

Housing and Neighbourhoods Overview and Scrutiny Committee – 13 November 2018

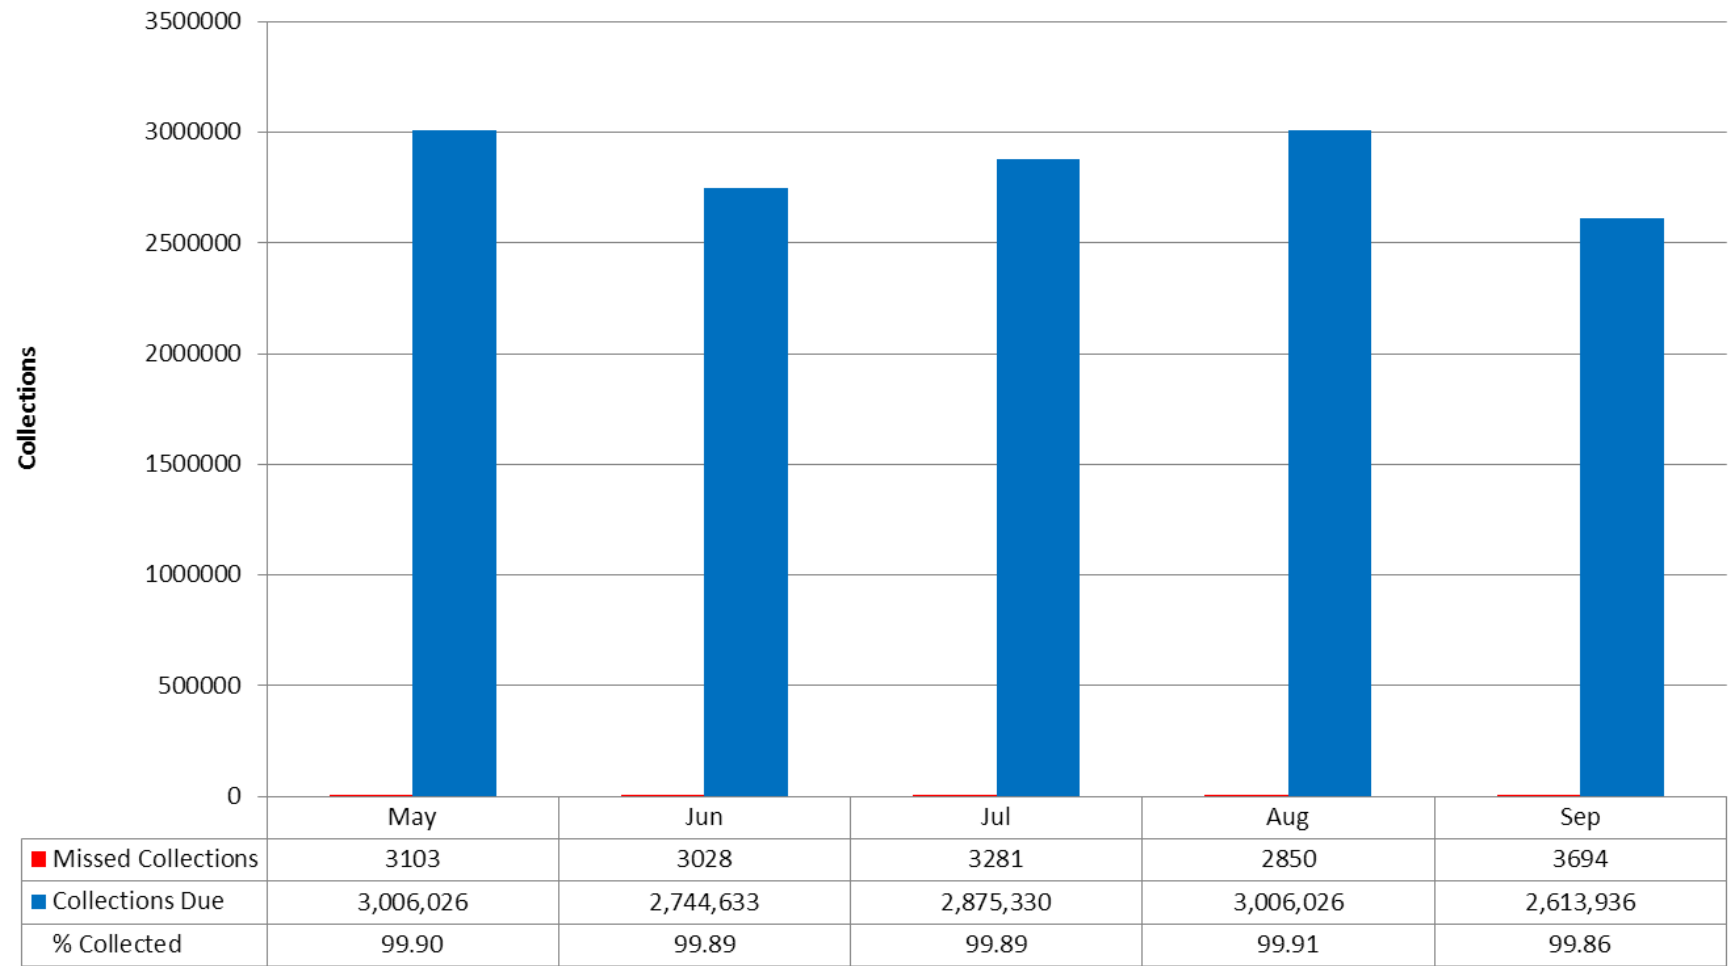

Additional information requested at 04 September 2018 meeting re Waste Management

Report date 05.11.18

Percentage of refuse and recycling collections achieved - including numbers of missed collections excl. Garden

Source: MAPSS – Numbers as reported by the public
Note:

Percentage of refuse and recycling collections achieved - including numbers of missed collections by Ward (excl garden)

Source: MAPSS – Numbers as reported by the public.

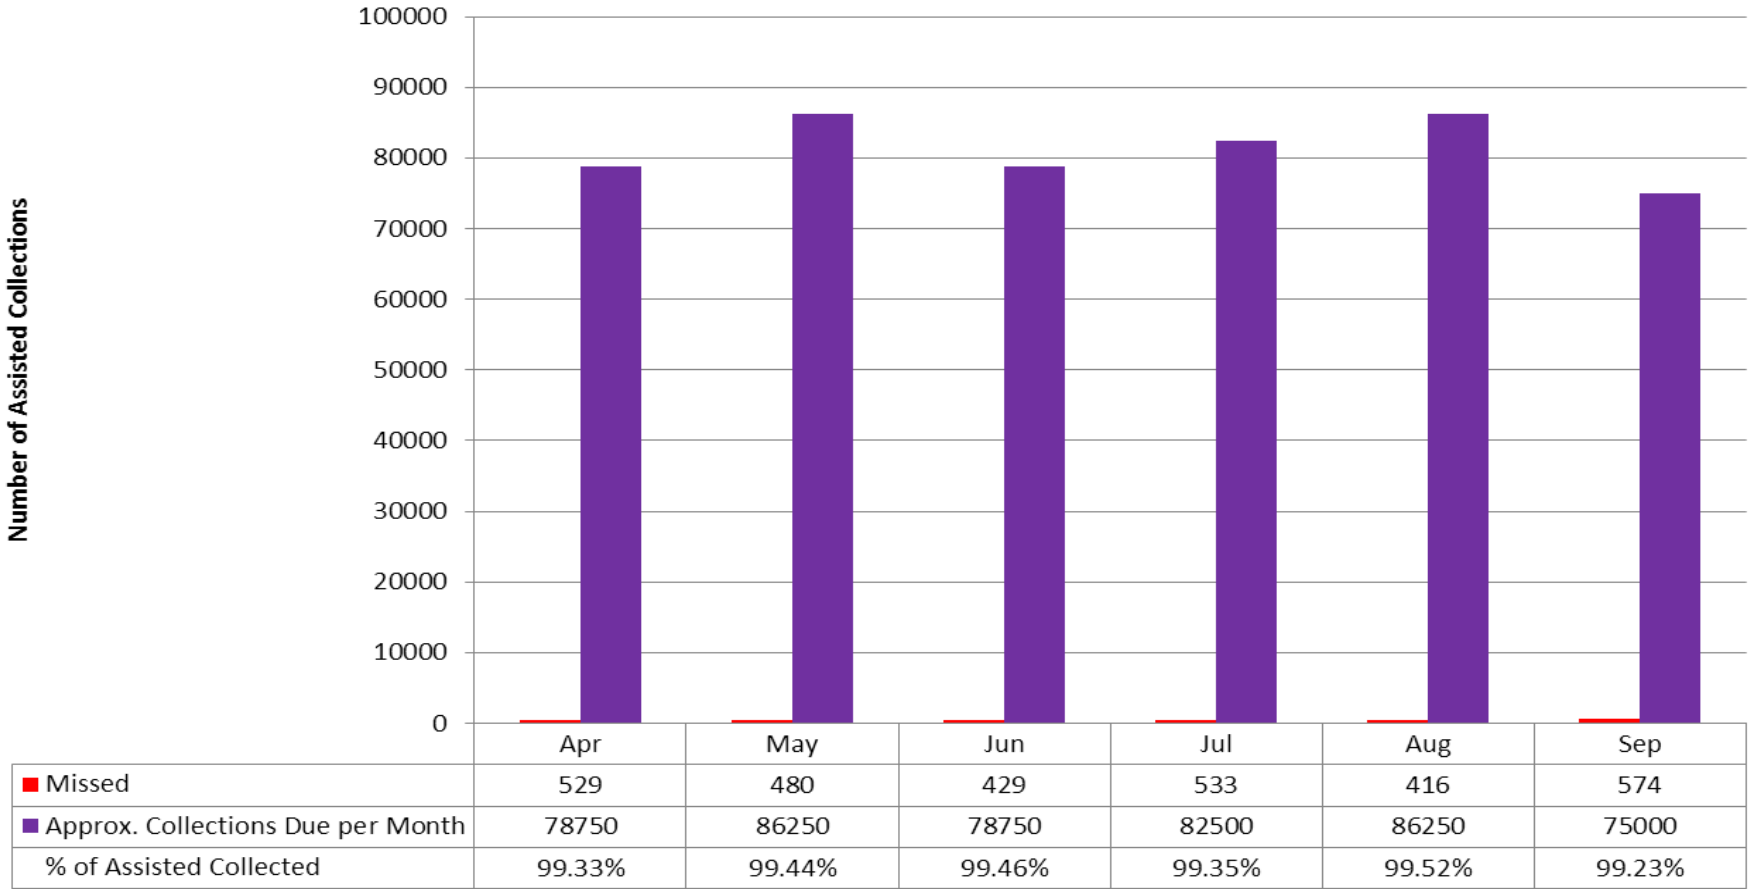

Note: As some wards span multiple Depots it is not possible to add which ward is specifically serviced by which Depot. Figures based on new Ward structure following introduction in May 18

Percentage of assisted refuse and recycling collections achieved - including numbers of missed collections excl. Garden

Source: MAPSS – Numbers as reported by the public.

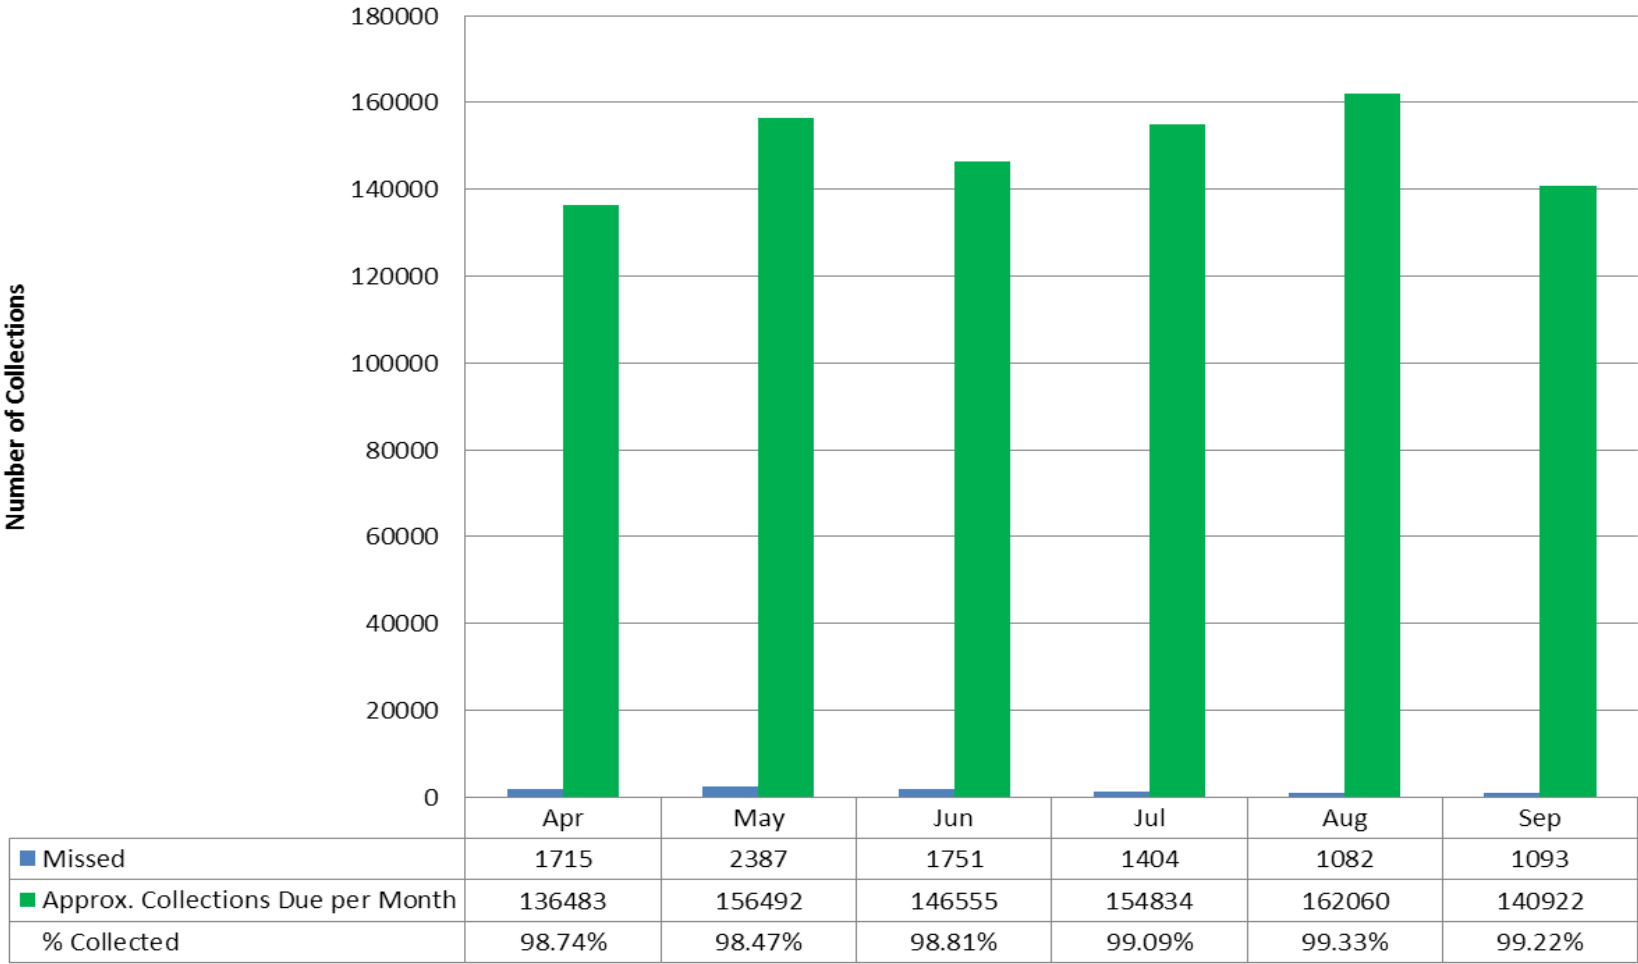

Note: There are circ. 12 500 customers who receive assistance with their collections, each receiving a weekly assistance for their waste collection and fortnightly assistance for their recycling collection, which equates to circ. 18 750 collections per week.

Percentage of garden collections achieved – including numbers of missed collections

Source: MAPSS – Numbers as reported by the public

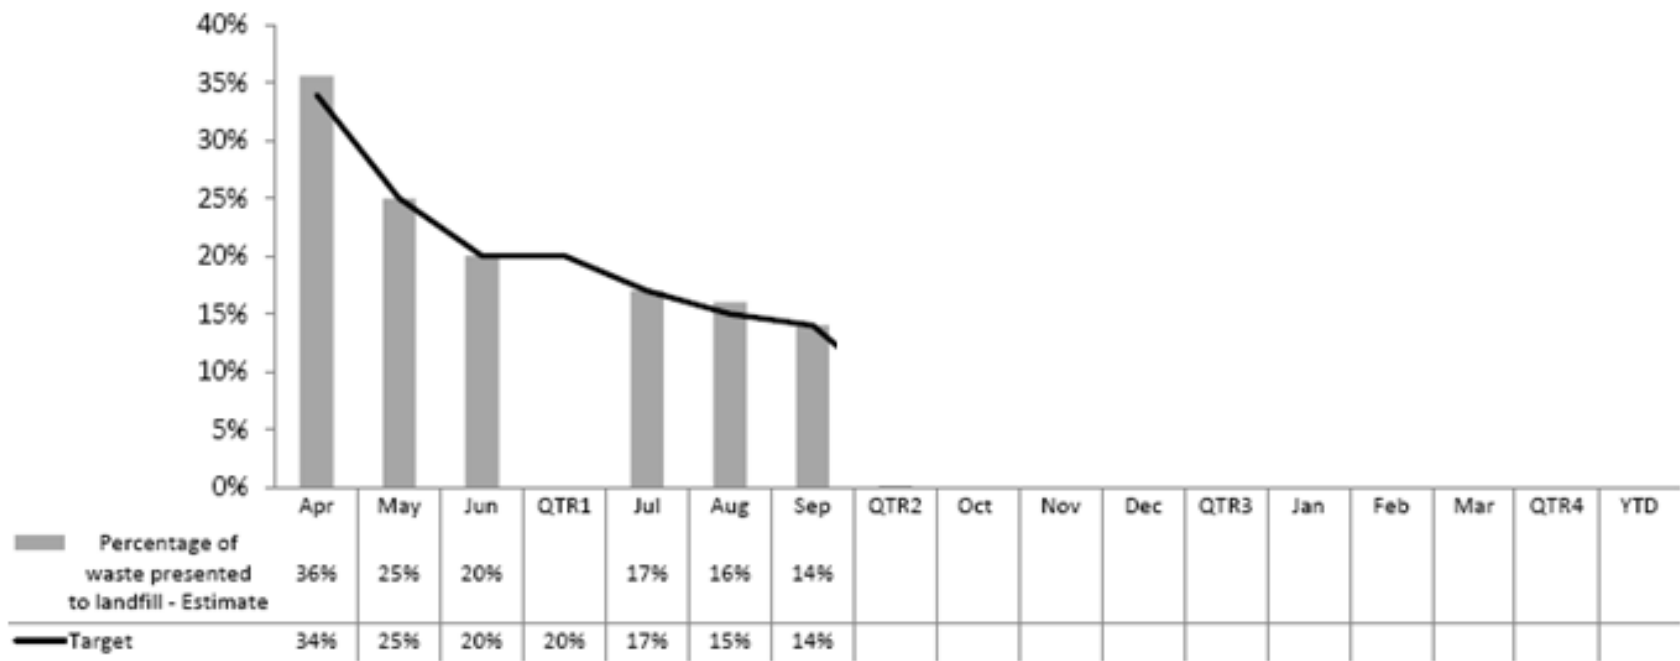

Note: Stabilisation of the service occurs following the closure of sales on 1st August. In September 99.22% of collections were successful .

PERCENTAGE OF WASTE PRESENTED TO LANDFILL

Source: Veolia

Note: This is the percentage of the total waste disposed of that was sent to landfill during the current financial year (April to March). The estimated year to date figure of 14% puts the service on the profiled target of 14%. Due to the planned maintenance shutdown of the Tyseley Energy Recovery Facility in April there is always a higher percentage of waste presented to landfill during this month this unfortunately over ran into May. Please note in September there was a significant reduction in the amount of waste going to landfill with an estimated monthly figure of just over 3%.
