19234 **RESOLVED**:-

This Council notes that

- The Climate Crisis is an existential threat that requires us to change the way we invest in, grow and sustain our cities and regions.
- The Intergovernmental Panel on Climate Change (IPCC) report published in October 2018 set out the devastating consequences for the planet if it warmed more than 1.5C – with increased extreme weather with heatwaves and floods driving mass migration and global insecurity; the catastrophic social and ecological impacts worsening for every degree of warming.
- The impact of climate change will not just be felt in far-away lands or coastal areas, the impact on Birmingham residents of increased extreme weather events, including flooding, droughts and heatwave is likely to be profound, with increasing risks to both life and property. Given our global footprint and the diversity of the city the climate crisis will hit at the heart of families and communities within the city.

- Given the planet is currently heading for 3-4C warming, keeping to 1.5C requires a radical shift across energy, land, industrial, urban and other systems to reduce emissions, unprecedented in history for the breadth, depth and speed of change required.
- All governments (national, regional and local) have a duty to limit the
 negative impacts of Climate Breakdown and in recognising this local
 government should not wait for national government to change their
 polices. It is important for the residents of Birmingham, the Region and
 the UK that cities commit to zero carbon as quickly as possible.
- Birmingham and the West Midlands, as the birthplace of the Industrial Revolution and a global player in the development of green technology, is ideally placed — and has a moral responsibility to lead a new Green Industrial Revolution that delivers clean and inclusive growth.
- Birmingham City Council has already made progress in addressing the issue of Climate Change, having adopted a target to cut Carbon Dioxide emissions by 60% by 2027 from a 1990 baseline and has already cut emissions by 33% (as of 2015).
- Unfortunately, current plans and actions are not enough. Transition in time requires a system change that drives decarbonisation whilst delivering justice and jobs.

This Council resolves:

- To declare a climate emergency.
- To aspire for the City to be net zero carbon by 2030 or as soon after as a just transition permits – making sure we take communities with us, protecting employment and without impoverishing deprived communities.
- To work with the WMCA and seek from the UK Government the powers and resources to help Birmingham deliver the 2030 net zero carbon ambition for a just transition.
- That the Council will lead by example and seek to be net zero carbon by 2030 – again ensuring that this is just - taking communities with us, protecting employment and without impoverishing deprived communities.
- To constitute a Climate Emergency Task Force to support the Council move from declaration to delivery drawing in cross sector, expertise, capacity and capability to capture the investment and economic opportunity arising from a low carbon future.
- To quickly set in place a process of engagement and collaborative action that enables the Task Force to bring forward to Full Council in January 2020 a plan that sets out how the aspiration for the City and the ambition of the Council to be net zero carbon by 2030 can be best achieved.

 As a matter of urgency to review planned Transport, Housing, Waste and Energy Investment plans and policies to ensure they are fit to support a transition to a zero-carbon future with Sustainability and Transport Overview and Scrutiny monitoring progress and to provide an update to Council in November 2019 and annually thereafter.

The Lord Mayor reminded members of the public that meetings of the City Council were recorded. He continued that the times on the agenda were an indicative time of when the item was going to be considered and if members of the public are not present in the public gallery then they could see the proceedings via www.civico.net/birmingham.

The Lord Mayor indicated that, as point of clarification, Members were legally bound to declare their pecuniary and non pecuniary interests on the Statutory Register of Interests.

The meeting ended at 1842 hours.

WRITTEN QUESTION TO THE DEPUTY LEADER OF THE COUNCIL FROM COUNCILLOR NEIL EUSTACE

B1 Working with Combined Authority - Impact of Brexit on Region

Question:

The City Council has been working with the Combined Authority to assess the impact of Brexit on the region. What updates have been undertaken since the initial report was published and what are their conclusions?

Answer:

The Brexit Commission's report on the Impact of Brexit in Birmingham and the West Midlands was commissioned from an independent author and published by Birmingham City Council in November 2018. Since then the work has split into two streams – the Brexit Commission now oversees the preparations across the councils and partners in the Combined Authority area, and the WMCA's Brexit Economic Advisory Group has bought together business leaders to prepare for the economic impact.

As part of the Brexit Commission we have received verbal reports from staff representing different service areas about what their workstreams are doing and where further work is needed. These groups meet regularly to monitor Brexit progress and review latest guidance and Technical Notices provided by HM Government. The next meeting of the Brexit Commission is scheduled for 28 June 2019.

As part of the Brexit Economic Advisory Group we have received verbal updates from business leaders and the University of Birmingham about preparations and the ongoing impact of Brexit uncertainty. These have informed an ask of government for additional resource to cope.

The ongoing uncertainty around Brexit is the major issue for both groups.

WRITTEN QUESTION TO THE DEPUTY LEADER OF THE COUNCIL FROM COUNCILLOR ZAKER CHOUDHRY

B2 Leave EU without a deal - impact on region

Question:

Given the increased risk of the UK leaving the EU without a deal on 31st October, what work has been done to update the assessment of the impact on the region?

Answer:

Since the production of an initial impact report in November 2018 there have not been any further reports produced internally. I attend a Brexit Economic Advisory Group meeting hosted by the WM Mayor which has received verbal updates from business leaders and universities and looked at how best to respond. I also chair the Brexit Commission which oversees potential impact on public services locally. The conclusions to date drawn from these discussions were presented to Economy and Skills Overview and Scrutiny Committee on 27 February 2019.

These groups meet regularly to monitor Brexit progress and review latest guidance and Technical Notices provided by HM Government. The next Brexit Commission has been arranged for 28 June 2019.

D1 NDTi report

Question:

What was the total amount the Council paid to the National Development Team for Inclusion (NDTi) for their work on the Vision and Strategy for Adult Day Opportunities?

Answer:

To disclose the exact value would be commercially undermining for the organisation. I can confirm the work commissioned from NDTi in relation to the Adult Day Opportunities was at a cost of less than £50,000 to the Council.

WRITTEN QUESTION TO THE CABINET MEMBER FOR HEALTH AND SOCIAL CARE FROM COUNCILLOR SUZANNE WEBB

D2 NDTi report 2

Question:

When did you, as portfolio holder, first receive a copy of the report produced by NDTi that was dated July 2018 and was agreed to be released to campaigners by the Consent Order submitted to the High Court in November 2018?

Answer:

A copy of the report was sent to Councillor Hamilton in January 2019 by the interim Assistant Director, Adult Social Care.

WRITTEN QUESTION TO THE CABINET MEMBER FOR HOMES AND NEIGHBOURHOODS FROM COUNCILLOR ROBERT ALDEN

E1 HMO covenants

Question:

When the empty homes strategy was presented to Cabinet you committed to looking into our call for a covenant to be placed on homes brought back into use to prevent family homes being converted into HMOs. Has this been done?

Answer:

On initial investigation there is significant crossover between a request for a covenant within the empty properties work and a report presented to Cabinet on 14th May 2019 around an Article 4 Direction within the City. The Article 4 Direction would apply to any family housing being converted into HMOs. The Article 4 Direction removes permitted development rights for certain types of development, meaning that planning permission has to be obtained and we can apply certain proposals and policies which seek to avoid a high concentration of HMOs in an area.

The City Council has tested this approach in parts of Selly Oak, Harborne, and Edgbaston and this will be rolled out across the city once legal processes have been completed. Consultation is open until 16th July 2019.

The Article 4 Direction if approved will come into effect in June 2020 and would go some way in addressing the concerns raised about the use of empty properties as HMO's as this will be controlled through the planning application process as part of the wider Article 4 implementation. However, we will be exploring with Legal (in line with the Article 4 discussions) whether there are any interim options or considerations for the Empty Property Strategy beyond the potential impact of Article 4.

For Empty Properties acquired by the city council through a compulsory purchase order we could place on the land/ property a restricted covenant stating they cannot be used as an HMO on resale. This covenant is in place for both the city council selling on the property/ land and any future sales of the property unless permission to vary or release the covenant is requested and approved. There are additional financial implications that need to be considered through discussion with Birmingham Property Services as the covenant could affect the resale value of the property for the city council and could restrict the recovery of costs. We continue to explore this to understand the full financial and legal implications and will prepare a briefing outlining possible recommendations.

WRITTEN QUESTION TO THE CABINET MEMBER FOR STREET SCENE AND PARKS FROM COUNCILLOR DEBBIE CLANCY

F5 Missed Collections

Question:

Since the end of the industrial dispute, how many missed collections have there been per week, per ward, per collection type?

Answer:

The attached spreadsheet details the number of both individual property and whole road missed collections reported per week, per ward, and by collection type from the 1 April (Week 14) to the 4 June 2019. As Garden collections are only relevant to those customers who have subscribed, only individual missed collections can be reported.

As far as possible duplicate reports have been removed where the same reporter has reported the same individual missed collection multiple times in a week and where multiple reporters have reported the same whole road missed in a week.

F8 WRCOs

Question:

Since the end of the industrial dispute, how many 'interventions' have been made by WRCOs to encourage recycling (broken down by type of intervention)?

Answer:

The WRC Officers have undertaken 137 direct resident engagement interventions since the 1 April 2019 which will have involved talking to residents or providing information to them about recycling and the disposal of residual waste which impacts on recycling.

In addition they have undertaken 1581 recycling level street surveys which have identified 50 streets on which only 0-25% of recycling bins are being presented for collection. These surveys have generated referrals to the Waste Prevention section who visit and engage with residents with the aim of increasing recycling on these particular streets.

WRITTEN QUESTION TO CABINET MEMBER FOR STREET SCENE AND PARKS FROM COUNCILLOR BABER BAZ

F26 Waste Collection Services - Satisfactory since last dispute

Question:

Does the Cabinet Member consider the performance of the waste collection services to have been satisfactory since the ending of the last industrial dispute?

Answer:

Having only recently taken up this position I am now working with officers, the workforce and trades unions to improve our current performance levels.

Whilst we have managed to stabilise some of the service over the last few months, there are still a number of ongoing operational difficulties that we are working hard to resolve.

I will not be satisfied with performance until we are consistently maintaining our weekly residual and fortnightly green and recycling collections.

WRITTEN QUESTION TO CABINET MEMBER FOR STREET SCENE AND PARKS FROM COUNCILLOR NEIL EUSTACE

F27 Public open space - Yardley East Ward and Yardley Constituency

WRITTEN QUESTION TO CABINET MEMBER FOR STREET SCENE AND PARKS FROM COUNCILLOR MORRIAM JAN

F28 Perry Barr Ward - Recycling

Question:

Could the Cabinet Member explain why the recycling was not collected in Perry Barr ward on Friday, 17th May, explaining why there was no catch-up collection and how many missed collections were record for the Ward?

Answer:

The Depot experienced operational issues on the day caused by a combination of staffing shortfall and vehicles breakdowns, which resulted in the following missed collections (reported between 17 and 22 May 2019):

- Recycling: 5 Individual Properties and 59 Whole Roads reported as missed.
- Residual: 1 Whole Road reported as missed.
- Garden: 0 missed collections reported.

So as to give a true reflection of collections missed, as far as possible duplicate reports have been removed from the above data where the same individual or whole road missed collections have been reported multiple times in the same week.

The recycling collection missed on the 17th May was cleared on the next scheduled collection on the 31st May 2019

WRITTEN QUESTION TO THE CABINET MEMBER FOR STREET SCENE AND PARKS FROM COUNCILLOR ROGER HARMER

F29 <u>Missed Collections since 2016</u>

Question:

Could the Cabinet Member set out the number of missed collections by ward and month since 2016?

Answer:

The attached spreadsheet details the number of both individual property and whole road missed collections reported per month, per ward, by collection type between the 1 January 2016 and the 31 May 2019. As Garden collections are only relevant to those customers who have subscribed, only individual missed collections can be reported.

So as to give an accurate picture on actual collections missed, duplicate reports (as far as possible) have been removed from the attached data where the same individual or whole road missed collections have been reported multiple times in the same week.

Due to the change in Ward boundaries on the 3 May 2018 there are two sets of data. The first is contained within the orange tabs and relates to the 40 ward structure between 1 January 2016 and the 30 April 2018 and the second within the purple tabs relates to the 69 Ward structure implemented after 3 May 2018.

WRITTEN QUESTION TO THE CABINET MEMBER FOR STREET SCENE AND PARKS FROM COUNCILLOR PAUL TILSLEY

F30 Grass Verges left uncut - why?

Question:

Why were the grass verges left uncut this year?

Answer:

The grass cutting has been delayed this year due to the change-over in service providers. On the 28th March 2019 all grounds maintenance operations transferred back into the City Council. Training and induction was then undertaken and this along with a delay in the delivery of machinery resulted in verges being cut later than I would have liked.

WRITTEN QUESTION TO THE CABINET MEMBER FOR SOCIAL INCLUSION, COMMUNITY SAFETY AND EQUALITIES FROM COUNCILLOR JON HUNT

G1 <u>Large gatherings noisy protesters outside city schools</u>

Question:

What consideration has been given to obtaining an order preventing large gatherings of noisy protesters gathering outside city schools during term time?

Answer:

All individuals have the freedom to protest, however these rights and freedoms carry with them duties and responsibilities that are necessary in a democratic society to protect public safety or prevent disorder or crime.

This means the right to protest must be assessed against the ability of schools to operate freely and ensure that children, staff and the local community are protected.

In situations where continued protests mean a school is unable to operate effectively and where the staff and children are at the risk of harm, the Council may seek injunctive relief as we have done in the case of Anderton Park School.

We will continue to keep matters under review as advised by our Legal Services Team.

WRITTEN QUESTION TO THE CABINET MEMBER FOR TRANSPORT AND ENVIRONMENT FROM COUNCILLOR JON HUNT

H1 Lozells constituents - A34 Perry Barr Flyover

Question:

Does the Cabinet Member believe that his constituents in Lozells are delighted by his plans to demolish the A34 Perry Barr flyover?

Answer:

The introduction of the wider transport infrastructure proposals in Perry Barr are key to encouraging more people to travel by bus, train and cycle. Modal shift is essential to the efficient management of traffic along the A34 and the wider movement of people in the context of growth and City Council policies.

The combined transport improvements will support the creation of a distinctive District Centre and will unlock housing growth in the area bringing forward more than 5000 new homes over the next 20 years

The Perry Barr flyover is a key element of proposed highway improvements, as well as place making in Perry Barr, and growth and transformation of Perry Barr District Centre. The flyover is a physical and visual barrier that contributes to transport and highways infrastructure dominating and bisecting the centre. Its removal will deliver a much more attractive and connected urban centre, whilst promoting sustainable forms of transport.

Once the project is complete, I have no doubt that residents not only in Lozells but all areas of the city will appreciate the regenerated area.

WRITTEN QUESTION TO THE CABINET MEMBER FOR TRANSPORT AND ENVIRONMENT FROM COUNCILLOR MORRIAM JAN

H2 <u>Disruption to Traffic by Perry Barr transport works 2020-2022</u>

Question:

Could the Cabinet Member state what assessment has been done of the impact on the city economy of the disruption to traffic caused by the proposed Perry Barr transport works between 2020 and 2022?

Answer:

The highway changes being considered at Perry Barr, specifically the A34 / A453 junction and the A34 / A4040 junction, are significant (whether the flyover is retained or removed). The construction works programme is expected to be around 2 year's duration, the programme will be developed once a contractor has been appointed and every effort will be made to deliver the highway changes in the shortest time possible.

The City Council has a duty under the Traffic Management Act 2004 to manage the highway network with a view to achieving, so far as may be reasonably practicable, the expeditious movement of traffic on the road network and the more efficient use of the road network having regard to its other obligations, policies and objectives. To deliver physical changes to the highway it is necessary to put in place temporary traffic management arrangements that may involve lane closures or lane narrowing and/or road closures. Where possible these restrictions are limited to off peak periods. Not only are these restrictions necessary for the efficient delivery of the works, they are required to ensure the safety of the construction workers and highway users.

There is no specific cost benefit analysis carried out to measure the disruption impact, the temporary traffic management proposals will change regularly throughout the construction period as the construction progresses, it is not practicable to assess the impact of the temporary traffic management as it will be constantly changing throughout the construction period. An air quality assessment of the impact of the construction together with the completed scheme is proposed for the preferred option in accordance with the air quality legislation for highway works.

The Council, working with the appointed Contractor, will be producing a comprehensive construction management plan and implementing travel demand management to help mitigate any adverse impacts during the construction period.

The proposed Perry Barr regeneration scheme is an extremely important and long-awaited opportunity for the city, which will deliver much-needed homes and better public transport for the citizens of Birmingham

WRITTEN QUESTION TO THE CHAIR OF LICENSING AND PUBLIC PROTECTION COMMITTEE FROM COUNCILLOR BABER BAZ

I <u>Funding for flytipping enforcement</u>

Question:

The city business plan and budget this year halved the funding available for flytipping enforcement. What impact has this had on the service?

Answer:

Funding for the Council's Waste Enforcement Unit has not been halved. Funding for the unit was in fact reduced by £300,000 to £600,000 from 1st April 2019.

The Unit has reviewed and modified its processes and threshold for intervention. Fly-tipping enforcement capacity and capability is being focused on offences which provide the greatest evidential likelihood of detecting and apprehending offenders. This includes prioritising incidents where there is a credible eye witness who is willing to give evidence in court, if required and on fly-tipping from vehicles where vehicle owners can be traced.

The Unit continues to work closely with colleagues across the council to triage information and intelligence reports relating to fly-tipping. This includes utilising the Units own CCTV observation equipment where this is proportionate and where the use is approved by the courts under the Regulation of Investigatory Powers Act. In addition, the Unit has maintained a cohort of 3 FTE officers whose primary role is to undertake duty of care investigations relating to compliance by businesses with waste disposal requirements.
