**THE REGULATION AND ENFORCEMENT OF STANDARDS
AT OUTDOOR EVENTS**

1. Summary
 - 1.1 To advise Committee of the Food Lead Teams role in regulating standards at city-wide outdoor events in 2015.
2. Recommendation
 - 2.1 That the report be noted.

Contact Officer: Nick Lowe, Operations Manager Food Safety
Telephone: 0121 303 2491
E-mail: nick.lowe@birmingham.gov.uk

Originating Officer: Helen Harper (Food Safety Team)

3. Background

- 3.1 A large number of events take place in the city throughout the year. These range from events lasting a few hours with minimal food offerings i.e. one or two mobile traders, to large events such as the Frankfurt Christmas Market (FCM) and Craft fair which operates for nearly six weeks and has over 80 food traders.
- 3.2 The Events Lead Officer from the Food Safety Team, Environmental Health, attends Safety Advisory Group (SAG) meetings for the larger events. The group consists of the event organisers and representatives from the emergency services and Birmingham City Council regulatory departments to ensure a consistent and coordinated approach to all events. This is where knowledge from previous events can be disseminated and all the requirements of each individual SAG representative can be advised.
- 3.3 The events lead officer has contributed to producing an Outdoor Events Manual which provides traders with information on what is expected of them prior to and during the event. This is issued to the event organiser who is expected to adhere to relevant sections.

4. Food Hygiene

- 4.1 A number of pre-requisites have been introduced for all traders at events which are detailed in the Outdoor Events Manual. These include ensuring that all traders are registered with a local authority and have received a Food Hygiene Rating Scheme (FHRS) score of three or above.
- 4.2 Officers from the Food Lead Team attended 14 events both during the week and at weekends this year to carry out Food Hygiene Interventions. This resulted in the carrying out of in excess of 250 inspections of mobiles and temporary premises. A number of aspects were looked at including food hygiene practices, hand wash facilities, temperature records, particularly for food produced away from site and general cleanliness.
- 4.3 Officers then give advice where necessary and also undertook formal action as required. This ranged from preventing a business from trading at an event to stopping them from trading until problems had been rectified i.e. hand wash purchased or hot water installed.
- 4.4 Food that was out of temperature control was disposed of as was food that did not have accompanying temperature records.
- 4.5 On site water supply is sampled by either the event organiser or the Food Lead Team to ensure that it meets microbiological criteria and is safe to use as drinking water, and during the cooking process.

5. Noise

- 5.1 Noise complaints can be a factor at some of the larger events, particularly Fusion Festival in Cofton Park and the Frankfurt Christmas Market due to the scale of the event and the length of time it takes to build and derig.
- 5.2 This is addressed by both the Events Lead Officer and an officer from the Noise team if deemed necessary.
- 5.3 Noise complaints are brought to the attention of the event organiser through the SAG process and this enables the organiser to determine what measures need to put in place to prevent them from occurring (again), or which residents they need to advise about ongoing works to prevent complaints in the future.
- 5.4 This was particularly important during the Frankfurt Christmas Market where a larger number of complaints were received this year. Most of these were resolved during the event period itself, a number of the issues will be addressed in next year's planning phase, especially around prior notification.

6. Super September

- 6.1 A number of high profile events took place during September, hence the name Super September. New Street Station and Grand Central opened along with John Lewis' first store in Birmingham. Villa Park hosted two Rugby world cup matches and a fanzone screening area was set up by the world cup to enable the public to watch the matches on a large screen. Birmingham also hosted an Arts weekend at the same time.
- 6.2 The Food Lead Team carried out a number of interventions prior to these events occurring:
 - The city centre officer worked closely with Grand Central management and New Street management to ensure food businesses were ready to trade.
 - Pre-opening inspections were carried out by the Food Lead Team and all businesses were inspected and scored once they had opened.
 - Villa Park was inspected prior to the Rugby matches taking place.
 - SAG meetings were attended by the Events Lead Officer.
 - The Fanzone area and mobile traders around Villa Park_were inspected_by the Food Lead Team
 - A number of Food Lead Team Officers provided cover during Super September weekend to ensure that if any problems arose they could be dealt with quickly ie illegal traders, waste problems, noise complaints etc.
 - Arts fest was also inspected by officers of the Food Lead Team.

- 6.3 Approximately 60 food businesses were inspected by the Food Lead Team during this period.

7. Waste

- 7.1 Waste removal needs to be considered as it is not only a food hygiene concern but it can have a detrimental impact on the event. Whilst it is the individual trader's responsibility to have their own arrangements for containing their waste during the event it is the event organiser's responsibility to arrange for storage and disposal of the waste. They are also required to ensure that the event does not impact on other businesses waste removal arrangements through road closures or road diversions. Again these concerns can be highlighted and resolved during the SAG process.

8. Complaints

- 8.1 Since the introduction of the pre-requisites (namely having an FHRS of at least three) complaints regarding the food served at events have decreased significantly.
- 8.2 In 2015 we only received one complaint regarding food served at the craft market. This involved alleged food poisoning, but due to the complaint being lodged after the event no investigation was possible.

9. Follow-up Work

- 9.1 Due to the nature of events, most follow-up work occurs shortly after the initial inspection, normally once inspections of the other traders has been completed. This can involve checking hot water, ensuring the business has purchased sanitiser and checking cooking temperatures.
- 9.2 Occasionally it is necessary for the Events Lead Officer to contact the Local Authority where the trader is registered to advise of any poor practices and highlight concerns. This was required on five separate occasions.
- 9.3 Inspections for the Frankfurt Christmas Market and the Craft Market are slightly different in that each business is issued with a Pass, Improve or Fail card. Traders who receive a Fail card are prohibited from trading until works have been carried out to ensure that they meet with the minimum food hygiene requirements. Traders who receive an Improve card are still allowed to trade, however, they will be revisited on a regular basis until they meet the necessary requirements to achieve a Pass Card. The Event Lead Officer also uses this information to determine which traders to revisit throughout the duration of the market.

- 9.4 In 2015 two businesses received a fail card and this was due to poor pest proofing and gnawed food being found at the initial inspections. Once proofing works had been carried out, an improve card was issued and then the businesses were monitored over the following weeks to ensure they remained pest free. In addition 10 businesses received an improve card, later issued with pass cards following re-inspections.
- 9.5 For a longer term event such as the Frankfurt Christmas Market a number of revisits may be carried out as significant works may be required. In 2015 a number of stalls required pest proofing works.

10. Enforcement Action

- 10.1 Due to the short term nature of the events, formal action in the form of Hygiene Improvement Notices is impractical. As a result traders are initially advised, through the SAG process and information given to them prior to the event, that should they meet our minimum Food Hygiene requirements. During the event itself if the inspecting officer feels that there may be a risk to the public we stop traders from operating and we are supported by the Birmingham City Council Events team and the Event's Organisers who ask the traders to leave the site.
- 10.2 One trader at Eid was asked to leave due to very poor conditions and food being exposed to a risk of contamination.
- 10.3 A number of food items were disposed of by a trader at the St Patricks Day parade because they were being kept out of temperature control.

11. Future Events

- 11.1 Following on from the improvements at events over the past two years, the Events Lead Officer, in conjunction with Event Organisers, proposes to introduce further pre-requisites. This includes only allowing traders with a FHRS of 4 or above to attend (this has already been implemented for City Centre management organised events) and ensuring that all traders attend with their own hand wash unit (not a bowl as is currently acceptable).
- 11.2 The Events Lead Officer also proposes to move away from inspecting the long standing events such as Vaisakhi and Eid Mela and concentrate on newer events such as Bangla Mela and smaller events that have the capacity to grow. This would enable the larger more established events to show that they can regulate themselves, and focus resources on higher risk activities.

12. Consultation

- 12.1 The activities highlighted in this report involve consultation with a number of additional agencies including other City Council partners, the Police, Fire Service and external organisers.

13. Implications for Resources

- 13.1 There were no additional costs incurred from the Committee's approved budget.

14. Implications for Policy Priorities

- 14.1 The work of the Food Lead Team identified in this report supports the City Council's strategic outcomes, 'Stay Safe' and 'Be Healthy'.

15. Implications for Equality and Diversity

- 15.1 The Frankfurt Christmas Market and Craft Fair and other events are enormously popular annual events that have huge appeal. They continue to attract large numbers of people of all ethnicities and a number have acquired both national and international acclaim.

COMPUTED TOMOGRAPHY POST MORTEMS

1. Summary

- 1.1 A report to advise the Committee of the introduction of Computed Tomography Post Mortems (CTPM) provision by the Senior Coroner for Birmingham and Solihull and the potential for the service and the bereaved.

2. Recommendation

- 2.1 That the report be noted.

Contact Officer: Alison Harwood, Acting Director of Regulation and Enforcement
Telephone: 0121 303 0201
E-mail: alison.harwood@birmingham.gov.uk

Originating Officer: Adrian Parkes, Operations Manager Coroners and Mortuary

3. Background

- 3.1 The Coroners and Justice Act 2009 introduced the provision for the use of minimally invasive post mortems as an alternative to the traditional invasive post mortem in relation to autopsies ordered by Coroners.
- 3.2 Chief Coroner shortly after his appointment issued guidance on the use of CTPM. In 2015 the High Court in the case of *Charles Rotsztein v HM Senior Coroner for Inner London* the court gave guidance as to the approach coroners should take when considering whether to direct invasive or non-invasive post-mortem procedures in cases where a deceased's family had expressed religious objections to the use of an invasive autopsy. This guidance provides coroners with a series of tests to apply in relation to dealing with requests for CTPM – in cases of religious objection to an invasive post mortem:
- There has to be an established religious tenet that an invasive post mortem was to be avoided.
 - There had to be a realistic possibility that non-invasive procedures would establish the cause of death and would permit the coroner to fulfil their duty.
 - The whole post-mortem examination had to be capable of being undertaken without undue delay.
 - The performance of non-invasive or minimally-invasive procedures must not impair the effectiveness of an invasive autopsy if one was ultimately required.
 - Non-invasive procedures could be adopted without imposing an additional cost burden on the Coroner.
- 3.3 CTPM is the means by which a digital autopsy is undertaken. This is a relatively new process and has been subject to research that indicates that it is suitable in certain cases to replace an invasive post mortem and provide the coroner with the cause of death sufficient for them to fulfil their legal duty to establish the cause of death.
- 3.4 There are limitations to the effectiveness of CTPM and research has confirmed that it is not suitable for cases of sepsis or following most hospital procedures. Additionally the use of angiography (the injection of dye into the arteries of the deceased) is a prerequisite to its use in establishing the most common causes of death including ischaemic heart disease. With angiography in place research indicates that the use of CTPM could identify the cause of death to the satisfaction of a coroner in around 70% of deaths. Without angiography this figure falls very significantly and the Birmingham and Solihull Coroner believes it is suitable only for traumatic deaths.
- 3.5 The CTPM facility provided by Igene at Sandwell is not able to undertake angiography. As a result in the view of the Senior Coroner it can only be used in cases of traumatic death.

4. The Current Position in the Birmingham and Solihull Coroner's Area

4.1 In 2014, the Senior Coroner was approached by Igene, a Malaysian company, with regard to the locating of a CTPM facility in Birmingham. Igene were invited to the Central Mortuary to investigate the potential to install the equipment on site. Igene considered this as an option but decided that the facilities were too small to accommodate their equipment. Subsequently Igene were offered other facilities within the city councils property portfolio which appeared to meet Igene's requirements. The company decided however, to build their facility adjacent to Sandwell crematorium and not in Birmingham.

4.2 In June 2015 the Senior Coroner agreed to make CTPM available for the undertaking of post mortems under her direction. This decision was communicated through the Faith Advocacy Group (which includes the bereavement services in the hospitals), and the Funeral Director's consultation meetings held bi-annually by Bereavement Services and information posted on the Coroner's Service website.

4.3 In line with the chief coroners guidance issued on 4 September 2013 the cost of the CTPM was to be met by the family who would also be required to arrange and pay for the transport of the deceased to and from the facility. His guidance is:

'A number of limitations, not least cost, preclude coroners from offering post mortem imaging as a possible alternative to the conventional autopsy in all cases, and certainly not as a free service. But the service may be requested of them and they will have to decide how to respond. Coroners will have to discuss locally how such imaging, if available, can be funded (as well as transport services). If families have to pay, payment should never be made directly through the Coroner Service'

4.4 The procedure involved for families choosing to have a CTPM is summarised:

- The Senior Coroner has to agree that the death is a suitable for a CTPM.
- The deceased has to be taken into the central mortuary in Birmingham where a pathologist conducts the required external examination of the deceased.
- The family arrange for the deceased to be taken from the central mortuary to the facility in Sandwell where the CTPM is carried out and the body then returned to the Central Mortuary.
- Igene **radiologists** examine the results of the CTPM and produce a report that is sent to the pathologist dealing with case. The Pathologist reviews the information and produces a further report to inform the Coroner's decision in relation to the cause of death.
- If the cause of death cannot be established to the satisfaction of the coroner an invasive post mortem will be undertaken. Where a CTPM is undertaken there may still be the need for toxicology and/or histological

tests to be undertaken that will require some invasion of the deceased to obtain the required samples for testing.

This process will increase the timescales for families compared to the traditional post mortem because of the need to transport the deceased and await the report from Igene before the pathologist can report to the Coroner.

- 4.5 The cost of a CTPM at Igene is £500 (+ vat) which is paid for by the family who are also required to arrange and pay for the transport to and from the facility. The City Council still has to pay the pathologist the statutory fee the same as for a traditional post mortem. If Igene are unable to provide a cause of death acceptable to the Coroner then their fee to the family is refunded. This policy is currently being reviewed.
- 4.6 A CTPM facility with angiography is available at a hospital in Oxford. This facility is only available out of normal office hours. This facility has been used by families on two occasions at their request. The cost is similar at around £400 (+ vat) but the transportation costs are increased because of the distance travelled.

5 Demand for CTPM in Birmingham

Since 1 June 2015 there have been three instances where CTPM has been conducted, one at Igene's facility in Sandwell and two at Oxford. This is reflective of the level of requests that have been received from families to have CTPM, to date the number of requests is in single figures.

6 Potential Use of CTPM

- 6.1 In 2015 over 1,700 post mortems were ordered by the Coroner for Birmingham and Solihull. Approximately 70% of these cases would have been suitable for CTPM if angiography were available. Where angiography was not available then approximately 10% would have been suitable for CTPM.
- 6.2 Oxford provides angiography but can only accommodate a limited number of CTPM's as it is located in a hospital and only operates this service outside of normal office hours .
- 6.3 The Senior Coroner has raised the potential to have a CTPM facility with angiography made available at Birmingham hospitals but to date there has not been any interest shown in developing such a facility
- 6.4 If increasing numbers of CTPMs were to be conducted and families pay for them the savings to the council would be minimal as the staff in the central mortuary are required to maintain the public mortuary facility and the statutory fee would still be payable to the pathologist in each case .

7 Implications for Resources

- 7.1 There is little impact in relation to resources as the cost of the service is met by the family.

8 Implications for Policy Priorities

- 8.1 The provision of post mortems by the Coroner contributes to the policy priority of a fair city especially in relation to keeping people safe and ensuring older people are cared for with dignity.

9 Implications for Equality and Diversity

- 9.1 The provision of the CTPM service is available for all bereaved families.

3. Results

3.1 During the month of January 2016:

- Appendix 1 lists two Licensing cases resulting in fines of £1,125, prosecution costs of £1,409 were awarded and eight simple cautions were administered.
- Appendix 2 lists 92 Environmental Health cases resulting in fines of £29,496, prosecution costs of £15,949 were awarded, no simple cautions were administered.
- There were no Trading Standards cases finalised in January 2016 and no simple cautions were administered. An appeal against sentence was heard as set out in Appendix 3.
- Appendix 4 lists cases finalised by district in January 2016 and cases finalised by district April-January 2016.
- Appendix 5 lists the enforcement activity undertaken by the Waste Enforcement Team April - December 2015.

4. Consultation

- 4.1 The Enforcement Policy that underpins the work identified in this report is approved by your Committee. The policy reflects the views of the public and business in terms of the regulation duties of the Council. Any enforcement action[s] taken as a result of the contents of this report are subject to that Enforcement Policy.

5. Implications for Resources

- 5.1 Costs incurred in investigating and preparing prosecutions, including officers' time, the professional fees of expert witnesses etc. are recorded as prosecution costs. Arrangements have been made with the Magistrates Court for any costs awarded to be reimbursed to the City Council. Monies paid in respect of fines are paid to the Treasury.

- 5.2 For the year April 2015 to January 2016 the following costs have been requested and awarded:

Licensing

£40,677 has been requested with £25,014 being awarded (61%).

Environmental Health

£158,645 requested with £139,834 being awarded (88%).

Trading Standards

£67,040 requested with £49,381 being awarded (74%).

- 5.3 For the month of January 2016 the following costs have been requested and awarded:

Licensing

£1,409 has been requested with £1,409 being awarded (100%)

Environmental Health

£19,198 has been requested with £15,949 being awarded (83%).

6. Implications for Policy Priorities

- 6.1 The contents of this report contribute to the priority action of ensuring business compliance with legislation to protect the economic interests of consumers and businesses as contained in the Council Business Plan 2015+.

7. Public Sector Equality Duty

- 7.1 The actions identified in this report were taken in accordance with the Enforcement Policy of the Licensing and Public Protection Committee which ensures that equality issues have been addressed.

3. Background

3.1 The issuing of fixed penalty notices [FPN] by officers from Regulation and Enforcement is one of the means by which the problems of environmental degradation such as littering and dog fouling are being tackled within the City.

3.2 The yearly total numbers of fixed penalty notices issued are indicated below.

<u>Month</u>	<u>Fixed Penalty Notices Issued</u>
April 2004 – Mar 2005	382
April 2005 – Mar 2006	209
April 2006 – Mar 2007	650
April 2007 – Mar 2008	682
April 2008 – Mar 2009	1,147
April 2009 – Mar 2010	1,043
April 2010 – Mar 2011	827
April 2011 – Mar 2012	2,053
April 2012 – Mar 2013	1,763
April 2013 – Mar 2014	1,984
April 2014 – Mar 2015	4,985

4. Enforcement Considerations and Rationale

4.1 Set out in Appendix 1 to this report is a table showing on a ward and constituency basis where FPNs were issued during the period January 2016. Of the people who receive a FPN, Appendix 2 indicates in which Birmingham ward the person lives. As approximately one third of those receiving FPNs do not live in the city [visitors or those who work in the city], Appendix 3 identifies where those people live.

4.2 By identifying both the area where the FPN is issued and the ward/area that the litterer lives this demonstrates that the anti-litter message is being spread right across the city. By and large litter patrols are targeted to the primary and secondary retail areas of the city because there is a high level of footfall and they engage with a full cross section of the population. Targeted areas include locations where there are excessive levels of littering, smoking areas with high levels of cigarette waste that cause blight in the city and areas where there are known problems associated with groups gathering to eat outdoors.

4.3 The number of incidences of Fixed Penalty Notices being issued reflects the fact that there is still a problem with littering on our streets. Since the Health Act came into force there has been a decline in street cleanliness associated with cigarette waste. This is reflected not only in these statistics but also in the environmental quality surveys undertaken by Fleet and Waste Management that record cigarette waste being the most prevalent waste upon our streets and identify it in 98% of all samples of street cleanliness.

4.4 One of the difficulties in resolving the problem of cigarette waste being deposited on the street is that the perception of many smokers is that cigarette waste is not litter. A change in the culture and perceptions of these smokers is critical to resolving this problem.

4.5 Anyone who receives a FPN is encouraged to talk to their co-workers, friends and families to promote the anti-litter message.

5. Consultation

5.1 The Enforcement Policy that underpins the work identified in this report is approved by your Committee. The policy reflects the views of the public and the business community in terms of the regulatory duties of the Council. Any enforcement action[s] taken as a result of the contents of this report are subject to that Enforcement Policy.

6. Implications for Resources

6.1 The work identified in this report was undertaken within the resources available to your Committee.

7. Implications for Policy Priorities

7.1 The issue of fixed penalty notices has a direct impact on environmental degradation within the City and the Council's strategic outcome of staying safe in a clean, green city.

8. Public Sector Equality Duty

8.1 The actions identified in this report were taken in accordance with approved enforcement policies which ensure that equalities issues have been addressed.

MAGISTRATES' COURT – PRIVATE HIRE DRIVER'S LICENCE

	Name	Date Case Heard	Result	Costs Requested	Costs Ordered	Comments
1	Khalid Din	08.01.2016	Dismissed	£250	0	On 27 October 2015, as the result of a conviction for plying for hire and using a vehicle while uninsured, Committee considered and, in line with the relevant policy, refused the renewal of a licence. An application for costs was made but in view of Mr Din's financial circumstances the Magistrates did not order any costs. Mr Din has indicated he will appeal to Crown Court.
2	Abdul Ghafoor	11.01.2016	Dismissed	£250	0	On 21 October 2015, as the result of a conviction for plying for hire and using a vehicle while uninsured, Committee considered and, in line with the relevant policy, revoked the licence. Although an application for costs was made the magistrates, mindful of the fact that he had four dependent children and would lose his job, determined that in the circumstances it would not be appropriate to make any order for costs.
3	Mohammed Miah	18.01.2016	Dismissed	£250	£250	On 27 October 2015, as the result of a conviction for benefit fraud and failure to report the conviction for over a year, Committee considered and resolved to refuse the renewal of a licence. Mr Miah has indicated he will appeal to Crown Court.
4	Qadeer Ahmed Hussain	27.01.2016	Dismissed	£350	£350	On 23 October 2015, as the result of information and a CCTV recording received from British Transport Police of an incident of severe violence at Sutton Coldfield Rail Station, the Chair of your Committee considered in consultation with the Licensing Manager and resolved that the licence be revoked with immediate effect. Although the CPS dropped the prosecution after Mr Hussain apologised to the victim, Mr Hussain admitted to the offence at the appeal hearing, and the Magistrates upheld the Chair's decision.

5	Shoket Ali	29.01.2016	Allowed	0 (contra BCC)	0	On 30 September 2015, as the result of a complaint from a hackney carriage driver alleging plying for hire on the part of Mr Ali, Committee considered and resolved to refuse the renewal of a licence. The appeal was allowed because of the submission of fresh evidence, which had not been available to Committee.
