	Increased mental wellbeing in the workplace	
Joint Strategic Needs Assessment		
Joint Commissioning and Service Integration		X
Maximising transfer of Public Health functions		
Financial		
Patient and Public Involvement		X
Early Intervention		X
Prevention		X

### 3. Recommendations

That the Health and Wellbeing Board note the progress made against the CQC Local System Review Action Plan.

### 4. Background

CQC carried out a Local System Review in January which focused on how well people move through the health and social care system. An Action Plan was written in order to address the recommendations made by CQC and this was submitted to DoH in June. Progress against the plan will be monitored via monthly conversations between Graeme Betts as Senior Responsible Officer for the Local System Review and Ed Moses, Deputy Director of Social Care Oversight at DoH.

For the most part, actions fall under the Birmingham Ageing Well Programme and are being progressed via the 3 workstreams that have been created: Prevention, Early Intervention and Ongoing Personalised support. These groups report directly to the Birmingham Older Person's Partnership Board.

Significant progress has already been made against the plan, notably:

- **Prevention:**
  - Neighbourhood networks and community assets work is progressing well
  - The workstream has secured funding for a pilot around social prescribing.

- **Early Intervention:**

- A Business Case for external support for locality based enablement pilot has been approved by Cabinet. The procurement process is in place and the pilot is due to start in September
- An additional Business Case for an Enhanced Assessment Bed pilot at the Norman Power Centre has just been approved.

- **Ongoing Personalised Support:**

- A new process for delivery of Continuing Health Care is being developed
- A workshop is being held in September to agree key points around delivery of integrated home support services at locality and neighbourhood levels.

The first update against the Action Plan has been submitted to DoH who were positive about the detail in the plan and how we are progressing against it.

## **5. Future development**

Delivery against the action plan will continue. Actions are currently scheduled up to June 2020.

## **6. Compliance Issues**

### **6.1 Strategy Implications**

Actions contained within the Action Plan are being integrated into the Birmingham Ageing Well Programme. This programme delivers the multi-agency response in Birmingham on the STP strategic priority of ageing better and later life.

### **6.2 Governance & Delivery**

Delivery of the actions will be via the Ageing Well Programme. Accountable to the Health and Wellbeing Board with suggested quarterly reporting of progress to the Board.

### **6.3 Management Responsibility**

As Senior Responsible Officer for the Local System Review, Graeme Betts is accountable for delivery of the Action Plan and reporting progress to DoH and Health and Wellbeing Board.

## **6. Risk Analysis**

This will be developed for individual actions as part of the programme management of Ageing Well.

<b>Identified Risk</b>	<b>Likelihood</b>	<b>Impact</b>	<b>Actions to Manage Risk</b>
