R07	That the charges on bulky waste are reviewed with a view to removing these charges, or as a minimum removing these for vulnerable groups (including those on low income or with disabilities)	Cabinet Member, Street Scene and Parks	March 2021	4 2 – 11 November

Evidence of Progress (and Anticipated Completion Date if 'Not Achieved')

25 March 2021

Options are currently being developed and appraised regarding changes to the existing payment model for the service with the aim to specifically support residents where the current fee is a barrier to use. In addition, new funding has been identified in the 2021/22 budget for two additional vehicles and crews to carry out bulky waste collections. These new crews will support the three existing crews, which currently provide the service.

8 July 2021

We have reviewed this recommendation and given the impact on the budget it is considered unachievable, we have therefore decided to try and offer a different solution. We have found that Nottingham is one of the few authorities to offer a free collection service:

- One free collection per household per year and £15 per collection thereafter
- All electrical collections chargeable - £10 for the first item and £7.50 per item thereafter.

Nottingham has still seen a growth of 47% in fly tipping 2017-2020 compared to Birmingham's 36% increase.

The plan is to create 4 mobile HRC teams. They will operate across the City and the team will comprise a compactor vehicle (for non-recyclable items) a multi sort vehicle (for recyclable items) and a box van to take an item that could be reused. The Team will visit individual roads, Parks or housing estates and stay there for up to 4 hours to allow residents to bring their waste to them. The crew on site will be there to assist and support residents. There is currently one team in operation and is working in the Selly Park area supporting student cross over and the remaining 3 teams will be up and running within the next 4 weeks.

11 November 2021

A fleet of Mobile Household Recycling Centres (MHRCs) is now being rolled out on the streets of Birmingham. The four MHRCs will comprise a regular refuse collection vehicle, a van for taking away items that can be reused by charities and a wagon with multiple compartments, enabling people to drop off waste for recycling by material type. The vehicles will visit every ward of the City at least once in the calendar year.
