

Covid Vaccination Overview

Data extracted on 07/09/2021

Vaccine roll out

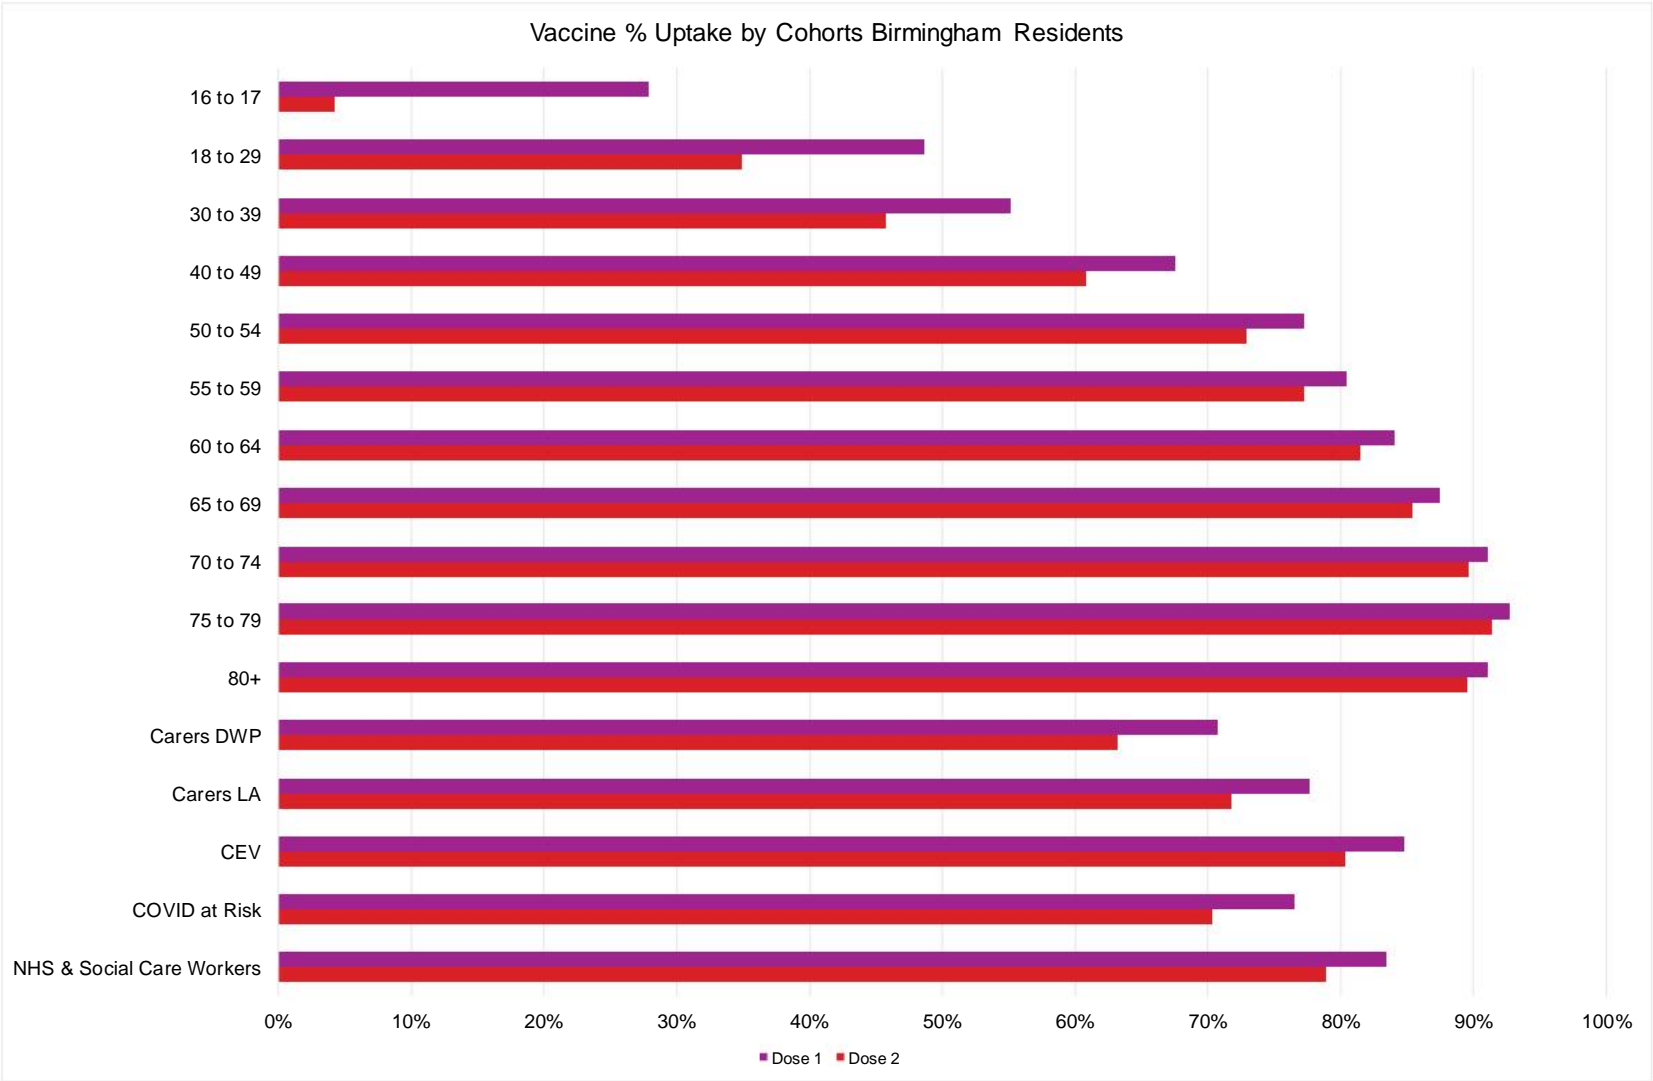

- Everyone over the age of 18 in England can now and are encouraged to now book their Covid-19 vaccine.
- Vaccine is being extended to children aged 12 to 15 with severe neurological disorders, Down's syndrome, immunosuppression, multiple or severe learning disabilities and young people aged 12 to 17 who live with an immunosuppressed person.
- All 16 and 17-year-olds in England are now eligible for their first COVID-19 vaccine dose. Anyone in this age group can now find their nearest centre through the 'grab a jab' NHS online walk-in finder:
<https://www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/find-a-walk-in-coronavirus-covid-19-vaccination-site/>
- The Joint Vaccination and Committee on Immunisation have recently [published](#) an update on the vaccination of healthy 12-15 year olds, advising “the health benefits from vaccination are marginally greater than the potential known harms. However, the margin of benefit is considered too small to support universal vaccination of healthy 12-15 year olds at this time”. The CMO's are going to review this and consider their recommendation as the JCVI did not take into account any of the impact of infection on education loss due to sickness absence, nor the wider societal benefits in controlling the spread of infection.
- So far around 88.6% of England adults aged 16+ have had their 1st vaccine dose, and 79.6% their 2nd dose. This compares to 65.1% and 56.4% in Birmingham.
