|                    |  |
|--------------------|--|
| <b>1. Purpose:</b> |  |
| 1.1                | To inform the Health and Wellbeing Board of locality level place based intelligence resources currently available as part of the JSNA. |
| 1.2                | To seek the Boards support in identifying wider place based intelligence resources to further develop the JSNA.                        |

|                          |   |   |
|--------------------------|---|---|
| <b>2. Implications:</b>  |   |   |
| BHWB Strategy Priorities | Detect and Prevent Adverse Childhood Experiences  | N |
|                          | All children in permanent housing   | N |
|                          | Increase the control of individuals over their care through Integrated Personal Commissioning (Personal Health Budgets and Direct Payments) | N |
|                          | Increasing employment/ meaningful activity and stable accommodation for those with mental health problems                                   | N |
|                          | Improving stable and independent accommodation for those learning   | N |

|  |  |   |
|--|--|---|
|  | disability   |   |
|  | Improve the wellbeing of those with multiple complex needs | N |
|  | Improve air quality  | N |
|  | Increased mental wellbeing in the workplace                | N |
| Joint Strategic Needs Assessment               |  | Y |
| Joint Commissioning and Service Integration    |  | Y |
| Maximising transfer of Public Health functions |  | N |
| Financial                                      |  | N |
| Patient and Public Involvement                 |  | N |
| Early Intervention                             |  | N |
| Prevention                                     |  | N |

### **3. Recommendations**

- 3.1 The Board to note the place based intelligence available to inform development of a place based approach to delivering services.
- 3.2 That Board Members feedback any additional locality based intelligence resources and needs as part of the further development of the JSNA.

### **4. Background**

- 4.1 A proposed locality model for a place based approach to delivering health & social care service has been presented to the Board previously. Five localities have been identified in Birmingham, each consisting of two current local authority districts.
- 4.2 Currently the JSNA web site does not contain place based resources amalgamated at the proposed locality footprint. However, a series of health profiles at district level, on which localities are based are available.
- 4.3 The District Health Profiles were launched in January 2018 having been

developed over time with district committees based on data routinely available at district and/or ward level.

These can be found at:

[https://www.birmingham.gov.uk/info/50120/public\\_health/1332/district\\_health\\_profiles/1](https://www.birmingham.gov.uk/info/50120/public_health/1332/district_health_profiles/1)

- 4.4 There is a variety of information available on each district and ward, including population, age, employment and health. A guide to using the profiles is attached.
- 4.5 The web page also links to ward level data available from an automated Public Health England reporting system and summary District data from the 2011 Census.

## **5. Future development**

- 5.1 The Public Health Intelligence team is currently working to amalgamate relevant data at a locality level. However, given the size of localities and the diversity within them data may still be better presented at district or lower level.
- 5.2 The Health & Wellbeing Operations Group will be looking to include relevant intelligence resources from wider partners that are reported at a locality level as part of the JSNA development.
- 5.3 Ideally, in the longer term we would like to develop an automated reporting system at locality and district level to ensure that up to date data are available. However, this is dependent on overcoming internal IT issues.

## **6. Compliance Issues**

### **6.1 Strategy Implications**

This paper concerns sources of intelligence to develop local strategic decision making.

### **6.2 Governance & Delivery**

To be overseen by the Health and Wellbeing Board

**6.3 Management Responsibility**

The Health and Wellbeing Board

**6. Risk Analysis**

N/A

| Identified Risk | Likelihood | Impact | Actions to Manage Risk |
|-----------------|------------|--------|------------------------|
| #               | #          | #      | #                      |
