On 3rd November 2017 Superintendent Andrew Parsons, on behalf of West Midlands Police, applied for a review, under Section 53A of the Licensing Act 2003 (as amended by the Violent Crime Reduction Act 2006), of the Premises Licence granted in respect of Arthouse (Scru Club), 54 Bissell Street, Birmingham, B5 7HP.

The application was accompanied by the required certificate confirming that in his opinion the premises are associated with serious crime and disorder. See Appendix 1.

Within 48 hours of receipt of an application made under Section 53A, the Licensing Authority is required to consider whether it is appropriate to take interim steps pending determination of the review of the Premises Licence, such a review to be held within 28 days after the day of its receipt, review that Licence and reach a determination on that review.

Licensing Sub-Committee A met on 6th November 2017 to consider whether to take any interim steps and resolved that the Premises Licence be suspended pending a review of the Licence.

On Tuesday 31st October, an event called Applebum was planned for Rainbow Warehouse, Digbeth, Birmingham. The event was advertised as being from 22:00 – 04:00.

This event was promoted nationally at several cities across the north of England in addition to Birmingham.

Due to issues with the Rainbow licence, this event was moved at the last minute to Arthouse Venues, Bissell Street, Digbeth, without police knowledge.

Arthouse Venues had supplied a risk assessment for a Halloween party with an expected audience of 200 customers. The times for this risk assessment were from 22:30 – 02:00 (The terminal hour for licensable activity at this venue on a Tuesday night is 02:00)

Arthouse venues did not communicate with WMP to explain that they were holding this event or any changes to their RA.

Initial investigations suggest there was an obvious issue with capacity, as customers were calling the 999 network to state that the club was so busy that they could not get out. It appeared that the management had totally lost control of the venue.

Following this event, there were no incident reports submitted by the venue.

Today, WMP have been made aware of an incident in the venue where a male has been attacked inside the venue, resulting in his jaw being broken in two places. This incident meets the criteria of serious crime and has been recorded as inflicting GBH.

This serious crime was avoidable, as this event should not have taken place at Arthouse. The hosting of this event at such short notice seriously undermined public safety which led to a serious crime being committed.

West Midlands Police are seeking the immediate suspension of the premise licence for this venue.

Notes for guidance:

1. A certificate of the kind mentioned in the form must accompany the application in order for it to be valid under the terms of the Licensing Act 2003. The certificate must explicitly state the senior officer's opinion that the premises in question are associated with serious crime, serious disorder or both.

Serious crime is defined by reference to section 81 of the Regulation of Investigatory Powers Act 2000. In summary, it means:

- conduct that amounts to one or more criminal offences for which a person who has attained the age of eighteen and has no previous convictions could reasonably be expected to be sentenced to imprisonment for a term of three years or more; or

- conduct that amounts to one or more criminal offences and involves the use of violence, results in substantial financial gain or is conduct by a large number of persons in pursuit of a common purpose.

Serious Disorder is not defined in legislation, and so bears its ordinary English meaning.

2. Briefly describe the circumstances giving rise to the opinion that the above premises are associated with serious crime, serious disorder or both.

West Midlands Police

CERTIFICATE UNDER SECTION 53A (1)(B) OF THE LICENSING ACT 2003

I hereby certify that in my opinion the premises described below are associated with serious crime and disorder

Premises: Arthouse

Premise Licence Number: 4646

Premise Licence Holder: Art Venue Limited

Designated Premise Supervisor: Latisha Pemberton

I am a Superintendent in West Midlands Police.

I am giving this certificate because I am in the opinion that the procedures under the Licensing Act are inappropriate in this case because the standard review procedures are thought to be inappropriate due to the seriousness of the crime and disorder, which has led to a male having his jaw broken inside the venue.

The level and seriousness of the incident in terms of the crimes being committed warrant the use of this power.

I have considered the use of the normal review procedure but I do not feel this would be appropriate in these circumstances due to the above reasons, and the fact that to maintain the licensing objective of preventing crime and disorder the normal review procedure would not be sufficient.

The concern of West Midlands Police is that if immediate steps are not taken to consider the operation of this venue then similar incidents could occur.

I am conscious of the guidance contained within the Section 182 guidance around Summary Expedited reviews and given the emphasis that is given to use of this power to tackle serious crime and disorder, my feelings that this process is deemed appropriate are further enforced.

BIRMINGHAM CITY COUNCIL

LICENSING SUB COMMITTEE - A

MONDAY 6 NOVEMBER 2017

ARTHOUSE, 54 BISSELL STREET, BIRMINGHAM, B5 7HP

That having considered the application made and certificate issued by West Midlands Police under Section 53A of the Licensing Act 2003 for an expedited review of the premises licence held by Art Venue Ltd in respect of Arthouse, 54 Bissell Street, Birmingham, B5 7HP, this Sub-Committee determines:

that the Licence be suspended pending a review of the Licence,

such a review to be held within 28 days of receiving the Chief Officer of Police's application.

The Sub-Committee's reasons for imposing this interim step are due to concerns raised by West Midlands Police in relation to matters which came to light as a result of an incident during an event held at the premises on Tuesday 31st October 2017, as outlined in the Chief Officer of Police's certificate and application.

The Sub-Committee heard the submissions of West Midlands Police, who confirmed that an investigation had started. A Halloween evening event was being promoted by a national event promoter. The promoter was putting on the same "Hip-Hop Horror Show" night at various licensed premises across the country, including Birmingham. The Birmingham event had been scheduled to be held at licensed premises in Lower Trinity Street. However on the scheduled day, the promoter had wished to change the Birmingham venue at very short notice, and had approached Arthouse, who had agreed to accommodate the event.

Arthouse's operating hours were 1030 hours to 0200 hours – yet the promoter had marketed the event on social media as "1000 hours to 0400 hours". An initial Risk Assessment had been passed to West Midlands Police which stated that the expected attendance for the night was 200 persons, but neither Arthouse nor the independent promoter had informed the Police that the event was being moved from other premises to Arthouse – either in advance of the event, or even the next day. Indeed West Midlands Police had only discovered what had gone on when they were passed an email between a member of the public and the promoter. The Police observed that poor notification of events by Arthouse was an issue that they had previously raised with Arthouse via their solicitors.

On the Friday (3rd November 2017), West Midlands Police were informed of an incident of serious crime and disorder that had happened at the Halloween event – namely that a male patron inside the premises had become involved in an altercation with two other male patrons, which had culminated in an assault in which his jaw was broken. It was suspected by Police that the assault had

happened in the first room into which patrons pass as they enter the premises. The patron had been taken to hospital, and it was thought that he had had to have his jaw wired, and/ or a steel plate inserted in his jaw. He also had associated injuries such as face swelling. He was not yet well enough to give a statement to Police.

It was the recommendation of West Midlands Police that the licence be suspended whilst the Police investigated. It was the initial view of West Midlands Police that Arthouse had taken on somebody else's event at very short notice, for which they were not prepared, and as a result there had been an episode of serious crime and/ or disorder. Arthouse had not informed the Police of the venue change in advance; nor had the Police had any contact from Arthouse on the night. The only 999 calls received were from patrons of the premises, about other issues (not the broken jaw assault). The Police had not found out what had happened until after the event. The door staff had been informed of the incident at the time, but the two men were not stopped, and they left the premises.

The Sub Committee determined that the potential causes of the incident appeared to originate from inadequate internal management procedures at the premises, such that a patron appeared to have been attacked by others and had suffered a serious injury requiring hospitalisation and surgery. The Sub-Committee was particularly concerned to hear that although West Midlands Police had requested the CCTV, the premises licence holder had been unable to produce it, which was wholly unsatisfactory in circumstances where serious crime/ disorder had occurred. During the meeting it became apparent that there were problems over the operation of the CCTV in general – several cameras were thought to have been offline on the night, which caused the Police to question whether the premises was in fact operating without the CCTV arrangements which are a condition of their licence.

The premises, via their legal representative, urged the Sub-Committee not to suspend the Licence; they considered that the issues could be managed by the imposition of additional conditions, such that the premises could continue to operate. However the premises accepted that the Risk Assessment had not been done correctly, and also that there were some problems surrounding the operation of the CCTV, with which Arthouse's CCTV consultant was assisting.

Having heard the premises' account, the Sub-Committee determined that it was both necessary and reasonable to impose the interim step of suspension to address the immediate problem with the premises, in particular the likelihood of serious crime and or serious disorder, and to promote the prevention of crime and disorder objective in the Act.

The Sub-Committee considered whether it could impose any other interim step, including modification of licence conditions, or exclusion of the sale of alcohol by retail or the removal of the Designated Premises Supervisor. The Sub-Committee did not believe however that any of these would address the seriousness of an assault in which a patron had his jaw broken. The risks could only be addressed by the suspension of the Licence as an interim step.

In reaching this decision, the Sub-Committee has given due consideration to the City Council's Statement of Licensing Policy, the Guidance issued by the Home Office in relation to expedited and summary licence reviews, and the submissions made at the hearing by the Police, by the legal representative for the premises, and by the premises licence holder.

All parties are advised that the premises licence holder may make representations against the interim steps taken by the Licensing Authority. On receipt of such representations, the Licensing Authority must hold a hearing within 48 hours (excluding non-working days).

All parties are advised that there is no right of appeal to a Magistrates' Court against the Licensing Authority's decision at this stage.

Subject: ArtHouse Further Representations

Licensing,

West Midlands Police are continuing to investigate the serious crime that occurred at Arthouse/Scruclub on the night of 31st October this year.

As part of our investigation, and wider enquiries made into the venue, a number of further representations need to be made today, for inclusion at the full hearing. We appreciate that Jordan Patel states he has only been operating the venue for a short time period (end of September) but even in this short period of time, we have significant concerns.

We would also like to raise

- Public safety issues caused by last minute movement of Appleburn event
- Firearms intelligence relating to the venue raising further crime and disorder concerns which has come to light since the suspension
- Previous police interventions as we had concerns over events being booked which would have breached the premises licence.

Thank you

3 Overview of the Grounds for Review

Taken from the West Midlands Police Certificate for Expedited Review

On Tuesday 31st October, an event called Applebum was planned for Rainbow Warehouse, Digbeth, Birmingham. The event was advertised as being from 22:00- 04:00.

This event was promoted nationally at several cities across the north of England in addition to Birmingham.

Due to issues with the Rainbow licence, this event was moved at the last minute to Arthouse Venues, Bissell Street, Digbeth, with police knowledge.

Arthouse Venues had supplied a risk assessment for a Halloween party with an expected audience of 200 customers. The times for this risk assessment were from 22.30 – 02.00 (the terminal hour for licensable activity at this venue on a Tuesday night is 02.00).

Arthouse Venues did not communicate with WMP to explain that they were holding this event or any changes to their RA.

Initial investigations suggest there was an obvious issue with capacity, as customers were calling the 999 network to state that the club was so busy they could not get out. It appeared that the management had totally lost control of the venue.

Following this event, there were no incident reports submitted by the venue.

Today, WMP have been made aware of an incident in the venue where a male has been attacked inside the venue, resulting in his jaw being broken in two places. This incident meets the criteria of serious crime and has been recorded as inflicting GBH.

This serious crime was avoidable, as this event should not have taken place at Arthouse. The hosting of this event at such short notice seriously undermined public safety which led to a serious crime being committed.

4 Public Health response

Licensing Objective	Response
<i>The prevention of crime and disorder</i>	<p>There have been clear breaches of conditions of licence, conditions that are in place to prevent crime and disorder. There has been a fundamental breakdown in the ability of the venue to be able to promote these conditions, and therefore to be able to promote the very objective to prevent crime and disorder.</p> <p>This is a venue that has allowed an event to take place that did not have permission to take place, not because it was refused, but because the venue chose not to inform West Midlands Police, and submit a risk assessment. The failure of the venue to adhere to its conditions of licence led to the event taking place, being out of control, and culminating in one person having their jaw broken in two places, and needed urgent hospital treatment. This was wholly avoidable.</p> <p>There is a specific condition that states the following: "All events to be held at the premises are to be risk assessed". This simply did not happen. This is a serious breach of this condition, and a fundamental failure to promote the objective to prevent crime and disorder.</p> <p>Did West Midlands Police receive a notification of this event at least 28 days prior to the event taking place? (We seek clarification). If notification was not received then this is another breach of conditions of licence.</p> <p>We are disappointed and disturbed by the fact that the serious crime that took place within the premises was not reported to West Midlands Police by the premises.</p> <p>This is an area (at LSOA level) that our alcohol tool registers as red for alcohol related crime. It is also registered as red for alcohol related hospital admissions – this is an area where alcohol is a problem. Licence holders should be setting a precedent in promoting the very objectives designed to reduce these issues, and should certainly not be contributing to them.</p>

Public safety	<p>This is the Second City, it is a young city, and therefore attracts many young people to events such as the one that we are discussing today, it is of paramount importance the we promote public safety at every opportunity, and even more fundamentally if this is in fact a condition and an objective that you have agreed upon in your application for an alcohol licence, and have subsequently obtained on the basis that you will indeed promote the objectives and conditions. It is our opinion that there is no place in Birmingham for licence holders who cannot promote public safety, and therefore guarantee public safety, especially when this means that people feel so threatened in an environment that they have to call 999 to inform the emergency services that it is so overcrowded that they cannot get out.</p> <p>It would seem that this is an event that was promoted to run until 4am. The condition of licence states that events occurring on a weeknight are only licensed until 2am. If after clarification from the committee and supporting officers that it is the case that the event was running after 2am then this is another fundamental and separate breach of the conditions of licence. (we seek clarification)</p>
The prevention of public nuisance	
The protection of children from harm	
<p>Summary</p> <p>It would seem that there is a cumulative impact with reference to the inability of the licence holder to be able to promote the licensing objectives, and the conditions attached to the licence. We have no confidence that the licence holder can promote the specific objectives of preventing crime and disorder, and promoting public safety, this is apparent because of the breaches of conditions that have taken place, specifically relating to not informing West Midlands Police that the event would be taking place, not providing a risk assessment, not reporting a serious crime (we don't consider "not knowing that it took place" as being a defence. It is up to the venue to know about these things, and indeed to prevent them from happening in the first instance.</p> <p>There was the real and significant risk to the safety of the public due to overcrowding, and also due to there being no risk assessment consultation with West Midlands Police, and also due to not notifying the police of the event in any instance.</p> <p>The venue was clearly operating outside of its conditions, and was not able to promote the very conditions that are there to prevent crime and disorder, and to promote public safety. We urge the committee to consider whether this venue, and licence holder are able to promote the conditions to protect the public from crime and disorder, and to ensure public safety.</p> <p>We also suggest that the committee consider, on the balance of probability, if it has any confidence in the ability of the venue and the licence holder to be able to promote the other objectives, to protect children from harm, and to prevent public nuisance, given that they</p>	

cannot promote the other two objectives.

Within a one mile radius of the venue, and in one month (August 2017) there have been 1456 individual crimes recorded for that month, including 301 for ASB, 24 Drugs, 10 possession of weapons, 74 public order, 280 violence & sexual offences. Due to the inability of the venue and the licence holder to be able to promote their objectives and fulfil their conditions, they are contributing to these statistics, this is not acceptable.

5 Supporting Evidence and Information

5.1 Public Health Statistical Analysis

The statistical analysis in Appendix 1 has determined a **HIGH RISK rating (RED)** against a series of key alcohol related crime offences.

This rating is based upon an analysis of a range alcohol related datasets through our Alcohol Risk Assessment Tool. This allows Public Health to place the premises' postcode into the tool and assess against the surrounding area, compare against the Birmingham LSOA average, examine the larger Ward area and impact within the district.

In particular, there is a high concentration of on- and off-license premises in this area and analysis has rated domestic violence as RED / HIGH RISK.. There are also commissioned alcohol misuse treatment services nearby.

It is important to note that the figures provided show statistical significance, meaning they are RAG rated by whether this LSOA is any better or worse than the average of all other LSOAs. As such, some figures show an AMBER or GREEN rating even though they may represent significant risk or have a high number of incidents in that area – the figures themselves are high, but the area may not be any worse than the average LSOA rating.

A clear example is Police (Non-Domestic Violence) which has been rated as GREEN (better than Birmingham's LSOA average); however, incidents are recorded as 124 for this area which represents a significant risk to health and is therefore rated as **HIGH RISK**.

Please note: Birmingham is made up of 10 districts with approximately 100,000 people in each; each district contains four ward of approx. 25,000 people; each ward contains approx. 20-25 LSOAs (lower super output area) of approximately 1,000 -1,500 people in each.

See Appendix 1

5.2 Crime

In August 2017, West Midlands Police reported 1456 individual crimes for that month, within a 1 mile radius of the property. These breakdown into several categories, a sample of which are below:

- Anti-social behaviour 301
- Criminal damage and arson 90

- Drugs 24
- Possession of weapons 10
- Public order 74
- Violence and sexual offences 280

Figure 3 in Appendix 3 shows the immediate vicinity around the premises and crimes recorded. 22 incidents were recorded in August 2017 in the same or neighbouring roads and included robbery, theft, violence/sexual offences, anti-social behaviour and public order

It is important to note that these are one month's figures.

The table below shows the number of recorded crime within 1 mile radius of the premises by month. It is clear that this area has a high crime rate which should be taken into consideration when considering the premises ability to uphold the licensing objectives.

Month	Number of recorded crime within 1 mile radius of premises (by month)
Aug 2017	1456
July 2017	1333
June 2017	1308
May 2017	1463
April 2017	1333
March 2017	1390
Feb 2017	1294
Jan 2017	1240
Dec 2016	1403
Nov 2016	1312
Oct 2016	1458
Sept 2016	1429
Aug 2016	1362

5.3 Transport Links

Access to public transport may become a consideration where premises are situated in residential areas (and customers will have to walk through the same residential areas to access transport) or where there are limited transport links resulting in large groups of people waiting for collection or walking through estates further.

In this instance, the premises are within the city centre boundaries within easy distance of several all-night buses, local buses, train stations (Moor Street and New Street) and main road connections (e.g. Bristol Street). This makes the premises easily accessible over a 24 hour period.

See Appendix 3

5.4 Impacts on economic activity

From a *public safety* pillar perspective, we're concerned that this type of criminal behaviour could deter investment, job creation, employment sustainability and the opportunity to socialise as part of

the night-time economy. Public Health outcomes, especially in the context of the wider and social determinants depend on a number of factors; two of these key factors are the creation and sustainability of safe environments and opportunities for employment.

5.5 Conditions of License

The premises conditions of license clearly state the West Midlands Police must be notified of all events happening within 7 days of the events and all late night events must be risk assessed within 28 days of the events.

The statement provided by the West Midlands Police states an event was risk assessed but they were not notified of the changes to the event when the Rainbow event moved to the Arthouse, and of the extended opening hours (the original risk assessment started closing at 2am, however the Rainbow event was advertised to run until 4am).

Failure to notify the Police of the changes and complete a revised risk assessment based on the additional numbers expected and timings of the event led to the venue staff "losing control" of the event, causing overcrowding and panic (calls were made to 999 stating they were unable to get out). Had this event been properly assessed and managed, the subsequent assault could have been prevented.

The Police statement also draws attention to the fact the club did not report the incident (a condition of license).

Failure to meet these conditions and uphold the licensing objectives is a serious breach of license.

Appendix 1. Public Health Data Analysis

Interpretation of this document:

Variable geographical levels of information have been used where available, in each case this is based on the post code of the application falling within this larger geographical area. Two terms are less commonly used outside of certain specialist areas and are detailed below:

- LSOA (Lower Super Output Area) is a geographical Census area with an approx. population of 1,500.
- MSA (Medium Super Output Area) is a geographical Census area with a approx. population of 8,000.

Scores have been calculated by comparing the geographical area in question to the average at a higher level (Birmingham in most instances). 10% margin of error has been applied to both the smaller and larger areas and it is only where these are still relatively different that a RED (more prevalence or risk in area compared to average) or GREEN (less prevalence or risk in area compared to average) score has been calculated. Where these margins for error overlap in any way this has been calculated as AMBER (indifference).

1 Tier One Data Overall LSOA Score: RED / HIGH RISK

This score has been generated based on information regarding alcohol related violence and domestic violence, existing on-licences and off-licences, alcohol related fires, alcohol related safeguarding, underage sales and the existence of a cumulative impact area. These elements have been viewed as having the largest measurable impact on whether the licence should be granted and actual numbers were made available on a low level geography. The score is by quartiles and these are colour coded worst to best as Red, Amber, Yellow, Green. Full details below.

Whilst Alcohol Related Ambulance Activity is viewed as Tier One data it has not been possible to include it in the overall LSOA score as the data is only available on a post code district level.

1.1 Tier One Indicator Scores and Risk Ratings

Alcohol Related Ambulance Activity score was generated using actual incident information covering the period of September 2014- April 2015 provided by West Midlands Police Service.	AMBER / MEDIUM	The score for the Post Code District was AMBER or 1 on a scale of 0-2 meaning that it was not significantly statistically different from the average across all Post Code Districts. There were 10 incidents in the Post Code District in the period.
Police (Non-Domestic Violence) score was generated using actual incident information covering the period of 2008-2013 provided by West Midlands Police Service.	GREEN / HIGH	The score for the LSOA was GREEN or 0 on a scale of 0-2 meaning that it was significantly statistically better than the average across all LSOAs. There were 124 incidents in the LSOA in the period.
Police (Domestic Violence) score was generated using actual incident information covering the period of 2008-2013 provided by West Midlands Police Service.	RED / HIGH	The score for the LSOA was RED or 2 on a scale of 0-2 meaning that it was significantly statistically worse than the average across all LSOAs. There were 21 incidents in the LSOA in the period.

Existing On-Licences score was generated utilising a list of all current existing Alcohol Licences of the relevant type known to Birmingham City Council. GREEN / LOW	The score for the LSOA was GREEN or 0 on a scale of 0 or 2 meaning that it was significantly statistically better than the average across all LSOAs. The individual post code does not fall wholly or partly within a CIA.
Fire Services score was generated using actual incident information on a Post Code level covering the period of 2009-2014 provided by West Midlands Fire Service.	AMBER / MEDIUM	The score for the LSOA was AMBER or 1 on a scale of 0-2 meaning that it was not significantly statistically different from the average across all LSOAs. There were 0 incidents in the Post Code in the period.
Safeguarding score was generated utilising factors identified at the end of Birmingham City Council Children assessments over the period 01/04/2014 to 31/03/2015 that were alcohol relevant at a post code level.	AMBER / MEDIUM	The score for the LSOA was AMBER or 1 on a scale of 0-2 meaning that it was not significantly statistically different from the average across all LSOAs. There were 0 incidents in the Post Code in the period.
Underage Sales Justified Complaints was based on information provided from the relevant department covering the period 2009-2015 at a post code level. There were 0 incidents in the Post Code in the period.

2 Tier Two Data Overall Aston Ward Score: **AMBER / MEDIUM RISK**

This score has been generated based on information regarding alcohol specific deaths, liver disease preventable deaths, counterfeit activity and whether reducing alcohol consumption is a

priority for the District. These elements have been viewed as having an indirect impact on whether the licence should be granted and were made available on a medium level geography, some of the information utilised is estimates rather than actuals. The score is by quartiles and these are colour coded worst to best as Red, Amber, Yellow, Green. Full details are below.

2.1 Tier Two Indicator Scores and Risk Ratings

Alcohol Specific Deaths score was based on information provided by Birmingham Public Health comparing ONS actual figures on alcohol specific deaths with ONS ward population estimates covering the period 2011-2013 on a ward level.	AMBER / MEDIUM	The score for Nechells Ward was AMBER or 1 on a scale of 0-2 meaning that is not significantly statistically different from the average across all Wards. The directly standardised rate calculated was 28.91.
Liver Disease Preventable Death score was based on information provided by Birmingham Public Health comparing ONS actual figures on alcohol specific deaths with ONS ward population estimates covering the period 2011-2013 on a ward level.	AMBER / MEDIUM	The score for Nechells Ward was AMBER or 1 on a scale of 0-2 meaning that is not significantly statistically different from the average across all Wards. The directly standardised rate calculated was 28.24.
Counterfeit Activity was based on information provided from the relevant department covering the period 2009-2015 at a post code level.	GREEN / LOW	The score for the LSOA was GREEN or 0 on a scale of 0-2 meaning that is significantly statistically better than the average across all LSOAs. There were 0 incidents in the Post Code in the period.
District Priority was determined by all Post Codes that fall within a District that has currently identified alcohol as one of their priority issues.	RED / HIGH	The score for this application was RED or 2 on a scale of 0-2. Nechells Ward does fall within a District that has alcohol issues as a current priority.

3 Tier Three Data Scores

Low number of indicators and differing geographies do not allow for a meaningful overall score. The information is of a high level, estimated numbers and / or a wider social determinant rather than a more direct link.

- Binge Drinking MSOA: **AMBER / MEDIUM RISK**
- Alcohol Related Hospital Admissions MSOA: **RED / HIGH RISK**
- Commissioned* Alcohol Misuse Services MSOA: **RED / HIGH RISK**
- Mental Health Adults Services in Ladywood District: **AMBER / MEDIUM RISK**

*Based on working age adult information only, while the service provider for children and older adults was engaged there was not sufficient volume of data to enable a meaningful analysis.

4 Summary

The statistical analysis above has determined a HIGH RISK rating (RED) against a series of key alcohol related crime offences.

In particular, there is a high concentration of on- and off-license premises in this area and analysis has rated domestic violence as RED / HIGH RISK.. There are also commissioned alcohol misuse treatment services nearby.

It is important to note that the figures provided show statistical significance, meaning they are RAG rated by whether this LSOA is any better or worse than the average of all other LSOAs. As such, some figures show an AMBER or GREEN rating even though they may represent significant risk or have a high number of incidents in that area – the figures themselves are high, but the area may not be any worse than the average LSOA rating.
