Vision for Adult Social Care and Health

What are we consulting you on?

The key aspirations of this proposed draft Strategy are to:

- 1 Focus on the individual, their strengths, choices, assets, and goals through person centred planning.
- 2 Focus on the outcomes that service users and carers wish to achieve.
- 3 Provide support that enables the person to access a range of opportunities in the wider and their own community as an active and equal citizen.
- 4 Focus on skills development, improving independence in daily living i.e. travel training and employment where possible.
- 5 Maximise the opportunity to use budgets or direct payments to access support or activities of the citizen's choice.
- 6 Make the most of a vibrant and developing city, ensuring access to the wide range of opportunities Birmingham has to offer.
