Housing Transformation Board

Exception Report Quarter 1 2015-16

The following measures missed their targets and scored a 'Red' rating.
The services responsible have provided the following exception report.

Leasehold and Right to Buy (Sukvinder Kalsi)

Measure: Right to Buy compliance to statutory timescales

Page: 10

Target: 92%

Performance: 60%

Commentary provided by: Louise Fletcher

Right To Buy documents to admit or deny applications are being issued within target deadlines. However the issue of S125 Offer Notices has been delayed again this month, due to additional money laundering and social housing fraud checks, as the increase in checking more robust information and subsequent queries from tenants is impacting on workloads. Discount levels and legislation have changed, Home Sales are waiting for Northgate to be updated, which has resulted in the time taken to produce an offer and supporting documentation, increasing by 100%, due to manual processes being in place. These delays have not resulted in any complaints from tenants, or their legal representatives, but there has been an increase in the number of telephone queries from tenants which is also having an impact.

Voids and Lettings (Gary Nicholls)

Measure: Average days to let a void property (from Fit For Let Date to Tenancy Start Date)

Page: 37

Target 10

Performance: 20.7

Commentary provided by: Gary Nicholls

It should be noted that the Fit For Let (FFL) to Tenancy Start Date (TSD) KPI is a component part of the overall void turnaround figure. The overall void turnaround for non-sheltered properties is Green. The overall void turnaround for all void properties is Amber. The primary reason for delays between FFL and TSD relate to long delays letting low demand sheltered properties and the fact that some properties are viewed and refused several times before they are eventually let. A number of initiatives are being undertaken such as joint working with colleagues in the Allocation service to speed up the shortlisting and re-shortlisting process. The impact of Monday only tenancy start dates is also being reviewed. The Sheltered Housing Service Improvement project is also addressing the issue of low demand sheltered accommodation.

Asset Management and Maintenance (John Jamieson)

Measure: We will respond to emergency repairs in two hours

Page: 50

Target 100%

Performance: 95.7%

Commentary provided by: John Jamieson

Performance has improved in June and is within contractual target levels. This is a difficult target to achieve given the narrow time scale, but we are working with our contractors to continuously improve their performance. This includes analysis of cases where the emergency was exaggerated to improve guidance to both our tenants and the Customer Contact Centre to reduce unnecessary call outs enabling the focus to remain on genuine emergencies.

Measure: We will resolve routine repairs within 30 days

Page: 51

Target 100%

Performance: 91.6%

Commentary provided by: John Jamieson

Performance is improving and to build on this we will be working with the repairs contractors to identify the types of routine repair where they are typically failing to meet the 30 day target to address how such work can be expedited. This is also being addressed in the performance monitoring and measures for the forthcoming new contracts currently being procured and commencing April 2016.
