Appendix 7: - Draft Day Opportunities Strategy Consultation - Events Data

During the course of the consultation, events were held across the city at a number of venues. These venues were distributed throughout the constituencies to allow the maximum number of individuals to attend should they wish. Furthermore, events were arranged at differing times of the day in neighbouring areas and in the north and south of the city such that they were available to those individuals who had differing patterns of work or social responsibilities.

A list of the sites for the events is presented below.
