I am the above named person and I live at the address on leaf

I am making this statement in relation to being stabbed with a knife, whilst out with my friend, on Sunday October 29th, 2017.

I arrived, alone, at Nuvu on Brindley Place. I had decided to go out and have a drink. I had been to Nuvu a few times and like it there.

As I said, I arrived there about 0045 hours on Sunday October 29th, 2017. Not long after arriving I saw someone I know from my gym. I only know this person as [REDACTED]. We had a couple of drinks together, I had 4 Jack Daniels. It felt like a good night and a nice atmosphere.

I was upstairs having a drink, stood next to the V.I.P. barrier. I had my back to the barrier and V.I.P. area. As I stood chatting I suddenly felt wet on my back. I turned and looked asking "Did you just splash me?" to no-one in particular. Being splashed was not an issue and I wasn't bothered.

Homene, on the other side of the V.I.P. area was a male, a black male, who was smoking. I thought nothing of it really until the blond girl stood not far from me, went over to the V.I.P. barrier, where I watched the black male, who had been smoking, grab hold of her hair, pull her low and then repeatedly punch her in the face. There were very quick, rapid punches to the girl's face.

I walked over to them - he was on the V.I.P. side and the blond girl was my side.

I didn't want to grab and pull the girl away as the male had her hair in his fist and I was afraid of hurting her more. So I pushed the male hard to stop him assaulting the girl. He released the girl and I made sure she was away from them. I then saw her friend, who had brown hair, go over to the barrier area, where she was then shouting over the barrier.

I saw the group that the male ^{who} had hit the blond girl, being aggressive towards her too. There were probably about 6 males all together. It was the males (friends) who were then being intent towards the brown haired girl. I managed to get the brown haired girl away and one of the males - not the one who had hit the blond, kind of

apologised saying that his friend had had too much to drink, and I shook a big lad's hand. I thought that was the end of it.

I did offer to shake the male who had hit the blond girl's hand but he shook his head no.

I was chatting to the same big male when all of a sudden from my left side I felt a smack to my face. I couldn't believe it. I thought it was over. I turned and saw it was the same male who had repeatedly punched the blond girl. I asked "what was that for?"

A random male came up to me to tell me I was bleeding and that there was no point in standing around. I thought, yeah that's true, so I went to clean up. I had a small split on my left cheek just below my left eye.

As I went downstairs alone, I have no idea where [REDACTED] had gone. I saw the blond girl being carried by members of the public, she was unconscious.

I had gone downstairs and cleaned up my face in the toilet. I had also gone to the bar and got some ice for my face before going outside to the street to ask the door staff to evict the violent, troublesome males, out. However there was only one door man on the door so I thought I would wait

until he was joined by others to ask them to go in a group to exit the males. Whilst I was waiting for the door men to come back to the door, it was then that I saw the blond girl being carried out. I watched the blond girl be placed on the floor. I saw that her friend with the brown hair was screaming for the police to be called and asking the door men not to let the males out. I guess 60 seconds later, I watched the group of males come out. The male who had hit the blond went over to her. She was still unconscious. He picked her up from the floor and was being really rough with her. He was shaking her. I told the doorman that that was the male causing problems and the doorman disappeared inside, leaving no one on the door. I was only 6 feet away from the male and the female on the ground. I was stood with an ice pack on my face from where he had hit me. I saw him point at me and say "That's him". He also said something else that I didn't quite catch. The male and his friends - about 6 males - then surrounded me and they all punched me repeatedly. I was punched and punched by these 6 males for a good 30 seconds. It was non-stop, relentless. I felt they were trying to get me on the ground. Most of these

punches were to my face and joints area. I really felt like they were trying to get me on the floor, and to knock me out. I managed to break away - I just don't know how I managed it but I did. I was behind a concrete bollard or planter, still outside Nivo. I was kind of dancing around the concrete bollard or planter to avoid the males, when all of a sudden I had a punch to my left eye which really hurt and caused my vision to blur. This really threw me. I lost my vision a little which scared me. I didn't see who threw that punch. However, I did then see a male - a smaller male in a black T-shirt - still part of their group approximately 8 feet in front of me, in a particular stance holding a knife out in front of him, in his right hand. I couldn't believe my eyes. I remember saying "you're pulling a knife on me, what have I done to you?" With that the male lunged at me - aiming at my stomach area, he thrust the knife at my stomach. I didn't feel pain but the knife was so close to me I pulled my check T-shirt up to check. I hadn't been stabbed. Whilst I did that the same male yanked my chain from around my neck. I thought oh my God what is happening here.

I then ran to get away from the knife. The male ran after me with the knife. I headed back towards the club, to Nono. I walked distance between me and the male. I headed to the club to get behind the barriers situated at the club. I did get behind the barriers where it was then brought to my attention that my right arm was pouring with blood. There was blood everywhere, a big pool of blood coming from my arm. The group of males had disappeared. I couldn't see them anywhere. An ambulance and the police were called.

An ambulance took me to hospital where my injuries were assessed. I have a four inch, deep stab wound to my right arm. I have had a number of stitches in it - I don't know how many but it is 4" in length.

I have a very bruised and swollen face. My left eye is completely closed and swollen and badly bruised. My jaw is swollen on both sides - it is twice the size it normally is. My whole head hurts. I have been given anti-biotics and have to have my stitches out in 2 weeks.

I would describe the male who was hitting the blond girl and who hit me initially in the face in the club, as a black male, approximately in his early 20s, about 6'0" tall and slim with broad shoulders - athletic.

he had very short hair at the sides and longer curly hair on top. He had a properly groomed thick beard but was groomed. He was wearing blade but I cannot remember any more. I would recognise him again if I saw him.

The male with the knife was also black, he was shorter - 5'7"-5'8", slim build, he had a black t-shirt on. He had short black hair. I would be able to recognise him again if I saw him. The knife he produced had a silver blade which was about 3 inches in length. The way he was holding it, I couldn't see any of the handle and he used it in a punching action.

I had a good, clear, unobstructed view of the two described males. I was lit by other members of a group there & more with but apart from saying they were black, I cannot remember anything else about them.

I do use Niro from time to time but I have not seen these males before and I have no reason to know them.

This whole incident has shocked me. I can't believe it has happened. I just wanted to go out for a drink and to socialise, to have a knife pulled on me, let alone to be stabbed is absolutely shocking to me. I'm in a lot of pain and discomfort.

I now have a very bruised and swollen face. I don't want to see anyone with how I look. I give West Midlands Police permission to have access to my medical records in relation to this incident.

I am also willing to attend court if required to do so. Can I please just add that my chain - the stolen chain - is a silver Thomas Sabo chain. It was around £800. It has a large silver dragon on it. It is quite chunky.

NUVO - ACTION PLAN

Identified Risk	Action to be Taken	Completion Date
GLASSWARE:- Recent incidents at the venue on 6th April 2014 have involved reports that glassware and bottles were being used as weapons during a disorder and broken glass was found on the floor within the venue.	Polycarbonate/plastic glassware will be used upstairs in the venue in the provision of drinking vessels and mixer bottles (except for champagne and speciality spirit bottles). Specific polycarbonate glassware has been ordered. Extra measures will be put in place to ensure that no glassware from downstairs is transferred upstairs. Glassware from downstairs will not be allowed to be taken outside after midnight.	01/06/2014
	Glass collectors to be more vigilant and frequent in checks of the venue.	01/06/2014
	Champagne to be table service only.	01/06/2014
DOORSTAFF:- During the incident on 6th April, it was found that security were not present in the room where disorder broke out, even after they were told to be aware of possible frictions between groups within the venue. Doorstaff did not get involved in the incident to prevent and also stop disorder which gives concern as to safety of staff and other guests in the venue. Doorstaff did eject persons involved in the disorder but there was no duty of care to possible injuries sustained by persons ejected.	Current Security policy to be reviewed. Decision made by DPS to remove various doormen from employment at the venue.	01/06/2014
	Greater emphasis/training on communication between doorstaff and venue management with regards to incidents within the venue.	01/06/2014
SCENE PRESERVATION:- During the disorder there was a lot of blood and smashed glass across the floor where the disorder occurred. Staff had begun to clear this up prior to police examination as a crime scene.	Any potential scenes of crime/evidence will not be cleared up until a Police Sergeant has authorised it.	01/06/2014
