4. Report Body
<p>Background</p> <p>4.1 The report includes an overview of the impact of Covid-19 on NHSE&I commissioned screening and immunisation services in Birmingham, further detail will be provided during the presentation.</p> <p>4.2 Antenatal and newborn screening continued throughout Covid-19 with some alternate venues. A backlog built up during Covid-19 which has mostly been cleared.</p> <p>4.3 The majority of other screening (Breast screening, bowel cancer screening, cervical screening, diabetic eye screening, abdominal aortic aneurysm screening) paused in March due to Covid-19. In some cases, regional laboratories that test samples were repurposed for Covid-19 testing. Screening restarted between June to August, in some cases high risk screening has been prioritised.</p> <p>4.4 School age immunisations ceased in March when schools closed. Recommencing at the start of June with some schools allowing access and community provision also being used. Catch up services have been run through the school summer holidays</p> <p>4.5 Childhood immunisations continued through Covid-19. There was some impact on doses of vaccine between March and May, returning to normal by the end of June.</p>
