overall but with several areas of improvement. | Target risk rating: Medium / High Anticipated date of attainment of the target risk rating: April 2018 . Source(s) of assurance regarding progress with mitigating the risk: Management assurance, Peer review, Ofsted visits, Scrutiny Committee monitoring, and Children's Commissioner fortnightly. Quartet Meetings (Children's Improvement Programme Board); Essex improvement support. The refreshed improvement plan, with the necessary investment is being delivered. There is still much to do to ensure the quality of practice and its timeliness. Cabinet approval has been given to the replacement of the CareFirst case system so that practitioners are freed up to undertake direct social work practice. | O&S - Schools, Children and Families O&S Committee: <ul style="list-style-type: none">• Scrutinised progress on the Scrutiny Inquiry: Children Missing from Home and Care on 12th October 2016; and discussed children missing from education at the same meeting. In 2015 the Council and partners reviewed its infrastructure around this risk to take into account the Counter-Terrorism and Security Act 2015, that includes a duty on certain bodies ('specified authorities' listed in Schedule 6 to the Act), in the exercise of their functions to have 'due regard to the need to prevent people from being drawn into terrorism'.</p> <p>The duty does not confer new functions on any specified authority. The term 'due regard' means that the authorities should place an appropriate amount of weight on the need to prevent people being drawn into terrorism when they consider all the other factors relevant to how they carry out their usual functions.</p> <p>The Council has applied a partnership and mainstreaming approach to mitigate the risks associated with the threat.</p> <p>Governance for the Prevent programme has been strengthened with the Prevent coordinator now reporting directly to the Strategic Director and Assistant Chief Executive increasing visibility across the Council.</p> | <p>Target risk rating: Medium / Significant</p> <p>Anticipated date of review/attainment of the target risk rating: Ongoing</p> <p>Source(s) of assurance regarding progress with mitigating the risk: Delivery continues to be monitored by the CONTEST Board Chaired by the Deputy Leader.</p> <p>Prevent Delivery Plan in place driven by Counter Terrorism Local Profile (CTLP), monitored by the Prevent Executive Board, chaired by Jacqui Kennedy / Peter Hay.</p> <p>Consultations undertaken with elected members, District Chairs and communities.</p> <p>15,000+ front line schools staff have undertaken Workshop to Raise Awareness of Prevent (WRAP) training. Risk Management Policy Statement 2017

Our Risk Management Policy, Strategy and Methodology support the City Council's vision and priorities which are set out in the Council Business Plan and Budget 2016+. The Council has a vision for Birmingham. **This is to make Birmingham a city of growth where every child, citizen and place matters.**

The Council has a well established approach to managing risk. It has recognised that risk is an integral part of innovation in order to deliver the key outcomes of the Council. By managing risk proactively we can take full advantage of opportunities and better use the limited resources available.

In particular a clear understanding of the risks and opportunities arising from the changing nature of service delivery is important; partnership working with businesses, academia, the public sector and the community is increasing and more services are being 'commissioned' rather than directly provided by the Council. New types of service providers are being used, or may be used in the future, such as Trusts, Social Enterprises and Co-operatives as well as 3rd Sector organisations, to drive service improvements. There is a greater emphasis on personal choice and the safety and opportunity for all children, the provision of a great future for young people and ensuring thriving local communities. However, these changes in service delivery provide new risks and opportunities to be managed.

Council objectives relate to the whole city and indeed region. As a result they can be influenced by an enormous variety of risks and opportunities. It would be impossible to identify all of these risks and opportunities. It is therefore important to focus on high risks and getting early warning of when they become more imminent, or start to take effect, and to enable us to be in the best position possible to make the most of opportunities.

Advice has been provided to directorates through the Risk Management Strategy and the publication of the Risk Management Toolkit. There is a regular process of risk assessment at a corporate level. This process identifies and scores key risk factors, and results in the Corporate Risk Register - a public document. This outlines the controls and plans in place to respond to the risks and opportunities identified. Transparency and accountability are key to the process.

As part of the corporate governance agenda the Council includes an Annual Governance Statement (AGS) within the Statement of Accounts. The AGS incorporates a statement on internal control, including risk management. Directors and Heads of Service are also required to produce a governance statement in relation to their Directorate / service to support the AGS.

Note: The Risk Management Methodology is now included within the Risk Management Toolkit.

Risk Management Strategy 2017

1. Introduction

1.1 The Council's risk management strategy's objectives are to:

- Integrate risk management into the culture of the Council.
- Manage risk in accordance with good practice.
- Anticipate and respond to changing social, economic, political, environmental, legislative and technological requirements.
- Prevent injury, damage and losses and reduce the cost of risk.
- Raise awareness of the need for risk management by all those connected with the Council's delivery of services.

1.2 These objectives will be achieved by:

- Establishing clear roles, responsibilities and reporting lines within the Council for risk management - making clear that everyone should take ownership for risk management.
- Incorporating risk management considerations into all levels of business planning.
- Providing opportunities for shared learning on risk management across the Council and with Partner organisations.
- Offering a framework for allocating resources to identified priority risk areas.
- Reinforcing the importance of effective risk management as part of the everyday work of employees by offering training.
- Monitoring of arrangements, at all levels, on an on-going basis by management.

Diagrams showing our approach to risk management **are included within the Risk Management Toolkit available from the PSPG.**

2. Embedding risk management

Risk management is an important part of the business planning process. This will enable strategic, operational and cross cutting risks / opportunities, as well as the accumulation of risks / opportunities from a number of areas to be properly considered. The Council continues to embed the process and raise awareness of the importance of good risk management.

The milestones to be met in embedding risk management are detailed overleaf.

| Milestone | Annual Target Date(s) |
