

Young Active Travel Trust: Grant Funding APPLICATION FORM

Please email the completed form to connected@birmingham.gov.uk

Name of School(s)	Mosley Church of England Primary School
Name of Head Teacher(s)	Mrs. D Gallagher
Project Title	Scooterability
Type of Applicant	School
Name of Lead Applicant	Rebecca Stent
Email address	r.stent@mosleeyce.bham.sch.uk
Telephone number	0121 449 0441
BCC / External School	Click here to enter text.
(If BCC) Fund Centre 'R' Code	Click here to enter text.

Signature of Head Teacher <i>(for a group of schools, only one signature is required)</i>	D Gallagher
Name	Mrs. D Gallagher
Date	07/07/2021

Signature of Lead Applicant	R Stent
Name	Rebecca Stent
Date	07/07/2021

About Your Project

1. Please describe the project you are asking for grant funding to undertake.

Please refer to the guidance notes for information about what sort of projects will be given priority.

We would like to purchase 15 pupils scooters and 2 adult scooter to enable us to deliver scooterability classes to our KS1 pupils. Encouraging these pupils to travel to school in a safer and more sustainable way, this initiative will also:

- provide equipment for lessons for KS1 children that involve scooters,
- to aid our gross motor programmes with an alternative approach, using a scooter,
- provide the children with the basic riding and balance skills,
- improve the fitness of the children,
- increase the confidence of children and enjoyment whilst using a scooter,
- improve the health and emotional wellbeing of our children by being in the outdoor environment,
- allow access to scooters to children who may not have one at home.

2. What you will spend the grant funding on?

We will use the funding to purchase 16 child scooters (£30 each) and 2 adult scooters (£40 each). This will enable us to get the project underway, as part of the funding we wish to build in a replacement programme over a 5 year period to enable the programme to continue to our new cohort of pupils each year. Any remaining funding will be put towards costs to maintain the scooters each year. We are aiming that this project will continue to be delivered yearly for as long as possible. When the funding has all been spent we would look to raise funds through other school activities to support and continue with this project.

15 X Scooters at £30 each - £450

2 X Adult Scooters at £40 each - £80

15 x Kids Helmets at £12 each - £180

2 x Adult helmets at £15 each - £30

Replacement programme to purchase additional scooters with remaining money

Year 1 - £90

Year 2 - £90

Year 3 - £80

3. What benefits do you expect to result from the project?

This project will support the physical opportunities to this age group and will aid their development as well as promote the sustainable travel message at Moseley. It will also:

- support our car free streets initiative by encouraging more children to scoot to school and make use of our scooter storage facilities,
- empower parents by giving them the confidence and knowledge that their children are safe when wishing to scooter to school having received the appropriate scooterability training,
- provide a different delivery to the children's PE lessons,
- increase the children's confidence whilst using a scooter,
- improve children's balance and gross motor skills,
- improve the children's health and emotional wellbeing following come out of lockdown

Support our staff training development.

4. What positive legacy will the project have on the school or wider community and what will happen when the grant funding stops?

The purchase of scooters would provide a valuable resource for many years. They are a commodity that can be maintained and used on an ongoing basis. It may allow children the confidence to ask for scooters to be a sustainable way to travel to school.

Its important to change the way our children travel to school early and by introducing this programme and them having fun doing this, may influence their travel choices though out their school life, and supporting us in the reduction of car use around the school gate.

5. How does this project connect with your Modeshift STARS Travel Plan?

Please note funding is only available to schools who have committed to developing school travel plans through the on-line Modeshift STARS programme; or schools who will commit to registering on Modeshift STARS and achieving bronze level within 12 months (from date of award of grant).

This project will enable us to deliver scooterability training which completes an ongoing action on our travel plan.

It will also improve the health and physical wellbeing of all pupils involved, something which we continually strive to achieve.

The project promotes sustainable travel. Parents and pupils will also have the confidence knowing they are safe to use their scooters to travel to and from school.

These types of activities promote good health and clean air around our school gates.

6. Estimated project start date

Autumn 2021

7. Estimated project completion date

Ongoing

8. Approximately how many pupils will be involved in this project?

90

9. Estimated total cost of the project

£1000

10. Amount of Grant funding sought

£1000

Evaluation

11. Please explain how you intend to evaluate the impact of the project and how you will measure success?

We will conduct surveys before, during and after the project to determine the impact and to investigate whether the number of families driving to school has decreased. We will also set up a team of pupils who will regularly monitor the amount of scooters being stored at school to see if there is an increase after the project has been launched. We will update our findings on our travel plan.

Grant applications will be assessed and presented for determination to the Trusts and Charities Committee, as sole corporate trustee of the Young Active Travel Trust.

Details of your application may be referred to in publicly available committee reports, along with subsequent feedback or evaluations of any schemes funded by the Trust. Please indicate below your acceptance:
