BIRMINGHAM CITY COUNCIL

REPORT OF THE ACTING DIRECTOR OF REGULATION AND ENFORCEMENT TO THE LICENSING AND PUBLIC PROTECTION COMMITTEE

16 MARCH 2016 ALL WARDS

FIXED PENALTY NOTICES ISSUED JANUARY 2016

- 1. <u>Summary</u>
- 1.1 The report sets out a breakdown, on a Constituency/Ward basis, of fixed penalty notices issued in the City during the period January 2016.
- 2. Recommendation
- 2.1 That the report be noted.

Contact Officer: Mark Croxford, Head of Environmental Health

Telephone: 0121 303 6350

E-mail: mark.croxford@birmingham.gov.uk

3. Background

- 3.1 The issuing of fixed penalty notices [FPN] by officers from Regulation and Enforcement is one of the means by which the problems of environmental degradation such as littering and dog fouling are being tackled within the City.
- 3.2 The yearly total numbers of fixed penalty notices issued are indicated below.

Fixed Penalty Notices Issued
222
382
209
650
682
1,147
1,043
827
2,053
1,763
1,984
4,985

4. Enforcement Considerations and Rationale

- 4.1 Set out in Appendix 1 to this report is a table showing on a ward and constituency basis where FPNs were issued during the period January 2016. Of the people who receive a FPN, Appendix 2 indicates in which Birmingham ward the person lives. As approximately one third of those receiving FPNs do not live in the city [visitors or those who work in the city], Appendix 3 identifies where those people live.
- 4.2 By identifying both the area where the FPN is issued and the ward/area that the litterer lives this demonstrates that the anti-litter message is being spread right across the city. By and large litter patrols are targeted to the primary and secondary retail areas of the city because there is a high level of footfall and they engage with a full cross section of the population. Targeted areas include locations where there are excessive levels of littering, smoking areas with high levels of cigarette waste that cause blight in the city and areas where there are known problems associated with groups gathering to eat outdoors.
- 4.3 The number of incidences of Fixed Penalty Notices being issued reflects the fact that there is still a problem with littering on our streets. Since the Health Act came into force there has been a decline in street cleanliness associated with cigarette waste. This is reflected not only in these statistics but also in the environmental quality surveys undertaken by Fleet and Waste Management that record cigarette waste being the most prevalent waste upon our streets and identify it in 98% of all samples of street cleanliness.

4.4 One of the difficulties in resolving the problem of cigarette waste being deposited on the street is that the perception of many smokers is that cigarette waste is not litter. A change in the culture and perceptions of these smokers is critical to resolving this problem.

4.5 Anyone who receives a FPN is encouraged to talk to their co-workers, friends and families to promote the anti-litter message.

5. Consultation

5.1 The Enforcement Policy that underpins the work identified in this report is approved by your Committee. The policy reflects the views of the public and the business community in terms of the regulatory duties of the Council. Any enforcement action[s] taken as a result of the contents of this report are subject to that Enforcement Policy.

6. <u>Implications for Resources</u>

6.1 The work identified in this report was undertaken within the resources available to your Committee.

7. <u>Implications for Policy Priorities</u>

7.1 The issue of fixed penalty notices has a direct impact on environmental degradation within the City and the Council's strategic outcome of staying safe in a clean, green city.

8. Public Sector Equality Duty

8.1 The actions identified in this report were taken in accordance with approved enforcement policies which ensure that equalities issues have been addressed.
