

BIRMINGHAM CITY COUNCIL
REGULATION AND ENFORCEMENT

TRADING STANDARDS SERVICE PLAN
2017/2018

5. **Introduction to Trading Standards Services and the Service Plan**

The provision of a Trading Standards service is a duty placed on the Local Authority by statute. This includes the requirement to enforce specific Acts of Parliament and secondary legislation. The purpose of the Trading Standards service is to ensure that trade within the city is fair; that businesses comply with consumer protection legislation and that consumers are protected from unfair trading practices.

The work of the service affects people at all levels. Historically, individuals have been assisted in resolving civil consumer protection issues and are protected from unscrupulous traders through targeted enforcement action through intelligence led work. At a local level we, for example, remove unsafe products and counterfeit goods from the market place and tackle rogue traders etc. Regionally and nationally, we work with other local authorities and partners organisations such as the Police, HMRC, NHS and the Border Agency to pursue criminals and take enforcement action to protect consumers and legitimate businesses. Our activities even impact on an international level, where the enforcement action we take in Birmingham prevents people being exploited through, for example, unscrupulous package tour operators or organised serious crime such as financial scams and fraud.

Trading Standards work is intelligence led, either through complaints from the public, regional/national trading standards intelligence or information from partner agencies such as the police. This approach is consistent with all enforcement bodies in that resources are targeted at high risk service areas and are outcome focussed. Often major investigations can involve a whole team and this involvement is over weeks as opposed to one day. Some investigations can last more than a year from discovery to submission of prosecution proceedings. Although an investigation may be focussed at a particular location e.g. an importer's warehouse in Tyseley, the impact of unsafe products distributed from this location could be anywhere in Birmingham if not nationally or even internationally.

As an enforcing authority it is necessary for us to produce and publish our enforcement policy. This ensures that we apply consistent standards to our decision making process when we consider taking enforcement action. It also ensures consistency on a geographical basis across the city.

We have a commitment to deliver excellent, high quality integrated services that are focussed on outcomes. We seek to ensure that no sectors of the community are disproportionately disadvantaged by unacceptable activities of traders. With this in mind we use intelligence with our colleagues in Birmingham City Council and our partners to implement work programmes to tackle corporate and local priorities.

Factors that will influence the nature and scale of service delivery in 2017/2018 are:

- Since 2010 the team has reduced by over two thirds from 57.72 Full Time Equivalent staff (FTE) to 19.20FTE in 2015/2016.
- The maximisation of our use of intelligence to identify priority areas and tackle the high risk issues thereby maximising efficiency and value for money.
- Delivery of corporate business plan savings through income generation for business advice the exploration of creating a West Midlands Combined Authority Trading Standards service.
- Our continued alignment with Central England Trading Standards Authorities (CenTSA) and National Trading Standards (NTS) with a view to maximising any potential opportunities in receiving funding to deliver new regional or national work.

5.1 **The work of the Section originates in one of five ways:**

- Statutory, regulatory work to enforce a range of consumer protection legislation. This is primarily achieved through intelligence-led inspection of business premises and the investigation of requests for assistance e.g. enforcement of age restricted products, weights and measures, product safety and fair trading legislation.
- Supporting businesses by ensuring compliance with relevant legislation and tackling unfair competition. This will include Primary Authority Partnership work.
- Analysis of notifications and referrals from the Citizens Advice Consumer service to identify businesses that may be causing consumer detriment and trends.
- The use of intelligence to prioritise and inform proactive investigations by implementation of a tasking process.
- Acting as a responsible authority under the Licensing Act 2003 and as such making appropriate representations in response to licensing applications. In addition we instigate licence reviews where breaches of the licensing objectives have been identified.

5.2 **The core elements of the service are:**

- To support all consumers through the investigation of criminal Requests for Assistance (RFAs).
- To support vulnerable consumers in civil advice requests for assistance (RFAs). Typical complaints are sale of unsatisfactory or misdescribed goods/services, lack of cancellation rights, non-delivery of goods/ services and rogue trader incidents.
- To carry out intelligence led inspections to ensure compliance with consumer protection legislation.
- Enforcing anti-counterfeiting legislation; with priority given to infringing, unsafe goods.

- Adult safeguarding, preventing financial abuse through investigation of scams and doorstep crime.
- To support legitimate businesses through tackling illegal business practices.
- To reduce the supply of age restricted products to young people.
- To ensure goods placed on the market are safe.
- To work in partnership under a Primary Authority Partnership with No Rogue Traders Here. (trader approval scheme)
- To support the City Council's strategic priorities
 - **Children** – so Birmingham's a great city to grow up in
 - **Housing** – so Birmingham's a great city to live in
 - **Jobs and skills** – so Birmingham's a great city to succeed in
 - **Health** – so Birmingham's a great city to grow old in

Trading Standards statutory responsibilities:

There are 250 different pieces of legislation that places a statutory duty on the Council. Trading Standards Officers are authorised to enforce that legislation which primarily covers:

- **Unsafe goods** - TS ensure that consumer products are safe and comply with the requirements of the Consumer Protection Act 1987, and the General Product Safety Regulations 2005.
- **Fair trading** - the aim is to ensure truthfulness in trade to prevent consumers being misled during contractual negotiations for goods and services. This is done by ensuring compliance with the Consumer Rights Act 2015 and the Consumer Protection from Unfair Trading Regulations 2008. Investigations can lead to the discovery of serious fraud issues.
- **Counterfeit goods** - Counterfeit consumer goods are by definition goods infringing the rights of a trade mark holder by displaying a trade mark which is either identical to a protected trade mark or by using an identification mark. This criminal activity is often on a national scale and considered as a serious organized crime. By enforcing relevant legislation Trading Standards are ensuring that legitimate businesses that provide employment and economic benefits are being protected. Consumers are protected from poor quality, fake and potentially dangerous goods.
- **Underage sales** - trading standards enforce legislation related to the sale of age restricted products such as alcohol, tobacco products, knives, fireworks and DVDs to underage consumers.
- **Pricing of goods and services** - trading standards law requires that the price of goods should be made known to consumers in a clear and legible manner. We investigate both proactively and reactively any false and misleading price indications.
- **Weights and measures** - trading standards services are required to ensure that all relevant goods are correctly weighed and measured in accordance with

the Weights and Measures Act 1985. This is done by checking the accuracy of weighing/measuring equipment; checking goods in stock are of the correct weight; and investigating complaints of short measure.

- **Alcohol control** - duties as a responsible authority under the Licensing Act 2003. In addition we work to control the supply of illicit alcohol.

Further to the above, there is a duty placed on the Authority for a number of harmonised EU directives:

Directive 2005/29/EC on unfair commercial practices places a direct duty on enforcing authorities to protect certain population groups due to their vulnerability or credulity.

The Care Act 2014 places significant duties upon local authorities including in relation to preventing abuse and the role of the trading standards service in preventing financial abuse must be considered in the context of supporting the vulnerable citizens of Birmingham.

5.3 **Localisation**

We support the provision of services that deliver neighbourhood, city, and city region/national priorities. We will continue to work with communities to identify their priorities so that we can bring about consumer protection improvements to their local areas by proactive joint working with businesses, communities and other agencies. Officers engage through various local forums including neighbourhood/community groups, Business Improvement Districts, Ward and District Committee meetings to ensure effective engagement with residents, local traders and Members.

We continue to participate in the Central England Trading Standards Authorities group to access additional project funding from the NTS, intelligence advice and work in partnership to tackle regional and national issues.

We use intelligence to identify specific traders within Birmingham whose criminality may be having a detrimental effect on consumers not only locally but on a regional and national scale.

5.4 **Budget Pressures and Significant Changes in Service Delivery**

Since 2010 trading standards gross budget has reduced from £3,845,000 to £1,675,000 (2017/18). In 2017/18 we must deliver income generation of £20,000 in relation to business advice and in 2018/19 £50,000 (management overheads) in saving related a combined authority trading standards service.

To deliver the income proposal we:

- have entered into a Primary Authority Agreement with No Rogue Traders Here;

- are developing an access to knowledge course to support private hire applicants to achieve a pass in their compulsory knowledge test;
- exploring delivery of seminars to Business Improvement District.

In relation to the combined authority trading standards service we:

- have entered into discussions with other local authorities
- will be writing to the chief executives of the other 6 constituent authorities to gauge interest in the proposal.

Despite the reduction to its budget, Trading Standards will continue to use intelligence to tackle the highest risk areas and hence maximise efficiency and value for money. We have implemented a scoring matrix to review incoming requests for assistance. Priority will be given to vulnerable consumers and safety matters. We will also continue to align ourselves with the Central England Trading Standards Authorities and National Trading Standards (NTS) to maximise any potential opportunities in receiving funding to deliver new regional or national work.

5.5 **Planned Changes to Service Delivery**

During 2017/2018 the following changes to service delivery will be implemented to ensure maximum efficiency and effectiveness within budget constraints.

- We will offer regulatory advice to businesses on a commercial basis. We will no longer offer free business advice.
- We will deliver the new Primary Authority Partnership with No Rogue Traders Here to maximise benefits for all parties.
- We will explore new opportunities to enter into Primary Authority Partnerships.
- We will deliver the “Access to Knowledge” course for private hire drivers
- We will support the use of the corporate intelligence database to explore benefits in safeguarding adults through bespoke interventions with partners
- Utilise funding from the Director of Public Health to deliver tobacco control and alcohol control strategies

5.6 **Key Performance Indicators -**

These include the:

Place Directorate Performance Indicators:

Percentage of confident consumers in the City	Target 80%
---	------------

Local Indicators:

Percentage of RFAs responded to within 5 day target	Target 100%
---	-------------

Customer and business satisfaction with the overall quality of our services

Target 80%

5.7 National Returns

Trading Standards is required to make a number of statutory/ national returns and plans including:

- Chartered Institute of Public Finance Association - annual trading standards return.
- National Measurement Office – annual return under section 70 of The Weights and Measures Act 1985 of verification work completed and charged for in the last financial year.
- Animal Feed Registration and Inspection – returns to the Food Standards Agency

5.8 Organisational Assessment

This section details the service’s current performance.

The table below details the service’s key performance indicators with results against these indicators over previous years and some indicators of the quantity of work undertaken.

5.9 Key Performance Indicators

Type of Indicator	Indicator	Performance	
Place Directorate Plan Indicators	Percentage of confident consumers in the City. The measure was recalibrated in 2011/2012 and again in 2014/2015 as budget reductions impacted the breath of services delivered. The target is now 80% and will be used as the baseline for future years.	2016-2017*	83.0 %
		2015-2016	84.3%
		2014-2015	83.8%
		2013-2014	90.3%
		2012-2013	90.0%
Regulation and Enforcement' Local Indicators – response times to customer requests	We will respond to Requests for Assistance within 5 working days	2016-2017*	90%

2012-2013	Service no longer provided	4486	42	28	1,770

* 1/4/16 – 13/03/17

5.11 Customer Research

Trading Standards undertake a variety of customer consultations in order to gather information on the needs and expectations of our customers and potential customers. Our customers are members of the public who live or shop in Birmingham and businesses that trade in Birmingham. Regular

customer satisfaction questionnaires encourage customers to make suggestions for service improvements. The corporate Your Views procedure provides further information on customer needs and expectations. National Consumer Week provides opportunities to engage with the public and to seek their views. Other opportunities are taken as they arise to establish non-customers' knowledge of consumer issues. We utilise this consultation to ensure we comply with the local authority's requirements of the Duty to Inform, Consult and Involve. Our retention of the Customer Service Excellence Standard demonstrates that we are identifying our customers together with their needs from our services.

Recent examples of consultation and customer feedback have included:

- **Consumer Confidence**

We have conducted surveys amongst the public throughout the year to measure levels of consumer confidence as a way of measuring our own success in achieving the government's ideal of citizens being 'informed, confident consumers'. To the end of February 2017 83% of people surveyed said that they felt confident buying goods and services in Birmingham. In 2014/2015 the target was reduced to 80% from the previous 90% when trading standards stopped offering civil advice and assistance to all but the most vulnerable consumers, which was anticipated to have a negative consequence for this performance measure.

5.12 **Needs Of Stakeholders**

Central to the development of this Service Plan is the acceptance that Trading Standards serves not only its direct customers and businesses but also a wide range of other stakeholders – these include the City Council's elected members, partner organisations and government. The City Council's plans, policies, priorities and strategic outcomes provide us with the information from research that is essential to planning our services. The City's strategic priorities have formed the basis of this service plan and as such it supports the outcomes of Birmingham's Community Strategy 'Birmingham 2026'.

In relation to Government, both national and European, we play an active part in responding to consultations that might affect consumers or businesses in Birmingham. We also lobby Government over issues that are of concern to our stakeholders.

Birmingham Trading Standards has continued with the close working relationship with the Association of British Hajj which represents the interests of Muslim pilgrims who undertake the Hajj to Saudi Arabia. Over many years we have developed a close working relationship with Birmingham Assay Office enabling us to work collaboratively in the enforcement of hallmarking legislation.

5.13 **Likely Future Developments**

Trading Standards is involved locally and nationally with professional bodies and governmental groups looking at potential future developments. We have systems to ensure that we are aware of likely future developments that may impact on our services. Key developments facing Trading Standards in the coming year are:

- In the LGA Trading Standards Review in January 2016, there a key response to the review from the LGA is
 - “in order to ensure the future sustainability of trading standards work, councils should explore the options for sharing their services to create larger units. There is no one size fits all model for different councils, but having fewer, larger trading standards services, which serve more than one council but sit fully within local government structures, is likely to help ensure greater long term resilience of trading standards expertise”

Reference is then made to

- “We believe that larger services could be formed that fit within the new combined authority areas”
- The creation of the West Midlands Combined Authority from 1st April 2016 has raised the opportunity for Trading Standards to be delivered as a regional service. In 2017/2018 officers will continue discussions with the other six West Midlands Constituent Metropolitan District Council’s to establish how much interest and support there is for such a proposal.
- In 2016/2017 we will work with colleagues in Environmental Health and Licensing to create a commercial model for business support to underwrite the cost of delivering this part of our service which is non-statutory. We will no longer offer free advice to businesses.
- The promotion of the Better Business for All initiative under the Greater Birmingham and Solihull LEP

5.14 **Potential For Services To Be Provided By Outside Organisations**

The Local Government Association trading standards review summary report published in January 2016 stated that over the course of 2010-2015 funding from central government was cut by 40% and cuts to trading standards services around the country reflect this to a greater or lesser degree. It predicts further significant reductions to grant funding between 2015-2020. One of the key messages from the review said that there was still a strong commitment to trading standards remaining fully integrated within local government and it argued against recent proposals from the Chartered Trading Standards Institute that trading standards should be delivered by

strategic authorities. Without exception, trading standards was seen as a valuable service able to support local priorities, communities and businesses.

National Audit Office Protecting Consumers from Scams Report published in December 2016 acknowledges that the loss of resource and downsizing of Local Trading Standards services have led to gaps in coverage at the local level. Effective consumer protection relies on sufficient coverage across the local level, in particular to prevent enforcement gaps. Local Trading Standards has lost 56% of full-time equivalent staff since 2009. Twenty services in England have reduced funding by over 60% since 2011 and some now have only one qualified officer. The funding of smaller services is no longer sufficient for them to undertake significant enforcement cases, and a number of our case study sites were concerned about the viability of their service. There is no consensus on the minimum service level needed to protect consumers adequately

Local Authority trading standards are the only bodies able to enforce legal requirements of criminal consumer protection legislation, apart from some areas relating to the testing and the verification of accuracy of weighing and measuring equipment which can, in certain circumstances, be undertaken by non-Trading Standards organisations. Much of this work relating to weights and measures is now being delivered by other organisations and indications imply that this move to other providers will continue in the future.

A small number of companies employ former Trading Standards staff to act as consultants to private industry and offer analytical laboratory services to test foodstuffs and consumer goods. Although these companies have no statutory basis, they possess the technical knowledge to compete with enforcers if the Government was minded to take enforcement out of local authority control. However, such consultants normally work on a task and finish basis and hence the services provided will not benefit from a holistic approach working in partnership with other internal services or third party agencies to promote sustainable improvements.

There are examples of Local Authority services being out-sourced; examples included London Borough of Barnet and North Tyneside Council Regulatory Service, both of which are run under contract agreements with Capita-Symonds.

An alternative to outsourcing could be the development of a Public Sector Mutual. These are organisations that have left the public sector, but continue to deliver public services. Employee control usually plays a significant role in their operation.

5.15 **Service Delivery**

Trading Standards contributes to each of the City Council's Strategic Priorities. It is our declared strategy to ensure that all of the work that we undertake and all the services that we provide clearly support these. The services to be delivered as detailed in this Service Plan have been decided

upon based on the evaluation of the issues raised in sections 4 to 6. The services that will be delivered are contained in Appendix 5A to this Service Plan. The Appendix details the services that we will deliver and for each indicates the strategic outcomes that it supports.

5.16 **Financial And Resource Planning And Management**

Financial – Revenue and Capital

Revenue budget for 2017/2018 is shown below (in 000's), with figures for previous years included for comparison.

	Gross Expenditure	Gross Income	Other deductions
	£'000s	£'000s	£'000s
2017/2018	1,675	(221) incl.£27 asset depreciation	1,454
2016/2017	1,748	(182)	1,566
2015/2016	1,765	(172)	1,593
2014/2015	2,104	(173)	1,931
2013/2014	2,176	(172)	2,004
2012/2013	2,829	(152)	2,677
2011/2012	3,004	(63)	2,941
2010/2011	3,515	(189)	3,326
2009/2010	3,932	(172)	3,760
2008/2009	3,845	(77)	3,768

Budgets will be aligned to the identified priorities based on the staff and teams delivering the priorities. Where necessary staff and budgets may be redirected to ensure delivery of priorities.

People Resources

Since 2010 the team has reduced by over two thirds from 57.72 Full Time Equivalent staff (FTE) to 19.20FTE in 2015/2016.

The Trading Standards service has Head of Service, two Operations Managers, five Trading Standards Officers, two Accredited Financial Investigators and ten Enforcement Officers. It supports a further 6.03 administrative support staff. The structure of the service is illustrated in the Structure Chart at Appendix 5B. There are additional staff in the Government funded: Illegal Money lending team, which delivers a national service for England; and the regional Scambuster team.

The sectional training plan and consideration of competencies through the My Appraisal process will be used to ensure that people are trained and able to deliver the services that they are allocated. The resources required to deliver this Service Plan have been taken into account in its creation. Continued

accreditation to the 'Investors in People' standard will ensure confidence in our ability to deliver the plan and address matters of competency amongst our workforce. All enforcement staff have been trained in Advanced Investigatory Practices and have access to the Trading Standards Institute e-learning on-line training system to ensure core competencies are maintained.

I.T. Resources

All Requests for Advice and Assistance (RFA's) are recorded on an SAP system called M3. It provides us with intelligence to identify individual problem traders or trends in consumer complaints. Certain officers have been nominated as super users and additionally an officer attends a regulation and enforcement user group who are identifying any developments to the system that are needed to deliver service improvements.

Electronic communications are provided through the Outlook email system. There are various bespoke IT systems for particular service areas, including processing of court cases and the authorisation of and tracking of applications under the Regulation of Investigatory Powers Act.

The Trading Standards Service also utilises a national intelligence database called IDB. All officers are trained as Base Users with others trained as Super Users who can sanitise intelligence logs. This enables the service to input intelligence relating to criminality and also interrogate the system for intelligence provided by colleagues nationwide. In addition to this there are dedicated standalone computers to enable efficient e-crime investigations; this includes the test purchase of goods being sold on-line.

Trading Standards staff has been provided with equipment to support agile working and thus maximise efficiency.

Partners

The Trading Standards service acknowledges that maintaining and developing its services can be achieved more efficiently through selected partnership working. We work closely with neighbouring Local Authority Trading Standards services who are members of the regional group called CenTSA (Central England Trading Standards Authorities). Trading Standards enters into partnerships when we have assessed, using a decision matrix, the desirability of the working in terms of increased efficiency, synergy and commonality of priorities. This table details the partnership working that we currently undertake.

Activity	Description	Partners
Consumer Advice	1 st tier advice provided by the National Citizens Advice Consumer helpline	Citizens Advice Bureau Citizens Advice Consumer Service
Underage Sales of Alcohol	Control under-age purchasing of alcohol	West Midlands Police Licensing Authority Local businesses Community safety
